In Letter to Governor

Association Files Detailed Recommendations On D of E Allocation & Classification

ALBANY— On the heels of a strong general appeal two weeks ago to Governor Rockefeller that he seek some positive means by which Division of Employment Interviewers could receive a salary reallocation, the Civil Service Employees Assn. has filed detailed recommendations covering a broader area of D of E position allocation and classification.

The new appeal was submitted in the following letter from CSEA president Joseph P. Felly to Governor Rockefeller:

Dear Governor Rockefeller:

I am writing to you with respect to an inauspicious situation which has been the source of anxiety to the Executive Chamber, State Capitol, Albany, New York.

The Governor of the State of New York could take the position: 'This is the end of the road. An action such as that described above is not only ineffective, but harmful to the interests of the employees involved. It is not in the best interest of the State to take such action. The employees involved should be treated fairly and equitably. We must avoid any actions that might be construed as an attempt to undermine the confidence of the employees in their employers.'

The Governor should not take any action that might be construed as an attempt to undermine the confidence of the employees in their employers. It is not in the best interest of the State to take such action. The employees involved should be treated fairly and equitably.

Sincerely yours,

The Governor of the State of New York.

Governor of the State of New York
Executive Chamber, State Capitol
Albany, New York

In all, the CSEA president has submitted a total of 10 recommendations covering a broader area of D of E position allocation and classification.

A man went to bed after watching a movie in which the hero was a daring aviator. In his sleep he dreamed that he too was an ace flyer. From the foot of his bed he made a fine take-off but lost altitude rapidly and crash-landed on the floor. He awoke abruptly with a broken shoulder blade. His pocketbook might have been fractured too—without his Accident policy!

We admit this might never happen to you, but each year accidents or sickness disables you. As a group they have already received benefits totaling millions of dollars. It could also pay you an income each month if an accident or sickness disables you.

We will be happy to send you complete information.

Aug. 26 Closing For Bus Operator's Exam

Aug. 26 marks the close of filing for a bus operator’s examination to be given by the Manhattan and Bronx Surface Transit Operating Authority, a subsidiary of New York City Transit Authority. The test must be filed on or before Aug. 26 at MABSTOA's Test Center, 51 Day Street, Manhattan, or the MABSTOA Application Annex, 2139 Seventh Avenue, Manhattan. It is expected that MABSTOA will publish the tests in a civil service and that employees working for the Authority at that time will automatically receive civil service status. This will be given on the day of the test.

Base hourly pay for bus drivers will be $3.145 as of Jan. 1, 1967, when the first appointments are scheduled to be made. Pay scales provide for increases to $3.75 an hour.

Candidates must be male. United States citizens at least 20 years old as of Sept. 1, 1966, and stand a minimum of 5 feet 4 inches. There are no requirements of formal education or experience, but applicants must have had a motor vehicle operator's license for at least two years before Sept. 1, 1966.

The written test will cover a knowledge of traffic regulations in New York City and points of interest in the metropolitan area. Successful applicants must qualify for a Class 2 chauffeur’s license and demonstrate an attitude as a bus operator by the end of the training period.

In addition to driving a bus, operators must be able to collect fares, care for passengers’ safety and make reports regarding accidents, incidents, Inoperative and faulty equipment and unusual occurrences.

Although this is a civil service examination, candidates are bound by the same regulations as those that apply to other public employees.

Candidates who are successful in the written test will be placed on an eligible list. The Authority will appoint from the list one person from the first three persons standing highest on the list, for each position posted over three times will be dropped from the list. All appointments will be for a period of six months. All appointments will be subject to medical approval and a satisfactory background check.

Continual Filing For Computer Programmers

The State of New York has announced that career opportunities for computer programmers are now open. Positions, for which filing is open continuously, are for computer programmer, exam number 21-109, salary $4,918 to $6,118 and senior computer programmer, exam number 27-101, salary $5,363 to $10,123.

These positions are located throughout the State with many in the Albany area. Applicants may file for both examinations by filing one application. Written tests are held continuously.

For further information contact the State Department of Civil Service, the State Campus Albany, and refer to the examination numbers in requests.

Let’s Have Answers

It has been over a month since the New York City senior clerk examination and the promise by a Department of Personnel spokesman that an investigation into the appeal procedures of this exam would be undertaken.

It will be remembered, especially by those who took the test, that the answers were not released and therefore the question booklets were not given to the candidates at the conclusion of the exam.

