CSEA Goes To Governor On Overtime Memo: Hurd Studying Ranger Request

ALBANY, Oct. 28—The Civil Service Employees Association last week took its case for an administrative directive on new State overtime rules—which the State Budget Division refused to recommend—directly to Governor Rockefeller.

The request to Rockefeller, CSEA presipident, Joseph F. Felly, said “We believe an increase of this size is necessary,” said Alexander T. Burke, chapter president, to “bring salaries into line with other government agencies and with private industry.”

Other requests made by the chapter include:

- That the chapter pay the full amount of Blue Cross-Blue Shield insurance. Employees now pay half the cost.
- Longevity pay, equal to one increment, after 10 years service.
- Differential pay, at least $150 a year, for employees who work 4 p.m. to midnight and midnight to 8 a.m. in hospitals, jails and other institutions.

An increase of three cents, ten cents, in mileage allowance for employees who use personal cars on county business.

Double sick leave accumulation to 300 days. City of Buffalo employees enjoy this benefit, Burke noted.

Unpaid sick leave to be paid in cash on retirement.

More simplified procedure and greater reimbursement for auto insurance.

Five days “personal” time for all employees.

Burke prepared the request with Neil Cummins, chairman of the chapter’s salary committee.

Gerbier, a sphere reporter, attended the hearing.

On-Train Party Held For Burkes 38th Birthday

BUFFALO, Oct. 28—Alexander T. Burke, president of the Buffalo chapter, Civil Service Employees Association, and Mrs. Burke, celebrated their 38th wedding anniversary Oct. 14 and got hundreds of congratulations messages from chapter members.

The couple had an impromptu anniversary party on the train that brought chapter delegates to Buffalo from the annual CSEA meeting in Albany.

Plaidee To Hold Installation Dinner

The Plaidie School District Unit of the Nassau Chapter, Civil Service Employees Association, will hold its annual installation of officers and dinner November 19 at the Gas Lamp Restaurant in Bethpage.

Notice To Members Of CSEA Accident And Health Plan

Increased benefits are being offered to members of the Civil Service Employees Assn. Accident and Health Plan under a new program announced last week by Ter Bush & Powell, Inc., agents for the Plan.

Basic purpose of the proposal is to allow participants in the plan to increase income by 50 percent, while hospitalized, through purchase of a rider to personal contracts. This rider would be available to persons under 59 without a physical examination.

As an example, a person who has purchased benefit that guarantees an income of $150 a month while hospitalized would receive $225.

A tabulation of premiums and an application form for the additional benefit are contained in an advertisement on Page 4 of this issue.

South Conference Names Group To Map Title Appeal

Representatives from 13 State institutions have been named to form plans for presenting a reclassification and reallocation for State institutional clerical employees under the auspices of the Southern Conference of the Civil Service Employees Assn.

Nicholas Punzi, conference president, said the representatives will hold a meeting in the immediate future. Purpose of the Conference action is to formulate an appeal that will serve all clerical employees throughout the State.

Erie CSEA Is Seeking 15 Percent Raise, Fringe Benefits For Employees

(From Leader Correspondent)

BUFFALO, Oct. 28—Erie chapter, Civil Service Employees Assn., which represents Erie County employees, has asked the Board of Supervisors for a 15 percent across-the-board pay increase for 1964.

“Do Not Repeat This!”

Not All Of GOP Against Bill For Off-Track Betting

O n the surface, it would appear that off-track betting in New York City (and the rest of the state) is something ardently desired by Democrats and just as ardently opposed by Republicans. Mayor Robert Wagner has declared the revenue from legalized betting shops would give City and State at least $100,000,000 a year to both. The Republican leader, with Assembly Speaker Joseph F. Carlin as the spokesman, declines to accept the Mayor’s figures and declares that legalized, off-track gambling is bad in itself.

It would seem, then, that if (Continued on Page 2)

FREE BOOKLET BY U. S. Government on Social Security. Mail or call. Leader, 17 Duane Street, New York 7, N. Y.
Don't Repeat This!

(Continued from Page 1) bill on off-track betting was let out of committees in the Republican-controlled Senate last week. It would be defeated. A survey by The Leader shows that it probably will be.

