P.B.A. House, High Hopes For Governor's Signature On Legislative Program

By JOE DEASY, JR.

ALBANY, April 6—Three New York City policemen have been hustling around the State Capitol since the first of the year at a frantic pace. This furious activity has borne fruit, however, and the 25,000 men these three spokesmen represent may soon see the results of their hard work.

Eighteen pieces of legislation affecting policemen are awaiting the signature of Governor Rockefeller, J ohn Catterson, Edward Kierman and Louis Corcoran, the three vice-presidents of the Patrolmen's Benevolent Association. These measures were not going to stop until the ink is dry on the Governor's signature.

ERSAY, April 6—Onondaga County's personnel commissioner has been requested to separate workers' and executives' salaries in a proposed new pay plan—so that the workers' pay can be raised without bumping the executives' salaries.

The request was made by Supervisor Albert E. Wolff, of the County Board of Supervisor Ways and Means Committee—which must pass any changes in the budget during session last week (Wed.) on the "proposed salary schedule."

The committee got its first look at the new plan—which is expected to lead to a general revaluation of the community's occupancy and salaries for all employees.

CSEA Says Buffalo Plan Is Based On Facts And Proves All Need Raises

BUFFALO, April 6—The president of the Civil Service Employees Assn. said today the statewide association had anticipated that groups would object to pay increase proposals for Buffalo employees

CSEA Executive Director Joseph P. Ferris, of the CSEA's Albany headquarters, headed a staff which recommended a 19 per cent across-the-board pay hike for Buffalo workers, including police and firemen.

If implemented, the cost would come to $5.2 million.

"Significantly overpaid" The CSEA submitted a 34-page comparative analysis measuring Buffalo salaries against those paid by nine other cities to back up the claim. The Association claims that Buffalo city employees are "significantly underpaid." Representatives of the CSEA will appear at hearings on the proposal.

A 19 per cent pay increase, effective July 1, the CSEA report said, is "mandated if Buffalo is to pay an equitable salary compared to salaries paid by private employers in New York State and other cities.

After the CSEA recommendations got prominent coverage in Buffalo newspapers, police and firefighters groups objected to the proposals. Their plans call for even higher raises.

Changes in Health Plan Are Explained

The following questions and answers have been prepared by the U.S. Civil Service Commission to answer questions from annuitants about Public Law 88-284, which amends the Federal Employees Health Benefits Act of 1959. These questions and answers pertain only to Federal employees who were enrolled in FEB as of July 1, 1960. They do not pertain to any annuitants who retired before July 1, 1960.

What are the recently enacted changes in the Federal Employees Health Benefits Act of 1959 which affects annuitants, including certain persons recently receiving insurance from the Bureau of Employees' Compensation?

In general, the changes affect groups of annuitants rather than providing for across-the-board liberalizations for all. Specifically, the most important classes are:

- The definition of "family member" is expanded to include unmarried children under age 21 (instead of as of age 18) and unmarried foster children.
- The Government contribution to the cost of family enrollments of women annuitants with nondependent husbands is increased so that it is the same as for male annuitants.
- Annuitants who were enrolled in a plan participating in the Federal Employees Health Benefits program at the time of their retirement and lost their coverage only because they had not enrolled at their first opportunity are permitted to enroll if they apply no later than December 31, 1964.
- Because of these changes, the Civil Service Commission is permitting annuitants who are now enrolled for self-only to change to family enrollments if they apply no later than June 30, 1964.

Changes in Definition

To what group of annuitants does the change in the definition of family member have any immediate significance?

To enrolled annuitants who have (1) unmarried children who have reached age 19 but not age 21 or (2) unmarried foster children under age 21. Prior to Public Law 88-284, unmarried children lost their coverage under the Federal Employees Health Benefits program when they reached age 19 and foster children were not covered at all.

Do annuitants who are now enrolled for self and family and have an unmarried child in the 19 to 21 age bracket, or a foster child, need to do anything to cover the child?

