money, for one purpose—to become a lawyer.

While attending the University of Detroit, he worked nights in a factory. He returned to
Anurban, entered general legal practice, got married and began a family. He got his first

carries a lot of weight against him,
even though he knows that
Newman and Lefkowitz have been close friends since
boyhood days on the lower East

Newman in the high post and
Newman, on the other hand, is
willing to serve in this capacity.

Another example is Paul
Hays, former New York Circuit
Court of Appeals Justice, who
President Kennedy named to the U. S.
Supreme Court. While serving as GOP chair-
man in the House, he announced in 1959 that he
wished to stay on the bench.

History can refute the claim
that all political leaders are nothing
more than bosses. An outstanding
example is Roscoe Pound,
who was appointed to the
Supreme Court by President
Calvin Coolidge.

Ex-Marine to Head Troop G of State Police

(From Leader Correspondent)

ALBANY, June 4—Inspector Louis C. Viehl, a Marine Corps veteran, has assumed command of Troop G of the State Police.

The promotion was announced by Arthur Cornelius Jr., superintendent of State Police, who said Captain Viehl would succeed Captain Joseph A. Sheeler, whose accidental illness during a court appearance will be effective June 14th.

As a result of a serious automobile accident May 19, Captain Sheeler sustained injuries which have made it impossible for him to return to active duty, Cornelius announced.

In assuming Viehl to captain, it was stated that he had entered the State Police in 1949 only to go on military leave in 1943. He returned to the State Police in 1948 after serving as a Marine infantry company commander, and staff officer with the Fourth Cavalry Group in Austria.

Captain Viehl is a graduate of the FBI National Academy in Washington, D.C. and has served widely before law enforcement groups. His salary as Troop Commander will be $12,350 a year.

Captain Steely began his enlistment as a Troop A in 1932 and rose through the ranks to command a troop in 1957.

Health Department Awards 25-Year Pins to 17 Aides

Seventeen members of the New York State Health Department received 25-year service awards recently at annual award ceremonies in the Health Department building on Holland Avenue, Albany.

Veteran's Legislation

The following laws pertinent to veterans were passed by the 1961 Session of the New York State Legislature and recently signed into law by Governor Rockefeller:

1. **Blind Annuity**
   - **Effective** May 1, 1962, it is no longer necessary for an eligible child of a deceased veteran to choose between a VA Regional Scholarship and the United States War Orphans Assistance which is administered under the Federal laws. In effect, an eligible child will be able to receive simultaneously the benefits under the War Orphans Assistance Program and the New York State Regents Scholarship Program, provided he or she meets other necessary qualifications.

2. **State Veterans Blind Annuity**
   - The new law, to the extent not inconsistent with Federal law, provides for the veterans' blind annuity, which is administered under the Federal laws. In effect, a child of a deceased veteran to whom a veteran's blind annuity is payable is entitled to receive a New York State Annuity, to which he or she may be otherwise eligible.

3. **Domestic Relation Law**
   - This law provides that the Division of Veteran's Affairs of the State of New York will not be required to pay a fee to either a town or city clerk for a marriage certificate to a veteran or veteran's widow.

4. **Education Law**
   - This law provides that a veteran who is employed in the military or in the civilian capacity, in either the armed forces or the National Guard, on active duty in the United States, or who is retired or honorably discharged from the armed forces, shall be eligible for a leave of absence on the condition that he is not commissioned for pay during such leave of absence. Furthermore, leaves of absence shall be granted in such a manner that no veteran shall at any time during his leave of absence be required to leave his residence, except by direction of his commanding officer. During leave of absence, his present rank shall be continued.

5. **Veteran's Blind Annuity**
   - Veterans who are blind and totally disabled as a result of service in the armed forces shall be eligible for a New York State Veterans Blind Annuity.

Rules Calling On
Vets Preference Unfair to Many

Editor, The Leader:

In reference to the State Employee who is not entitled to Veteran's preference because he enlisted out of state (Letters To The Editor, May 17), I wonder how many such cases there are in New York that are victims of this unfair ruling.