There is the difference between the official line of the GOP leadership and the private feelings of rank-and-file GOP legislators. Carlini genuinely feels that off-track betting would cause more problems than it would solve and that it would be politically harmful to the Party in conservative, Protestant upstate areas.

The local, upstate legislators we surveyed are quietly having other thoughts about off-track betting. There isn't a political subdivision in the State that doesn't have track betting would mushroom around the State. Said one upstate Republican leader, we spoke to, and so the risk will be avoided.

For this reason, whenever a community problem comes to the attention of mass transportation—Pat Hayes and his crew of civil service prophets who work in the Department of Forward Planning—Hayes and his assistant prophets sit down, discuss it, and write a prediction of what will happen.
Overtime Action

(Continued from Page 1)

T. Norman Hurd, Budget Director, told the Association he had been in contact with Conservation commissioner Harold Wilm on CSEA's request for overtime pay for Conservation department personnel who have been working day and night for the past several weeks fighting serious forest fires throughout the State.

Hurd said that "As soon as the emergency has been met and the Conservation Department has had an opportunity to identify the impact on its personnel, Commissioner Wilm will request such action as he considers fair and equitable. As soon as the magnitude of this problem has been identified, we will be in a position to decide on the appropriate steps to take."

Forest ranger and district ranger among those titles excluded from right to earn overtime credits under the new rules. A recent CSEA appeal to reconsider the decision on the two titles was similarly denied.

Budget Act on Overtime

Meanwhile, CSEA learned last week that four additional titles had been removed from the list of positions ineligible to accrue overtime credits. The four titles added for overtime by Budget are all in the Budget Division. They are budget examiner, (Grade 18); research analyst, public finance (Grade 18); administrative assistant (Grade 18); and chef de camp (Grade 20).

Tapper, Perkins, At Montgomery Chapter Dinner

AMSTERDAM, Oct. 28 — "There cannot be strong membership in a chapter without strong public relations," Gary Perkinson, public relations director for the Civil Service Employees Association, pointed out to his listeners last week. "We are all in the Budget Division. They are budget examiner, (Grade 18); research analyst, public finance (Grade 18); administrative assistant (Grade 18); and chef de camp (Grade 20).

Tapper, Perkins, At Montgomery Chapter Dinner

AMSTERDAM, Oct. 28 — "There cannot be strong membership in a chapter without strong public relations," Gary Perkinson, public relations director for the Civil Service Employees Association, pointed out to his listeners last week. "We are all in the Budget Division. They are budget examiner, (Grade 18); research analyst, public finance (Grade 18); administrative assistant (Grade 18); and chef de camp (Grade 20).

25-YEAR AWARDS — 24 Divisions of parole employees were recently honored for 25 or more years of State service at a recent dinner held in Albany by the Division. (See below)

John Swart Named

ALBANY, Oct. 28 — John A. Swart of Amsterdam has been named to the Board of Trustees of the Central Conference County Workshops.

Dr. O. A. Allen

ALBANY, Oct. 28 — Dr. O. A. Allen, health officer for Schuyler County, died last month at the age of 70. He had been in public health work since 1929.
U.S. Employment Agency

(Continued from Page 3) on civil service operations in his specific area. Certainly this is a
magnificent job for one man and a secretary.

Management Specialists

Back in the New York City home office, a staff of highly
competent Personnel Management Specialists form a
section known as Personnel Operations. The specialists
perform much of the clerical work of the metropolitan
area as the representatives do in their areas. They also
take care of the various representatives' offices to assist and
form the inspection teams mentioned previously.

In addition, this staff acts as an advisor to the various Federal
agencies in matters concerning incentive award programs, training
programs, job qualifications, testing devices, use of
tests, employee services, and
classification of positions.

This staff also conducts the annual Federal Service Entrance
Examination, an exam which involves thousands of applications
monthly.

Management and Review

Another mainstay of the division is the Program Management and
Review section. This section handles all employee appeals of
classification (in an employee classified in the right salary
range, etc) and appeals on salary retention regulations.

The quarterly informational magazine of the Office, "Outlook" is edited by the PM
staff. Another internal
function is to provide support for the entire Division on budget
analysis, personnel planning and
other staff functions.