No, the child is automatically covered under the family enrollment line from March 1, 1964, to Public Law 88-284 went into effect. However, if the annuitant is enrolled in a group-practice or an individual-practice plan, he should notify his plan director of the name and date of birth of the child or children. These plans customarily keep a record of each eligible family member. Other annuitants who are a family member at the time a claim is filed.

If an annuitant is now enrolled for self-only but has an unmarried child in the 19 to 21 age bracket, or a foster child, what does he need to do to cover the child?

He must change his enrollment to self-and-family. The coverage of the child in this case will begin the day the annuitant's enrollment becomes effective.

What if an annuitant who is enrolled for self-and-family purchased a conversion contract for a child when the child reached age 19?

If the child is under age 21 and the annuitant subsequently cancels the conversion contract by writing to his plan, the child will have a new conversion right at age 21 or when coverage as a family member stops because the child marries.

What is a "foster child"?

A foster child is a child in a foster home with an employee-annuitant in a regular parent-child relationship. The annuitant must intend to rear the child into adulthood as if the child were his own.

What about foster children of a deceased employee-annuitant whose widow is now a survivor annuitant?

The parent-child relationship must have existed at the time of the annuitant's death.

Does a child temporarily living with an annuitant qualify as a foster child?

No—neither does a child placed in the annuitants' home by a social welfare agency or other agency which retains control of the child or pays for his maintenance.

What is the effect of increasing the government's contribution to the cost of family enrollment?

It will reduce the amount withheld from the annuity check for health benefits.

By how much will the health benefits withholding from annuity be reduced?

By $3.22 a month. This results in the monthly annuity check being increased by $3.22.

Civil Responsibility

POLICE Commissioner Michael Murphy last week presented civilian commendations to three men who, at great risk of their own personal safety, protected fellow citizens.

Two of the three, we are proud to report, were civil service employees. The third works for a public utility.

We feel that this is a typical example of the average civil service employee's sense of civic responsibility.

Miss Civil Service

RUNNING a "Miss Civil Service" contest is one of the more pleasant aspects of working on a newspaper. As our readers have observed, Civil Service has its fair share of beauty. We think they all deserve to win but, as in any contest, the victory is to the few.

We are more than pleased that the interest in this contest is running so high. And we hope to see you all at the World's Fair on June 1, which is Civil Service Day, to see the winners crowned.

Questions Answered On Social Security

Below are questions on Social Security problems sent in by our readers and answered by a legal expert in the field. Anyone with a question on Social Security should write it out and send it to the Social Security Editor, Civil Service Leader, 97 Duane St., New York, N. Y. 7.

"I've been making over $3,000 a year since 1956. I recently took your advice and checked my social security record. The State showed a typographical error in my name and address, but my check came to $3,800 on your record. You do not pay the social security tax on any name or address change, do you?"

Yes, you can still get some of your payments. You see, no matter how much you make for the year, you will receive your social security as long as I make that much, can I?"

Yes, you can still get some of your payments. You see, no matter how much you make for the year, you will receive your social security as long as I make that much, can I?"

I can't get any of my credit for my wages, or must I do anything else to assure it?"

In order to make certain you receive credit for your wages, you should in touch with your local social security office as soon as possible and explain what has happened. In addition, it is a good idea to file the necessary corrections on your record and not repeat the error later.

"I sent in a letter to the Social Security Payment Center last month and asked them to change my address but my check came to the old address. Why?"

The Social Security Administration to change the address on your check, the notice of change must be received early in the month before the month in which the change is to go into effect. After this notice of change arrived too late for the current check, you will receive your new address the next check. You will then have to write another letter to the Social Security Administration to reset your check and whenever your address changes in the future, you must notify them of your new address as early as possible.

"I receive checks on behalf of my social security earnings but didn't give me credit for my military service from 1953 to 1956. Why?"

Your military credits will be figured and included with your account when you apply for your old-age retirement or disability benefits.