To date, nothing has been done. The Department of Personnel has not made any pronouncements on this matter. In fact, shortly after the test was held, Personnel issued a statement saying that all future exams would not be released.

This only added insult to injury. A matter such as this, affecting so many City employees and their future career status, and also affecting the many incoming employees, deserves much more immediate action than has so far been given.

We urge the Department of Personnel to act—now.

A Day To Remember

THURSDAY, August 4, 1966 will go down in the annals of the Civil Service Employees Assn. as one of the most important and significant days in its 66-year history.

It was a day that the Association—now 140,000 strong—broke ground for a new headquarters building facing the Capitol in Albany.

This achievement is a major accomplishment.

It was a day, also, that the Association saw the fulfillment of its legislative goals for 1966. Governor Nelson A. Rockefeller, on Thursday, signed into law three bills which affect retirement, survivor’s benefits and travel expenses for public employees.

The Association had to use strong arguments to convince Governor Rockefeller and Comptroller Arthur Levitt that the legislation was necessary and just, both to employees and to taxpayers. Further, the Association carefully worded arguments by opponents to the measure, successfully guiding them to the Governor’s desk for signature.

It will be a day long remembered by CSEA.

Demotion

The NEW YORK Law Journal of August 2, 1966 calls attention to an opinion of the United States District Court for the Eastern District of New York, which is a denial of federal jurisdiction in the Brody case. The case, Sidney Brody, and others named in the schedule annexed to the complaint v. Thomas F. McCoo, as State Administrator and Secretary of State, was heard, for the reason that the question of the classification of the State of New York, was instituted by Kings County Supreme Court Clerks in protest against the Judicial Conference’s proposal to single out for demotion the Clerks Grade B to a new classification of Clerk I, while promoting all the other Clerks Grade B to the new title of Clerk II. The selection of the plaintiffs for such reduction in status is sought to be justified primarily on the ground that their clerical experience is not in Trial Term work. In the new classification, they will not be assigned to Trial Term work.

JUSTICE WALTER R. HART, Chairman of the Personnel Committee of the Kings County Supreme Court, eloquently stated the arbitrariness of the proposed classification on behalf of all of the justices in a letter to the Judicial Conference.

"It will be extremely difficult to explain satisfactorily to the ten or fifteen men who might be by a strict interpretation classified as Clerk I why they have not been classified as Clerk II. But, I think the Super Court is difficult for the justices of this court to live with them under these circumstances, knowing that they have been treated unfairly and that their morale is shattered.

THE AVAMEN of the section is that if any Clerk Grade B are to be reclassified, they should all be placed in Grade II. Arbitrarily discriminating against any of the Grade B Clerks is a denial of equal treatment under the laws of the United States Constitution. That unequal treatment of Civil Service employees will not be countenanced was made clear in the Supreme Court cases (please see my column of September 13, 1964) and in the Cohen case (my column of November 2, 1964). It will be recalled that the unequal treatment in the Shpitzer case consisted of the barring of policemen from participation in promotional examinations to sergeant, and the unequal treatment alleged in the Cohen case was that all candidates for promotion to police captain, except the four petitioners, were given passing marks of at least 70% if they had been in the same grade for thirty days. Indeed, it seems that the Brody case presents even a stronger case for federal jurisdiction than the Cohen case.

THE BROYO action is reminiscent of the case of Supreme Court Uniformed Safety Officers Association v. McCoo (see column of June 15, 1966) which was instituted to protest the Judicial Conference’s implication of fringe benefits, such as working hours, sick leave, holiday, vacation time, and pension rights. District Judge Charles M. Melazer denied the Judicial Conference’s motion in that case to dismiss the complaint on the ground of lack of jurisdiction, and held that the action presented a substantial federal question. In the same case, District Judge John M. Cashin held that a proper case was made for presentation to a three-judge Federal Court. Judge Frankel, on the authority of the opinions of his brethren, granted the Brody motion. Indeed, it seems that the Brody case presents even a stronger case for federal jurisdiction than the Cohen case.

Indeed, it seems that the Brody case presents even a stronger case for federal jurisdiction than the Cohen case.