"Reception Desk"

The "reception desk" of the
Office Building, Buffalo; State
Office Building, Syracuse; and

B"linton local's stop is City Hall.
Both lines have exits to Duane
Street, one block from the Per-
sonnel Department.

Friday is a 4 p.m. To 5:30 p.m.
Monday through Friday, and

blocks north of City Hall. Just
located at 96 Duane St., New York
Saturdays from 9 to 12 noon.
7, N.Y. (Manhattan). It is two
blocks east, or take the shuttle
from the City Personnel Depart-
ment's Broadway entrance, so the
office is near the "reception section. One portion of this
operation is done by the Information
Office which answers inquires
on employment opportun-
ities in the Federal service, ex-
aminations, and other such ques-
tions. Most of these inquiries are
made in person but telephone and
mail contacts are also involved.

Also under Information and
Processing is the Examinations Ser-
vice Office. This important sec-
tion is responsible for the rating of written tests, scheduling and
arranging of examinations, estab-
lishing lists, and the certification of names for vacancies. In addi-
tion, the service provides test
material for both the Boards of
Examiners and the Civil Service
Commission.

There are few major Industries
employing such a well-organized
office. Regional Office's PMD is reflec-
ted in every phase of a person-
nel management. The work of the New York-New Jersey taxpayer's life.
Begin Study Now For Fireman Test

Filing is expected to open during the December filing period for the fireman examination which is tentatively set for Spring.

As an assistant to readers, The Leader will publish past examinations and answers so that applicants can see whether or not they are adequately prepared for the examination.

The first group of questions are taken from the last examination in November, 1962. The answers will appear in next week's edition.

1. In case of a fire in a U.S. Mail Box the Fire Department recommends that an extinguishing agent which smothers the fire, such as carbon tetra-chloride, should be used. Of the following, the most likely reason for not recommending the use of water is that:

(A) water is not effective on fires in small tightly enclosed spaces; (B) someone might have mailed chemicals that could explode in contact with water; (C) water may damage the mail untouched by fire so that it could not be delivered; (D) the smothering agent can be put on the fire faster than water can be.

2. Of the following, the main difficulty in the way of obtaining accurate information about the causes of fires is that:

(A) firemen are too busy putting out fires to have time for investigation of the causes of fires; (B) most people have little knowledge about fire hazards; (C) fires destroy much of the evidence which would indicate the causes of the fires; (D) fire department personnel interested in fire prevention than in investigating fires that have already occurred.

3. In an effort to discourage the sending of false alarms and to help apprehend those guilty of this practice it is suggested that the handle of fire alarm boxes be covered with a dye which would stain the hand of a person sending an alarm, and which would not wash off for 24 hours. The dye would be visible only under an ultraviolet light. Of the following, the chief objection to such a device is that:

(A) require funds that can be better used for other purposes; (B) have no effect on false alarms transmitted by telephone; (C) discourage some persons from sending real fires; (D) punish the innocent as well as the guilty.

4. Automatic fire extinguishing sprinkler systems sometimes are not effective on fires accompanied by explosions, chiefly because:

(A) these fires do not generate enough heat to start sprinkler operation; (B) the pieces supplied the sprinklers are usually damaged by the explosion; (C) fires in explosive materials usually cannot be extinguished by water; (D) sprinkler heads are usually changed by dust created by the explosion.

5. When a fire occurs in the vicinity of a subway system there is the possibility that water from the fireman's hose streams will flow into underground portions of the subway lines through sidewalk grating. Of the following methods of reducing this danger, the one that would generally be most suitable is for the officer in command to order his men to:

(A) use fewer hose lines and smaller quantities of water than they would ordinarily; (B) avoid fire from positions which are distant from the sidewalk grating; (C) cover the sidewalk grating with canvas tarpaulins; (D) advise the subway dispatcher to re-route the subway trains.

6. When responding to alarms, fire department apparatus generally follow routes established in advance. The one of the following which would be the least valid justification for this practice is that:

(A) motorists traveling in the area become familiar with these routes and tend to avoid them; (B) reducing the route followed by fire apparatus would reduce; (C) the fastest response generally is obtained; (D) road construction, road blocks, detours and similar conditions can be avoided.