A person can enter New York from another state, enlist in the military, receive minimum service time, apply for a Civil Service position and receive full veteran's credits.

I was born in New York State, resided here 15 years, served in the U.S. Navy during World War II for three years, have worked for the state 10 years and am entitled to no veteran's preference because we left the state temporarily, due to ill health in the family, at which time the war broke out and I enlisted.

I believe the last promotional exam with a mark that could have placed me in the top 10 but because of this practice it was not held. I believe the additional 241 points I was lowered to 123rd, disallowing all chances of promotion that I believe would have and disallowing all future hopes.

I am sure there are many more legal cases of this nature. It seems to be because of this practice, lose their incentive to try for promotion. I can understand the Senator’s reluctance at getting involved in this problem and agree that persons enlisted in New York State should be given first opportunity for state positions, not be denied due to this problem and agree that persons enlisted in New York State should be given first opportunity for state positions, not be denied due to this problem, disallowing all chances.

Disagrees With
Injury Record

Editor, The Leader:

Your report of injuries for the month of May 22, 1962, on the front cover, shown by Mayor Wagner to the City’s sanitation men certainly was unfair and for one believe that the jobs they do at home are the same as the City’s sanitation men certainly was unfair and for one believe that the jobs they do at home are the same as the jobs they do on the job. When a sanitationman was injured he would report sick for the job. When a sanitationman was injured he would report sick for the job. We still maintain that the Mayor erred when he said he never enjoyed what the firemen did.

Questions Answered
On Social Security

Below are questions on Social Security problems sent in by our readers and answered by a legal expert in the field. Anyone with a question on Social Security should write for an answer to the Social Security Editor, Civil Service Leader, 27 Duane St., New York 7, N.Y.

I have a household employee who has worked for me for the past year. If he were to leave his present job, then be entitled to social security taxes, I have never reported her earnings. What should I do?

You should visit your nearest social security office immediately, and the employee may report to your office for her report to be made.

Did the 961 amendments to the social security law reduce the length of time a person must work under social security to qualify for monthly benefits?

Yes. Under the 1961 changes to the social security law, a person needs credit equal to only one-fourth of the time after 1959 and up, but not counting the year he is 65 (or 62 if a woman). Work at any time after 1959 counts toward minimum credit requirement.

I am interested in knowing how the maximum social security program is financed. How can I get this information?

You may secure our booklet, No. OASI-26, "Financing Your Social Security Benefits," by writing to the Social Security Administration. This booklet explains how our program is financed.

My wife, who never worked, recently died. She was collecting benefits as his wife. I paid her burial expenses. Can I receive the lump-sum death benefit?

You are entitled to the lump-sum death benefit in the case where an individual was receiving benefits on the worker’s account. The death benefit is only payable on the account of the insured worker.

Two Reappointed
Syracuse Forestry
College Visitors

ALBANY, June 4 — Donald M. Mawhiney of Syracuse and James Fishler Lewis of Beaver Falls will continue as members of the Board of Directors of the State College of Forestry at Syracuse University.

The Governor, in announcing the two reappointments, said that "no one has given more time and effort to support the exempt volunteer firemen in their relationships with the fire districts and governments. This service of the exempt volunteer firemen and local governments is important, and I wish that more attention were paid to them.

Special Benefits

HAVE YOU ever heard of Section 200—not of the Civil Service Law, but of the General Municipal Law? It probably has affected you, perhaps several times. It is the exempt volunteer fireman's law.

THERE ARE a number of instances where the Civil Service Law confers privileges on exempt volunteer firemen (Section 70, 86). For example, in Section 75, it is provided that an employee shall not be removed from his position or subjected to any other disciplinary penalty except for incompetence or misconduct shown after a hearing upon stated charges if he is (1) a permanent appointee in the competitive class or (2) if he is a permanent appointee in any other class and is a veteran or "is an exempt volunteer fireman as defined in the municipal law of the city where the person resides.

IN OTHER words, an exempt volunteer fireman gets the benefit of every provision of the removal section, the same as any other exempt employee and the same as a veteran. There is no difference.