WHILE JUDGE Frankel referred the case to a three-judge Court, he denied the plaintiffs’ motion for a preliminary injunction to enjoin the defendant from reclassifying any Clerks Grade B to a new classification of Clerk I, which were similarly reclassified. The defendant, however, has heretofore agreed to a thirty day stay of proposed downward classification of the plaintiffs. The plaintiffs hope that upon the expiration of the thirty day period, the defendant will nevertheless postpone their plans for converting plaintiffs’ title until a ruling of the three-judge Court.
 BILL SIGNING — Governor Rockefeller signed into law a bill mandating a three-platoon system for Transit Authority policemen, similar to the present regulations of New York City Police Department. The bill was sponsored by the Transit Authority Police Benevolent Association. At the signing were, standing, from left: William Otterback, TAPBA first vice president; James Rooney, president; Lieutenant-Governor Malcolm Wilson, and Art Flynn, public relations counsel for the association. The Governor is seated.

O'Brien. Blue Cross-Blue Shield
O'Brien will answer questions relating to health insurance.

Q. My doctor has advised that I submit your questions to Mr. O'Brien, Blue Cross-Blue Shield Manager. The Statewide Plan, 1215 Western Ave., Albany, N.Y. Please don't submit questions pertaining to specific claims. Only questions of general interest can be answered here.

Q. Recently I had to have family coverage under my Statewide Plan.
A. If the ambulance service was provided by the hospital to which you were admitted, the cost is covered under Blue Cross (Part T of the Statewide Plan). If you used a private ambulance service then you may be able to get the cost of this service with other covered medical expenses to make Statewide Plan Major Medical (Part III of the Statewide Plan) with coinsurance and deductible factors applying.

Q. If I retired this year and am planning to go to California to stay with my son, I continued my Statewide Plan. Will my benefits be any different in California than they would be if I stayed in New York?
A. No. You will have the same coverages no matter where you live after your retirement.

Q. Can a married person with a family take out individual coverage under the Statewide Plan when his dependents have coverage under another plan?
A. Yes. If he or she wishes to. However, if that person should then wish to change to family coverage at a later date, evidence of insurability would have to be provided for the eligible dependents at the time an application for family coverage is made.

Q. My doctor has advised that my wife go to a larger hospital in a nearby big city where they have better facilities for treating her illness than at our small community hospital. Will I be covered under my Statewide Plan for the hospital bill? I have family coverage.

Sorry to have to drop the column last week, but the upgrading of City employees was an important—and lengthy—news story.

The ancient Hindu fire-faters have nothing on four firemen who responded to 132 St. and Madison Ave. last Saturday morning.

The four literally walked into the jaws of hell, past two windows belching fire and rescued four persons trapped in their apartments.

John Pastore of Ladder 14, Bernard Colvin, Squad 1, Desmond Flaherty of Ladder 13 and Jim Anacleto of Ladder 28 (de-tailed to Ladder 14) did a fine job here, true to the tradition of FDNY.

The Bronx picked up its share of multiples last week, including a third alarm at Tremont and Maple Avenues; a third alarm in Riverdale and a quick fourth near Hugh Grant Circle.

Somebody must have parked the Tremont Avenue Quiet by remarking about how long it was since they had a taxpayer fire on "the avenue".

When 45 Engine rolled in, fire was in complete possession of a three-story frame dwelling and had part of the rear of a clothing store—one of a row of stores in the taxpayer. Three times they tried to gain entrance via the interior stairway and three times they were beaten back as flames rolled in behind them. However, once a stand was made, the tide of battle changed and further alarms were unnecessary. It was very questionable for quite a while if the third alarm would be sufficient but fast work by all hands prevented too much damage to the taxpayer.

Not to be outdone, by the 18th and the 19th Battalions, the 29th Battalion found a six-story brownstone later Thursday night on Westchester Ave. As 46 Engine rolled into the box at Pugsley and Westchester, the officer called for a full first alarm assignment. Second later, the 29th B.D., roiled in and without getting out of the car, ordered a second.

Chief Jim Ward, a resident of Parkchester, walked around the corner and ordered a third and a fourth. Sparks were flying throughout the neighborhood, threatening nearby frame buildings. However, fast work by companies brought the fire down in record time. The building was under construction at the time and this caused no end of trouble for the men.

Watching the fire with some intent and thought was a man walking about wearing a colorful sport shirt and tan pants. He looked like a chief officer surveying the situation—Quite reasonable, however. It was Joseph Contrastano, retired assistant chief of department, who was injured in a collapse of a building on Westchester Ave. last year. He, too, lives around the corner from the blaze. Looking good, and being missed by many members of the department, he sends his best wishes to members of FDNY.

Getting back to active members, best wishes to the crew of the Alfred E. Smith (Marine Company 8) who were cited last week by Mayor Lindsay on behalf of the Detectives Endowment Assn. The DEA, in a unique action, voted their annual medal for heroism to the company for their actions at the June 16 tanker collision and fire in the Kill van Kull on Staten Island. Watching while the police organization medal was presented were Commissioner Lowery, Commissioner Nolan and Chief of Department John T. O'Hagan.