7. An off-duty fireman sees, from a distance, a group of teenage boys set fire to a newspaper and toss the flaming pages into an open window of a building which is being torn down. In this situation, the first action which should be taken by the fireman is to:

(A) send a fire alarm from the closest street alarm box; (B) chase the boys and attempt to catch one of them; (C) investigate whether a fire has been started; (D) call the (Continued on Page 18).
Proposed Pension Hike Should Go To All

The Albany State Department of Public Works has been asked by the CSEA to issue a directive to all State employees that they cannot be compelled to work overtime without the knowledge of the Civil Service Department and that they are entitled to be paid for all hours worked.

No Schedule For Fires

In commenting on a request by the Civil Service Employees Assn. to give forest rangers overtime pay for the round-the-clock fight against forest fires raging throughout the state, an Albany newspaper pointed out editorially that "forest fires don't burn on a 40-hour-a-week schedule."

A Reasonable Request

The CSEA request is reasonable because it serves to protect employees who may be required to work overtime but without any compensation. Under new overtime rules set last May, certain employee groups in State service are excluded from the overtime compensation under present rules that they will not be recognized for the extraordinary job they are now doing.

Earn-Learn Program Offered To Students By U.S. Government

The United States Government is now offering an earn-learn program to college students and high school seniors. The co-operative program for trainees can lead to career appointments with the Government. The titles have a part-time salary of up to $20 per hour. Examinations for these $30 to $20 per hour positions are offered on a monthly basis at 28 locations throughout the State. The student trainee will work under the guidance of and will assist professional personnel engaged in research or other types of professional work. They perform pre-professional duties consistent with the stage of academic work. They perform pre-professional duties consistent with the stage of academic progress. After completion of the college program the applicant will then become eligible for advancement to full professional status. All promotions will be contingent upon successful completion of educational requirements and on-the-job training.

The cooperative program allows the student to be employed part-time in a Federal agency while in attendance in school; or to alternate their employment with their school attendance. The vacation program allows the student to work in a Federal agency during the school vacation periods and attend school full time during the school term.

For GS-2 programs, the applicant must have been graduated from an accredited high school or have a certificate of high school education equivalency issued by a school or state department of education with credit to full professional status. Eligibles may be appointed only upon successful completion of educational requirements and on-the-job training.

The certificates and honor station awards are presented at award dinners. The certificates and honor station awards are presented at award dinners.

CITY EMPLOYEES: MORE TIME TO THINK OF YOUR FAMILY'S HEALTH!

The period for joining the City's Health Program (H.I.P. and Blue Cross) without physical examinations has been extended through October.

Enrollment is now open to all eligible city employees, including those living outside the area in which H.I.P. Medical Groups make home calls. An employee living in Westchester, Suffolk, Rockland or any other county outside New York City and Nassau can now enroll and select any one H.I.P. Medical Group to serve him and his family. With the exception of home calls, this medical group will provide him with comprehensive medical, surgical and specialist care without any charges beyond the premium. This prepaid care will be given at the medical center of the H.I.P. group chosen by the employee, at the group physicians' offices and at hospitals in which these physicians practice.

New York City's Health Program is the finest offered by any municipality in the country, H.I.P. provides prepaid medical, surgical, maternity and special care through family doctors and specialists—without your having to worry about extra charges or quality of medical care.

BLUE CROSS provides fully prepaid semi-private care in the hospital (bed and board, in-hospital nursing service, use of operating room, etc.)

Over 375,000 city employees and dependents now receive their doctor and hospital care through H.I.P. and Blue Cross.

Pioneers in Protection

Just as Sperry's invention was first to protect mariners against the danger of drifting miles off course because of compass error ... so the STATEWIDE PLAN was the first program of protection against the costs of hospital, surgical-medical, and major medical care for the employees of the State of New York.

This three-part program — Blue Cross, Blue Shield and Major Medical — offers most State employees, active or retired, the most liberal benefits at the lowest possible cost. That's why more than 425,000 State employees and employees of many local subdivisions of New York State and their dependents are now subscribers.

