Action Considered
On Planned Switch
Of Court Workers

By JANE BERNSTEIN

Manhattan—The impending April 1 transfer of local court employees from county health policies to the state insurance program could spur a law suit by the Civil Service Employees Assn. in the near future.

The Assn. attorneys James Pothier and Steven Willey are now studying ways to legally prevent the New York State Office of Court Administration from implementing this measure when all court employees move to the state payroll in April.

The prime difference between local and state insurance plans is that the county picks up the contribution on the local level, while state employees must contribute payments out of each salary check. The cost for state-wide insurance, which includes Blue Cross, Blue Shield, and Metropolitan Medical, for an employee and family is $44.80 per pay period, or twice a month.

Westchester County court employees, whose contract providing for non-contributory medical insurance expires Dec. 31, and Nassau County court workers, who are also under a previous contract (although it expired Dec. 31 of last year) may be the groups on whose behalf the action will be taken.

Suffolk Prepar3s For Contract Vote

HAUPPAUGE—Arrangements were being made for a Jan. 27 ratification vote on an unprecedented 4-year contract between the Suffolk chapter of the Civil Service Employees Assn. and the County.

James Corbin, president of the Suffolk chapter, said ballots would probably be distributed with paychecks mailed that day.

The settlement preserves increments for all current employees, provides two step increases in 1977, eliminates layoffs, creates a new top step with a $1,250 increment, provides general increases for a top step of 4 percent next year, 5 percent the following year and the cost of living in the final year, plus a boost of fringe benefit improvements.

up stranded vehicles without having a police officer at the scene. (Normal procedure requires the presence of a police officer when low trucks can remove disabled vehicles). This system, according to each guard, was not compatible with the convenience to motorists as well as a safety precaution, said Mr. Sheridan.

"To assist us in our efforts to remove disabled vehicles from needed roadways so quickly as possible, we request that motorists not abandon their cars. Motorists are urged, if all possible, to get their ears safely off the roadway so they will not be a hazard to moving traffic. Do not remain in your car," emphasized Mr. Sheridan. A blank form is kept in the car, where you can keep it under observation but not run into the road, and give it to another vehicle and wait for assistance.

Forced Retirement Becomes An Issue

By A. L. Peters

Forced retirement is becoming a greater issue in both private and public service. The Foreign Service Act calls for mandatory retirement of foreign service employees at age 68. This is being contested in the courts in Brad- ey v. Kinney, in which a number of foreign service employees claim they are being discriminated against in being forced out of service. They hold that mandatory retirement at age 68 has no rational basis and often a quite effective deterrent to corruption. Are we to make public all areas of our personal life in the future? The whole idea reeks of a political witch-hunt.

Merit vs. Spoils

There is a temptation to always keep on hand an editorial discussing the Merit System vs. the Spoils System, since periodically the subject rears its head with all the determination of a nine-headed Hydra. It may be remembered that in ancient Greek mythology, the Hydra was an animal that grew two heads for each cut off—unless the decapitated head was promptly beheaded. So we feel impelled to take issue immediately with comments made recently by two generally respected state commissioners, John Dyson, of Commerce, and James Tully, of Taxation and Finance. The danger of such reckless, albeit well-intentioned, comments is underscored by the immediate reaction and support given by the Albany-Times-Union, one of the Capital District daily newspapers.

The Times-Union reports that Mr. Tully told their publication that merit promotions would be far more appropriate for auditors in his office after they reach a civil service grade level that is moderately high. The Times-Union editorial also implied that Mr. Dyson's views are that the Merit System allowed undeserved promotions by incompetents protected and advanced by the system.

More to the point is what seemed to be the paper's own opinion: "The state is wasting vast sums on personnel, losing valuable talent, and being a target for scalping by incompetents protected and advanced by the system."

It was almost exactly 100 years ago, under the administration of President Chester Arthur, of New York State, that the Merit System began to replace the traditional political spoils system in this country. It is also approximate that another New Yorker, Theodore Roosevelt, before he became President, also served on the federal Civil Service Commission.

Thus, it is particularly odious that two distinguished commissioners and the prestigious Times-Union should be taking up arms in defense of the Spoils System.

There are weaknesses in the civil service system, to be sure, but these weaknesses are in the abuse of the Merit System, not in adherence to it.

It must be realized that the Merit System, as well as any other system, is only as good as the politicians running it. If they had done right by the people/workers to begin with, these protections would never have been needed.

Human nature being what it is, we feel no security that things would achieve some utopian ideal if the employees were to lose their protection: the Merit System.

Questions & Answers

Q. I've heard that you don't need to work as long under social security to be eligible for disability benefits as you do to get retirement benefits. Is this true?

A. The amount of work you need to qualify for social security disability benefits depends on your age when you become disabled. Before age 24, you need credit for 1½ years of work in the 3-year period ending when your disability begins. From age 24-30, you need credit for having worked half the time between age 21 and the time you became disabled. All workers disabled at age 31 or older—except the blind—need credit for at least 5 years of work out of the 10 years before they became disabled.
Economy Plus.