"I check on behalf of my son. He is receiving $180 a week while attending the school year. This summer he will be employed in a job that will pay him $210 a week. His earnings for the year will now be $1380. I wonder if the Social Security Administration should at this early age of 16, is it right to go to the Social Security Administration and try to have the benefits he was supposed to receive by his own earnings suspended?"

"I notice that my W-2 Form showed a typographical error in my social security number, but my name and address were correctly listed. Will I receive proper benefit payments?"

Yes. My 64 years old. I have a small business that I run in Florida, and the winter season from December through March. I make about $4,000 a year profit. It is not a part of my social security as long as I make that much, can I?"

"I am 62 and I'm in good health. I plan to go to work full time and continue to receive my social security payments. My earnings over $4,800."

Your Public Relations 10

By LFO J. MARGOLIN

Mr. Margolin is Adjacent Professor of Public Relations in New York University's Graduate School of Public Administration.

The views expressed in this column are those of the writer and do not necessarily constitute the views of this newspaper.

Operation Communications

TO PROMOTE the good public relations of government, "Operation Communications" begins with this column for all civil servants everywhere, and continues indefinitely.

THE ASSIGNMENT is gargantuan, but urgent — very urgent. Here it is:

1) Tell every member of the public with whom you come in contact, that is, by like or not, EVERYONE IS INVOLVED whenever government is concerned because, in reality, everyone is government.

2) Government operation—from garbage collection to putting a man on the moon — is a two-way street. Government just can't work unless everyone cooperates, and also pays his fair share of its cost.

3) Whether it's a potbelly in the road, a fire in a tenement, or a woman alone being stalked by a murderer, EVERYONE IS INVOLVED.

TO OUR DILIGENT readers, we suggest the technique to be used for "Operation Communications":

Tell them, then tell them again, and finally tell them that you told them.

THE POINTS we have been making are dramatically dramatized by the shocking Incident which occurred in Queens County four weeks ago.

FOR MORE than a half hour 38 so-called respectable, law-abiding citizens in the county's Kew Gardens area watched a killer stalk and stab a woman in three separate attacks.

BY THE TIME one of the 38 — and he hesitated for an uncompassionately long time — called the police, who arrived within two minutes, the woman was dead murdered.

As POLICE laboriously reconstituted the crime, they went from door to door in search of witnesses. They soon found 38 of them. When asked why they hadn't called the police—who were as close to them as their telephones—almost to a man and a woman, the witnesses replied:

"WE DIDN'T WANT TO GET INVOLVED."

IT WOULD be prophetic to say that the 37 of the 38 witnesses who did not call the police, are responsible for the woman's death as the killer, finally caught by the police.

BUT WE DO say that every one of the 38, including the man who hesitated before calling the police, is as lacking in citizen responsibility as if he or she lived alone on Mars.

WE ARE EQUITABLE that all 38 are as acutely aware of their citizen rights as they are unaware of their citizen responsibilities.

IF THERE ARE 38 with the red tag, "WE DON'T WANT TO GET INVOLVED," concentrated in a tiny area of a city, they watch as others similarly tagged everywhere. All these are living in blissful Ignorance of what Government just can't work unless everyone cooperates, and also pays his fair share of its cost.

OPERATIONAL is quite straightforward. In the New York City Police Department, the "Miss Civil Service" contest is one of the more pleasant aspects of working on a newspaper. As our readers have observed, Civil Service has its fair share of beauty. We think they all deserve to win but, as in any contest, the victory is to the few.

We are more than pleased that the interest in this contest is running so high. And we hope to see you all at the World's Fair on June 1, which is Civil Service Day, to see the winners crowned.

Questions Answered On Social Security

Below are questions on Social Security problems sent in by our readers and answered by a legal expert in the field. Anyone with a question on Social Security should write it out and send it to the Social Security Editor, Civil Service Leader, 97 Duane St., New York, N. Y. 7.

"I've been making over $3,000 a year since 1956. I recently took your advice and checked my social security record. The State showed a typographical error in my name and address, but my check came to $3,800 on your record. You do not pay the social security tax on any name or address change, do you?"