If you are not a subscriber and would like all the facts on the STATEWIDE PLAN, see your payroll or personnel officer.

Elmer Ambrose Sperry discovered that the principle of the spinning gyroscope could be incorporated in a directional instrument which would eliminate the variations caused by the earth's magnetism. This instrument, the gyro-compass, gave a ship's steersman an unerring point of reference.

HONORED — Approximately 115 participants conducting homes for the family care program at St. Lawrence State Hospital were honored at a tea recently. The family care program, in effect at St. Lawrence since 1935, has enabled hundreds of patients to leave the hospital and eventually return to their place in the community. Dr. J. Bethel Hazelton, (right) director at the hospital and Mrs. Elizabeth C. Rockey, (standing) supervising social worker are shown discussing the program with three women who served as family caretakers. These three women were not identified.

News and Notes

ORCHIDS To Comptroller Arthur LeVitts who is seeking many improvements in the New York State Employee's Retirement System, especially for men and women who have given the best years of their life to public service, so that they may have an adequate income to sustain them in their declining years. Certainly glad that someone up there loves us, like Rocky Graziano often claimed.

FEDERAL EMPLOYERS retiring during the next four years will receive larger annuities. Those retiring in 1965 will get a 4 per cent increase; 1964—3 per cent; 1963—2 per cent; and 1962—1 per cent. Also from now on, annuitants of retired Federal employees both present and those already retired will be automatically adjusted as living cost rise. This increase will be based on a minimum rate of 3 per cent in the yearly average in living cost reflected in the Consumers Price Index. Mary Houghton formerly of Albion State Training School, one of old-time CSIA delegates, now retired, will be interested in this program for our New York State retirees.

Mike J. Quill, headman of the Transport Workers, has a really ambitious program going for his boys. A four day 24-hour week, 6 weeks vacation after one year's service, 12 holidays, including your birthday, 15 per cent salary increase and improvements in pension and fringe benefits to the tune of 165 million dollars. As usual and par for the course the Transit Authority has called the new demands "not only unrealistic, but out of this world." Like the old song, "It seems I heard that song before."

Among the changes sought in the State Constitution, which will appear as an amendment on the voting machine in November and to become law, must be approved by the voters is the following: "Remove the $30,000 Governor's salary and the $20,000 for Lt. Governor fixed in the Constitution. This change would permit the Legislature to set the levels."

A PRESIDENTIAL advisory panel recommended that the $25,000 annual salaries of Cabinet members be doubled and that the pay of members of Congress be raised to $35,000, also increases in the pay of Supreme Court Justices, Vice President and Speaker of the House of $6,000. This added expense to taxpayers would only be about 29 million dollars per annum. All this writer can add to the above items is "Amen." By the time the big time jobs take all the loose cash laying around, the only thing left will be pennies and such fringe benefits as that by pulling your check apart so far that even the rubber is gone.

A GROUP of first time convicted criminals in Sweden, will start paying off their debt to society by building four-room houses. Inmates will be paid a yearly wage of between $200 and $2000. From this will be deducted, bribes, room and board allowances to their families and court costs for their trials. Sounds like a good idea.

14 Cash Awards Totaling $405 Earned By State Employees With Suggestions

ALBANY, Oct. 28—A joint award of $100 led the list of recent cash grants awarded for time and money-saving ideas submitted to the New York State Employee Suggestion Program. The 14 cash awards totaled $405. Six Certificates of Merit without cash awards were also awarded.

The $405 award was made to two Owego residents. Charles H. Morehouse, senior x-ray technician, and Donald R. Morehouse, senior x-ray technician, both of the Department of Mental Hygiene’s Kings Park Hospital, shared a $50 award.

Two $15 awards and a Certificate of Merit went to Alfio Binnelli, Brooklyn, tax collector, Department of Taxation and Finance; and to Eugene Pantoski, Troy, senior clerk, Department of Public Service. Another $15 award went to Eunice Pantoski, Troy, senior clerk, Department of Public Service.

Andrea Tedder, Grover Park, a maintenance man at the Department of Mental Hygiene’s Creedmoor State Hospital, received a $10 award.