Our Beetle has gained the reputation of being a truly economical car. Economical to buy. Economical to run. And then our Rabbit came along.

With all the economy of the Beetle plus
The Rabbit gets 37 mpg on the highway, 24 in the city. (That's EPA estimate for manual transmission. Actual mileage may vary depending on driving habits, car's condition and optional equipment.) And because it has fuel-injection you can use the most economical grade of gas.

While our Rabbit uses little gas, it gives you lots of room. 87% of the interior is devoted to headroom, legroom and cargo room.

The Rabbit's also big on performance. It goes from 0 to 50 in just 7.7 seconds, maneuvers in and out fast with its rack-and-pinion steering and takes the bumps well with its 4-wheel independent suspension.

Adding one plus on top of another, you'll find nothing quite equals our Rabbit.

CSEA County Executive Committee: Officeholders
The Civil Service Employees Assn. Board of Directors is currently the subject of some debate as to whether it or the union Delegates are the top policy-making body of the union.

It has traditionally been considered that the Delegates set the union policy, but that the Board has the fiduciary responsibility. One recent example of the Board's reversing a Delegate decision occurred when the Delegates voted to hold a convention in the Bahamas, but the Board, after extensive debate, determined against it. The cost of a Bahamas convention was among the factors that were discussed before the vote to override the Delegates.

Since the 1,000-plus Delegates, representing all the union's local chapters, meet twice a year, the Board is charged with carrying out the will of the Delegates in the interim. It has been presumed that as circumstances may change in the periods between conventions, the Board may revise policy to meet the new circumstances.

The debate on Board authority versus Delegate authority has been carried on at various regional and chapter meetings within the past month, with differing results of interpretation. It may be assumed that the issue will be further debated at the statewide Delegates meeting March 20-23, when all factions in the dispute will be represented.

It should also be noted that nearly all members of the Board of Directors are also Delegates, accounting for approximately 10 percent of the larger body. Delegates represent specific chapters of union members, whereas directors are generally elected from a larger constituency.

The voting members of the Board of Directors are elected as statewide officers (including the six regional presidents), as statewide departmental representatives, as county representatives or as regional school chapter representatives. These elected officials of the union function separately as the officers, the State Executive Committee and the County Executive Committees. None of these separate bodies can commit the Association to a course of action, however, except when they act together as the Board. (There are, of course, inherent powers in the single office of the president.)

The Leader has previously presented a special roundup of the members of the State Executive Committee, composed of the statewide departmental representatives and the 10 statewide officers. There has also been a special presentation of the non-voting Board members, comprised of the standing committee chairmen.

Therefore, in view of the current controversy, The Leader continues with the remaining Board members: the county representatives and the regional school chapter representatives. These people—again including the statewide officers—are the County Executive Committee, chaired by Region VI school chapter representative Salvatore Mogavero, of Erie Educational Employees chapter.

If all County Executive members were to be pictured here, they would completely fill this page. The County Executive Committee, though, is still in some state of flux because of differing election procedures. Frankly, the Leader has been trying to assemble all of these photos for many months, but has held back due to recurring changes. For example, Brian Dombrowski has been recently named to the Board as the representative of Seneca County. Also during recent weeks, some of the people pictured here may have been replaced, but the newcomers have not been certified, so the previous office holder is included here.

Other counties entitled to representation on the Board, but not included in this photo roundup, are Chenango, Delaware, Franklin, Genesee, Livingston, Orleans, Schenectady, Tioga, Warren and Wyoming.
Carter Still Has Federal Jobs in 'New Spirit' Administration

By HARRY BERKOWITZ

The U.S. Civil Service Commission has authorized new agency heads to make temporary appointments, in order to "organize programs promptly and efficiently" as part of the Presidential transition, it was announced last week.

The "Schedule C" appointments cover employees in grades GS-15 through GS-18 who help determine policy or who have confidential relationships with Presidential appointees.

The appointments may be made until May 1 and last up to 90 days. At present there are about 1,000 Schedule C positions authorized in a workforce of some 2.8 million persons, according to the commission. The total number is expected to increase during the transition period.

The Leader, hereunto, continues its select list of federal non-civil service jobs that may become available under President Jimmy Carter's administration.

HAPPY BIRTHDAY, KID!

Signed twenty new

Incentive Mem-
bership Drive!

My goodness—and I thought we were broke!
Where did you get the money?

EXTENDED TO APRIL 1, 1977

Never in the history of our union has it been so
vital to stick together — grow together and share the
load to keep us strong. In these tough times, the
greater the percentage of membership of any county
unit or chapter, the greater the strength at the bar-
gaining table. The greater the percentage of state
employees belonging to CSEA, the greater the
strength of the state bargaining units.