Let's Look In

THE ONLY question is what is the definition in the General Municipal Law? Section 200, 86, says: "Defining qualifications of exempt firemen. An exempt volunteer fireman is hereby declared to be a person who as a member of a volunteer fire company is on the rolls of the department that he is a member of for at least one year at any time after attaining the age of eighteen years factually actually performed service in the protection of life and property from fire within the territory immediately protected by the company of which he is a member and while a bona fide resident and if, of full age, an elector therein for a period of five years."

That is essentially it!

Some Decisions

THE STATE Comptroller generally interprets Section 200 for inquiries in a series of volumes entitled "Opinions of the Comptroller Relating to Municipal Government." He has made Section 200 strong for the men involved. Let me give some illustrations.

FOR EXAMPLE on October 6, 1940, the Comptroller wrote: "A person is not disqualified for eligibility to service in a fire company because he is temporarily dis- abled by illness."

ON JUNE 13, 1957, the Comptroller wrote: "It is not necessary that a volunteer fire company shall have rendered fire fighting services under a contract in order that a member may qualify as an exempt volunteer fireman."

These decisions throw a great deal of service and support the exempt volunteer firemen in their relationships with the fire districts and governments. The national laws between exempt volunteer firemen and local government are important, and I wish that more attention were paid to them.

FOR THE BEST IN REAL ESTATE — PAGE 19

ALL FOR ONE...

In H.I.P., that one is you.

A major source of satisfaction in a group practice plan is knowing that you are in the hands not just of one doctor but of a whole team of well qualified physicians.

Today everyone recognizes that no single physician can master all branches of medicine. Good medical care requires that doctors with different skills and training work together and consult together in your behalf.

Your H.I.P. family doctor is trained to detect illness in its early stages and to treat a wide variety of illnesses. At the same time — by practicing in a group—he has available to him the combined knowledge and experience of his specialist colleagues.

Since H.I.P.'s services are fully prepaid, you also have the satisfaction of knowing that you will not be faced with doctor bills for referrals to H.I.P. specialists in fourteen fields of medicine and surgery — no matter how many visits have to be made. This also applies to the X-ray and laboratory procedures so important to a correct diagnosis.

GROUP Medical Practice means GOOD Medical Practice
City Drivers Needed; File During June

The delayed filing for New York City positions as motor vehicle operators which was postponed in March, will open on Wednesday at a top salary of $102 a week.

There was no age requirement for that last test, but candidates were required to have a valid chauffeur's license by the time of their appointment.

The current eligible list for motor vehicle operator was set up in February of 1959 and will expire in February, 1963. Thus by the time the list from this exam is established the other will be nearly expired.

The written test, to be held in time of need, will be designed to measure candidates' knowledge of motor vehicle operation and ability to follow directions.

There are 70 provisional services in the title now, and there are 200 budgeted vacancies. This means that 200 more jobs may be filled during the year, pending the budget director's approval.

This Week's Civil Service Telecast List

In-service-training programs of interest to civil service employees are being telecast daily over television station WUBB, Channel 31. This station is New York City's new ultra-high frequency station operated by the Municipal Broadcasting System through an agreement with the Federal Communications Commission.

Channel 31 can only be received on television sets equipped to receive the ultra-high television signals. Most sets can be equipped to accept the high range signals by the addition of an inexpensive tuner which can be purchased at many electronics dealers in the metropolitan area.

For information on the location of these dealers, write: In-Service-Training; Civil Service Leader, 97 Duane St., N.Y.C. 7, N.Y.

This week's programs include:

- Tuesday, June 5
  - 6:30 p.m. Nutrition and You—Department of Health course.

- Wednesday, June 6
  - 3:30 p.m. Around the Clock—Police training program
  - 5:00 p.m. City Close-Up—Interview with Madison Jones of the CORB

Dispute Over Paying Utica Aides Fading

(From Leader Correspondent)

UTICA, June 4—Withdrawal of a candidate for a police job by the commission because a police department job had withdrawn his name before the Board of Supervisors, as reported June 1, created a stir in Utica.