Merit Awards

Certificates of Merit without cash awards went to Anne H. Conyes, Albany, file clerk, Executive Department’s Division for Public Information; Deanne K. Miller, Brooklyn, senior tax collector, Department of Taxation and Finance; Natalie H. Hieger, Long Island City, clerk, Department of Taxation and Finance; Doris G. Field, Bronx, administrative assistant, Department of Taxation and Finance; and E. Schaefer, Staten Island, clerk—grade B, Supreme Court, Second Judicial District.

Final Grievance Hearings

In Watertown To Be Public

Final grievance hearings for time and money-saving ideas submitted to the New York State Employee Suggestion Program will be held publicly.

The hearings will be held at 8:30 a.m. on Tuesday, Nov. 2, and at 10 a.m. on Wednesday, Nov. 3, at the Watertown courthouse.

The public is invited to attend the hearings.

Dr. Christopher F. Terrence, director of the Rochester State Hospital since 1951 and recently appointed deputy commissioner for Program Administration in the Department of Mental Hygiene, assumed his new position in the State program in early October.

Dr. Terrence will be in charge of a new state program relating to mental health services. William Rossetter, president of the Rochester State Hospital chapter of the Civil Service Employees Association, in commenting upon Dr. Terrence’s appointment, said, “I think it is a milestone in the history of state psychiatry. It is an opportunity to get his own story of the case before the people.”

Dr. Terrence’s efforts and cooperation will make it possible for the superintendents of state hospitals to be represented on the State grievance board.

The board, to be appointed by the city managers, will have a departure from the standard State document in that ultimate hearings before the board will be held publicly.

A number of affairs were given by various organizations in Rochester to pay tribute to Dr. Terrence for his outstanding services to the cause of mental health in the community. A press release was held in the hospital’s Vandemark Hall in his honor. He was with the employees with whom he worked for so many years. Over 500 attended.

Gifts Presented

Several gifts were presented to Dr. Terrence, The “Golden Jubilee Edition” of Bardman’s Medical Dictionary was presented to the Medical Library (Medical-Surgical Building) by the Rochester State Hospital chapter of the Civil Service Employees Association, in honor and appreciation of Dr. Terrence’s efforts and cooperation to advance the principles and merits of Civil Service employees. The presentation was made by Rossetter.

STUDY HOUR — Raymond G. Costell, first vice president of the Civil Service Employees Association, found this quiet spot during the recent delegates’ session at the annual meeting to catch up on his study of revolution under debate.

Terrence Of Rochester Named Deputy Commissioner; Tribute Paid By Community Groups

Dr. Christopher F. Terrence, director of the Rochester State Hospital since 1951 and recently appointed deputy commissioner for Program Administration in the Department of Mental Hygiene, assumed his new position in the State program in early October.

The new regulations were approved after consultation with Mrs. Fannie W. Smith, president of the Jefferson chapter. Civil Service Employees Association, and the head of the Police Benevolent Association, Patromon Charles R. Murphy.

Employee organization representatives agreed against pressing the requests for at least one of their own people on the new grievance board after city officials pointed out that the board had rejected an opportunity to be represented on the State board.

The board, to be appointed by the city managers, will have a departure from the standard State document in that ultimate hearings before the board will be held publicly.

A number of affairs were given by various organizations in Rochester to pay tribute to Dr. Terrence for his outstanding services to the cause of mental health in the community. A press release was held in the hospital’s Vandemark Hall in his honor. He was with the employees with whom he worked for so many years. Over 500 attended.

Gifts Presented

Several gifts were presented to Dr. Terrence, The “Golden Jubilee Edition” of Bardman’s Medical Dictionary was presented to the Medical Library (Medical-Surgical Building) by the Rochester State Hospital chapter of the Civil Service Employees Association, in honor and appreciation of Dr. Terrence’s efforts and cooperation to advance the principles and merits of Civil Service employees. The presentation was made by Rossetter.

Patricia J. McCormick, senior business officer for the hospital performed the duties of master of ceremonies. Mrs. Clarabelle Thompson, supervisory nurse, was chairman of the committee for arrangements.

Rossetter thanked Dr. Benjamin Polski, assistant director, and Father Olan, Catholic chaplain for their cooperation and assistance.