Therefore, we are offering members in good stand-
ing a cash incentive to recruit new members. There is
no limit to the number of new members you may sign
up. And while the cash incentive is nice to receive,
the most important factor is the strength you will be
helping to build for you and your fellow worker.

ONE (Member) WILL GET
YOU FIVE ($5)

For each new member you sign up between now
and April 1, 1977, CSEA will award you $5.00. After
you have signed up the new member he must be on
the payroll for four bi-weekly pay periods or the
equivalent thereof.

CHAPTER OR UNIT PRESIDENT
HAS CONVENIENT SIGN-UP
CARDS

Ready to go? See your Chapter or Unit president
for special sign-up cards which have a place to re-
cord all the necessary information. Send your cards in
as soon as you sign up a new member — and we'll
credit your account with $5.00 for each member
signed up.

We'll keep your account up to date and will return
to you, in writing, a receipt for each new member
you've signed up. In approximately 8-12 weeks you
will receive your cash payoff.

New members must work in a unit of government
represented by CSEA. So we urge you CSEA mem-
bers — go to it — start signing up non-members for
cash in your pocket and security in your future.

NON-MEMBERS SHOULD
HELP SHARE THE LOAD

If you're a non-member, we ask you to think of
this: sharing the load in these tough times is im-
portant. Legally, we represent you — at the bargain-
ing table — and even in processing grievances. And
we need your support — morally and financially — to
fight the battles ahead. Our dues are most reason-
able for the services provided... services which
benefit you in many ways.

So help us share the load by signing up with us.

The Association of New York State Mental Hygiene Physicians objected to sections of a 57-page report that it considered discriminatory.

CSEA Organizes Group Of Horseheads Schools

HORSEHEADS—A spokesman for the Civil Service Employees Assn., Inc., announced at a recent meeting of the Horseheads Central School District secretarial and clerical employees that the school board now recognizes the CSEA as its official collective bargaining representative.

The new group, numbering nearly 60 employees, will officially be called the Horseheads Central School Secretarial and Clerical Unit of the Chemung County chapter of CSEA.

During the meeting, an election committee and interim unit officers were named. Anita Matison will serve as president; Helen Jones, vice-president; Vi- rin Miller, secretary, and Ellen Kocher, treasurer. Those named to the election committee were Bev Nelson, Donna Green and Virginia Miller.

The CSEA was represented at the meeting by Eloise Ventura and Charlie McGraw, Central Region V staff members, who answered questions and explained step procedures to the new unit members.

An election of officers will be scheduled in the near future.

Back Pay Granted Albany Caseworkers In CSEA Win

ALBANY—Caseworkers in the Albany County Department of Social Services, represented by the Civil Service Employees Assn., will receive back pay of increments due since January 1, 1975. Marge Karowe, personnel officer, has obtained from Appellate Division Justice Mahoney an order declaring an arbitrator's decision finding the County Board of Trustees and individual trustees to have illegally stopped paying increments.

CSEA's legal counsel, representing the employees, has obtained from Appellate Division Justice Mahoney an order staying the enforcement of the Executive Order on Financial Disclosure. In a counter move, B. J. Bankhead, of the Department of Correctional Services, as temporary chairman, and selected committees to conduct member interests on this and related issues. At a meeting in Albany on Jan. 17, the group elected Henry Bankhead, of the Department of Correctional Services, as temporary chairman, and selected committees to conduct membership and public information programs and to develop a structure for the organization.

Audience Responsive to Film With Amusement at Capital Region Meeting

ALBANY—This 1977 remake of “Gone With The Wind” has been voted the year’s worst film to date by New York State critics. It, Donald Wollet, director of the Office of Employee Relations, played “The Wind,” in a barely convincing attempt to keep New York State Civil Service employees down on the farm.

State Will Appeal Negative Financial Disclosure Ruling

ALBANY—The Governor’s Office has declared its intent to appeal the decision of Supreme Court Justice Harold Hughes declaring unconstitutional the Governor’s Executive Order on Financial Disclosure. In a counter move, B. J. Bankhead, the attorney representing the state’s 6,000-plus management and confidential employees, has obtained from Appellate Division Justice Mahoney an order staying the enforcement of the Executive Order pending the final disposition of the dispute in the courts.

This means, in effect, the state’s management and confidential employees do not have to submit the controversial 10-page disclosure form, at least not until the issue is finally decided, probably in the Court of Appeals.

The arbitrator agreed with the union’s position, ordering the Albany County to pay all eligible caseworkers represented by CSEA increments due since January 1, 1975.

FISHKILL—Members of the Civil Service Employees Assn. have been receiving treatment at the recently opened Fishkill Dental Group, which accepts the employees’ dental plan and GHDI’s schedule of allowances as full payment for covered services.

The Group, located at 140 Main St., Fishkill, has announced willingness to provide additional facilities in the union’s Southern Region.