Yes, you can still get some of your payments. You see, no matter how much you make for the year, you will receive your social security as long as I make that much, can I?"

Yes, you can still get some of your payments. You see, no matter how much you make for the year, you will receive your social security as long as I make that much, can I?"

I can't get any of my credit for my wages, or must I do anything else to assure it?"

In order to make certain you receive credit for your wages, you should in touch with your local social security office as soon as possible and explain what has happened. In addition, it is a good idea to file the necessary corrections on your record and not repeat the error later.

"I sent in a letter to the Social Security Payment Center last month and asked them to change my address but my check came to the old address. Why?"

The Social Security Administration to change the address on your check, the notice of change must be received early in the month before the month in which the change is to go into effect. After this notice of change arrived too late for the current check, you will receive your new address the next check. You will then have to write another letter to the Social Security Administration to reset your check and whenever your address changes in the future, you must notify them of your new address as early as possible.

"I receive checks on behalf of my social security earnings but didn't give me credit for my military service from 1953 to 1956. Why?"

Your military credits will be figured and included with your account when you apply for your old-age retirement or disability benefits.

"I check on behalf of my son. He is receiving $180 a week while attending the school year. This summer he will be employed in a job that will pay him $210 a week. His earnings for the year will now be $1380. I wonder if the Social Security Administration should at this early age of 16, is it right to go to the Social Security Administration and try to have the benefits he was supposed to receive by his own earnings suspended?"

"I notice that my W-2 Form showed a typographical error in my social security number, but my name and address were correctly listed. Will I receive proper benefit payments?"

Yes. Your 64 years old. I have a small business that I run in Florida, and the winter season from December through March. I make about $4,000 a year profit. It is not a part of my social security as long as I make that much, can I?"

"I am 62 and I'm in good health. I plan to go to work full time and continue to receive my social security payments. My earnings over $4,800."

Blind Man’s Buff
Can Be A Costly Game
—When it comes to doctor bills!

You need 20/20 vision to search out the hidden gaps and loopholes in today’s health insurance. Before deciding on a program for doctors’ care, ask yourself these basic questions:

• Does the plan provide its benefits without extra charges over and above the premium?
• Does the plan cover the cost of today’s many kinds of specialist services?
• Does the plan assure coverage of the full cost of an operation—regardless of how difficult or extensive the surgery might be?
• Does the plan concern itself with the quality of care rendered to you?
• Can you continue with full benefits if you leave your employee group—regardless of age?

ONLY ONE HEALTH PLAN — H.I.P. can give a “yes” answer to all these questions.

*In H.I.P.’s group plan the only extra charge is $1 for a home call between 10 P.M. and 7 A.M.
ROCKLAND GRADUATES — Graduation exercises were held recently at Rockland State Hospital for the first formal class to be given there in "remotivation." Remotivation is a program to be used on wards, in simple group discussions, whereby the patient is to be stimulated to more objective thinking. Ulster Seeks More Competitive Pay

KINGSTON, April 6—In order to attract and retain personnel who are able to perform required service, the county must pay salaries which are comparable to those of other governmental and private employers.

As a letter submitted to Assemblyman Peter Williams, Chairman of the Board of Supervisors, and other officials of the City of Kingston by members of the Ulster County chapter of the Civil Service Employees Association recently.

The letter continued, "Ulster County has more than 3,000 Civil Service employees. Although we cannot expect top salary levels paid by private industry, we feel that salaries should be raised to a level that will attract and keep capable personnel.

Proposals

"We advocate that Ulster County and City of Kingston Civil Service salaries be made more competitive with private industry by (1) the assumption of a combination of a base salary and a sliding scale salary adjustment similar to the advocated by the Rome Police Federation for its employees."

According to the discussion, "Certain county office "weather-pals" was received while in others it was not." It was suggested that there should be an over-all payroll and employees were asked to discuss the matter with the Grievance Committee.