Working the day of the collision were: Lt. Bob Summerville of Marine 7 (detailed); Tom Balzy, the pilot; marine engineers William Cregan and Rudolph Leobner, wiper Bob Richards and fireman Gene Drohowsky, George Hagan, Anthony Leonardi, Ed McCarthy, George Protheroe and John L. Sullivan. (I didn't know retired firefighters became firemen?)

Congratulations to Fireman Alfred Smith of Ladder 137 who was selected last week by Mayor of the Year by the Exchange Club of Far Rockaway. The presentation was made at Far Rockaway Park. Representatives of Commissioner Lowery were Assistant Chief Charles Streusler (1) and Deputy Commissioner Raymond Nolan.

We must leave with one thought in mind. Nice guys shouldn't be picked on—sometime they fight back and harder 1 1 1

A LETTER TO H.I.P.

As a Transit Authority employee I was in H.I.P. right from the beginning. A little over a year ago, I had to leave H.I.P., because I moved to Lake Ronkonkoma, and H.I.P. isn't that far out into Suffolk County yet. I belong to another plan now, and I miss the medical attention I used to get. I haven't had any blood or urine tests for my condition, and no effort is made to control it.

Every visit to their doctor is a Rush, Rush, Hello, Goodbye, one shot, no follow-up deal. There is paper work involved which I didn't have with H.I.P.

This doctor doesn't seem to be satisfied with what his plan pays him, and he shows it in his attitude. In all my years with H.I.P. the doctors didn't seem to resent the Group they were associated with.

In my family, my sister-in-law died of cancer, but H.I.P. spared NO expense to try and save her. My father's illness was successfully arrested by H.I.P., and he has been enjoying good health ever since. Currently, another sister-in-law has cancer of the neck and H.I.P. has done everything possible, and she too is on the mend.

When the chips are down and the patient has his back to the wall, H.I.P. comes through, without added expense, without burdensome paper work, and with medical attention beyond expectation.

I am patiently waiting for H.I.P. to open a Group Center in or near Lake Ronkonkoma so I can again get first-class medical attention.

"when the chips are down..."
Governor Rockefeller announced last week the locations of recruitment and training centers in three sections of New York City for the State's new manpower program.

The locations, all in hard-unemployment areas, are:

- Harlem: Armory at 2365 Fifth Avenue (at 142nd Street)
- Bedford-Stuyvesant: 357 Summer Avenue (at Putnam Avenue)
- Bronx: Armory at 120 Frankin Avenue (at Boston Road)

The program, designed to bridge the gap between minority groups and civil service opportunities, recruits at civil service grade I and II to encourage minority applicants toward careers, rather than temporary jobs.

Openings of all State agencies has also been increased.

Commissioner Krone. Governor Rockefeller added, "in order to " bridge the gap with minority groups. The opportunities taken for self-improvement will be extended to those from more fortunate circumstances while at the same time maintaining the standards of civil service. The maximum flexibility should also increase the project's success."

In the final analysis, Governor Rockefeller pressed a readiness to shift some personnel and facilities if the response in one of the three target areas is particularly great. "This is a two-way street," the Governor Rockefeller concluded, "the only placement effect which can be secured is the one geared toward providing a man with a job which holds out the promise of something in return for ability, work experience, and opportunities taken for self-improvement."

Putnam County Civilian Jobs

Putnam County is accepting applications until Aug. 31 for an examination for clerical positions. The program is designed to bridge the gap between minority groups and civil service opportunities. The opportunities taken for self-improvement will be extended to those from more fortunate circumstances while at the same time maintaining the standards of civil service. The maximum flexibility should also increase the project's success.

For further information contact the Department of Civil Service, Commission, Carmel.

Suffolk County Legal Stenographer

The Suffolk County Civil Service Commission is accepting applications for 82 stenographer for an examination for stenographer. Salary varies according to jurisdiction.

For further information contact the Personnel Service Commission, Riverhead. Refer to announcement number 6-172.
Excellent Salaries For Public Health Advisors

Applications are being accepted by the United States Civil Service Commission on a continual basis for an examination for public health advisor. Starting salaries for the position range from $7,220 to $16,460, in grades GS-9 through GS-15, to be determined according to experience in administrative, professional or other responsible work which gives evidence of ability to serve the public health. Some educational advances may be substituted for experience. Specialized experience requirements are also demanded. For further information and applications write to the New York Region Office, U.S. Civil Service Commission, 220 East 42nd Street, New York City. Ask for form 7-1.