Rocco F. DePierro, chairman of the Municipal Civil Service Commission, said that one of three applicants for police department jobs had withdrawn his name before the Board of Supervisors, as reported June 1, created a stir in Utica.

The three applicants led the eligibility list for patrolmen, but Hamlin said he did not want to appoint any of the three. Hamlin said two of them had failed to make it through the interview process, and the third had been involved in "disgraceful conduct." He said he was satisfied with the police department's decision and would not appoint any of the three.

Still Some Discussion

DePierro warned, however, that the commission would hold up the city payroll if Hamlin did not accept the commission's decision.

Stefano Fiumara, president of the school board, said he has chosen to accept the commission's decision.

David Bon, the president of the school board, said he has chosen to accept the commission's decision.

BUFFALO, June 4—New officers of the Erie Chapter, Civil Service Employees Association, and the chapter's eight units were installed May 23 at the annual dinner in the Glen Paric Casino, Williamsville. Buffalo Senator Frank Gillis, Albert M. Dulan, who had pledged to retire Oct. 31, was toastmaster. Claude Rowell, John Williams, Edward Bellone, Charles Masseo, and Lela Haley were installed.

Starcher's Casino, Williamsville.

State Senator Frank Gillis, Buffalo Democrat, was chief toastmaster. Claude Rowell, Chairman Donald Neff, county personnel commissioner and CSEA first vice president, respectively; Supervisor Leon Starcher, and Minority Leader Edward Bellone, extended greetings to the officers and members. The officers installed were:

President:

Edward Bellone, John Williams, and Leon Starcher.

Vice President:

John Williams and Leon Starcher.

Secretary:

Edward Bellone, John Williams, and Leon Starcher.

Treasurer:

Edward Bellone, John Williams, and Leon Starcher.

The officers were sworn in by the CSEA president, Albert M. Dulan, who had pledged to retire Oct. 31.

30 years of service were honored at a reception given in their honor recently. Visit the sick, the poor.

At one point in the dispute, the commission turned down a Board of Education request that the job of superintendent be open to non-Uticaans after two months. If there were not enough Uticaans to fill the job, the job would be opened to non-Uticaans.

The commission is responsible for most of the city's workers who have retired recently from the Harlem Valley State Hospital. The embarrassing aspect of the situation is that the city workers would be able to get a job in the hospital and then leave it.

Presentation of 25-year pins to the various guest member as well as various guest members of the Board of Visitors, and to the men by Dr. Joseph Feily, CSEA president.

John Williams and Leon Starcher.

CSEA Progress and Growth Cited By Raymond Castle At Jefferson Installation

WATERTOWN, June 4—The "tremendous growth" of the CSEA's and its "wonderful progress" in the past few years was related by Raymond W. Castle, second vice president of the state civil service association, at the recent installation dinner-dance of the Jefferson county chapter.

The installation dinner-dance was held Friday night at the Jefferson Hotel, the formal part of the event consisting of the installation of the chapter board of supervisors and the new officers of the chapter, the presentation of citations to retiring officers, and the address of the keynote speaker, Mr. Castle.

Mr. Castle, in his address, recited the growth in the chapter and in the entire CSEA since the association's national conference was held in 1959, when the chapter membership was 1,200.

Mr. Castle said that under the leadership of the chapter chairman, Mr. Samuel Borrell, the chapter had grown to approximately 3,200 members—enough to have a delegation at the CSEA's first national conference this summer.

Mr. Castle related, "When you consider that the chapter was founded in 1951, that shows wonderful progress in five years." The chapter membership has increased to about 3,200.

Mr. Castle said that the chapter had made great strides in the area of collective bargaining. He said that under the leadership of the chapter chairman, Mr. Samuel Borrell, the chapter had a strong bargaining unit, and that the chapter had been able to negotiate a strong contract with the state government.

Mr. Castle said that the chapter had made great strides in the area of member involvement. He said that under the leadership of the chapter chairman, Mr. Samuel Borrell, the chapter had a strong member involvement program, and that the chapter had been able to increase member involvement in the chapter's activities.