BUFFALO AWARD — Adalbert Bargmann, psychiatrist aide of the year at Buffalo State Hospital, received his certificate recently during ceremonies at the hospital. ONONDAGA CHAPTEUR URGES 10% PAY RAISE FOR AIDES

Syracuse—Pay increases of "at least 10 per cent" in 1967 for both City and County employees earning less than $8,500 annually are being sought by Onondaga chapter, Civil Service Employees Assn.

Also, the chapter has asked that the City and County each assume the full costs of employees' retirement programs—"to increase the employees' take-home pay," said Leon Appel, chapter president, in letters to Syracuse Mayor William F. Walsh and Onondaga County Executive John H. Meloney.

The chapter's 2,500-plus membership is composed of both City and County workers.

In her letter to Mayor Walsh, Miss Appel asked that the City adopt the Sick Health Insurance Plan for its workers. The County and the Structure Housing Authority, a City agency, now have this plan, she pointed out.

"And," the letter continued, "the chapter requests that CSEA representatives be permitted to visit City employees during working hours for the low cost health insurance group plan and to allow payment of the insurance premiums through payroll deduction." County employees were enrolled in this spring in the group life insurance plan available only to Onondaga chapter members.

Through the combined insurance and membership campaigns, this chapter gained several hundred members among County workers. "All these need to be focused on in requesting these items for 1967," the letter says, because employees "are faced with rising living costs and increased taxes which are making it extremely difficult for them to make the ends meet in their families.

The increases were asked for all County and City employees, not just members of the chapter.

Libel is Not PR

LIBEL OF an individual or group cannot ever be used as a springboard for trying to achieve a public relations objective.

NO BETTER case in point is the "come-hell-or-high-water" review board for New York City's "unjustified" unions established by the overwhelming majority of New York City's, Buffalo, and Syracuse, state Office Buildings, New York, Buffalo, and Syracuse.

The review board is now equated in the public mind with the albatross of a police brutality. THE WORST defect is that it, along with so many other gimmicks, has at least a half century backlog of public relations strikes against its success.

THE MOST obvious is that it is based on a gross libel against the police as a group and against the individual police officer as a human being.

JUST CHECK back on the statements by the overwhelming majority of proponents for setting up a civilian review board in all American cities. Inevitably they talk of these review boards as having one purpose.

TO BE MORE specific: a closer figure in the national political right might be found in the "New York Times" as demanding for Chicago graduate in the near future that all policemen per se are guilty of police brutality. That is one of the reasons the Board is to be a success.

FROM the public relations viewpoint, the strong implication is that all policemen per se are blameworthy and that a civilian review board can stop these "abuses against defenseless civilians," pinpoint those who are members of minority groups.

BY CONSTANT repetition of this theme, the public is now so conditioned that a police review board can stop these "abuses against defenseless civilians," pinpoint those who are members of minority groups.

I. The New York State Department of Civil Service is accepting applications on a continual basis for caseworkers, who will be assigned to various areas of the State. Minimum salary for these positions is $1,200 per year but some cities and counties pay up to $1,600 to start.

II. The exam is open to college graduates in various fields who wish to graduate in the near future.

Rockland County Employees Win Summer Hours Dispute

NEW CITY.—Member of the Civil Service Employees Assn., Rockland County chapter, won a victory this week when, as the result of action by Michael H. Purdy, a former County attorney, they had restored to their working hours those which were changed during the months of July and August.

In 1983, the Rockland County Board of Supervisors restored the normal working hours to 25 years of July and August.

This year, Purdy researched and found that many neighboring counties and municipalities had maintained the 4 p.m. closing. He stated that it is true, responsible negotiations.

CSEA Reports Successful Completion Of Negotiations With Mineola Village Officials

MINEOLA.—A seven-point package has been arrived at by negotiations with the Mineola Village Officials.

The basic package is in addition to salary increases granted earlier when the present budget was adopted.

The new package included:

1. A graded salary plan whereby positions with lesser responsibilities would be filled by incumbants. This would place salaries lower than currently in effect.

2. A reclassification of all positions. Existing incumbants should or be appropriately higher.

3. A new vacation schedule which up to the present time have been a stumbling block. The new schedule will go into effect immediately.

4. A salary reallocation for the larger group, should be agreed upon. The new position created by the new budget will be filled by incumbants.
