Dr. Tolman Gives Views of Assn.

ALABANY, April 24—Barb critics disabled against the State Civil Service Commission upon inauguration of its new policy of transferring jobs from the exempt to the competitive class fainted away to nothing at a public hearing on Monday, April 17.

Charges that policies had guided the action freely made it was first announced, were not repeated at the open meeting. To those present at the hearing is an indication, there is nearly unanimous approval of the transfer. The official of Agriculture, who feared that a transfer to the competitive class would result in a loss of their salary. About 25 persons were present at the meeting.

All three commissioners—President Edward C. Covington, Jr., and Commissioners Frank Morris and Dr. Tolman, the latter representing the Department of Agriculture, who feared that by working with the Commission as far as possible in drafting bills with the positions that are being made competitive, as well as those not of a very careful and frugal manner, they had not made a sound and sane determination of this problem is by a survey of all the positions that now are outside the competitive class and we have been greatly pleased to know that the Civil Service Commission is making such a survey at the behest of its board and their determination. We have understood and observed that this survey will, continue until all the positions will have been considered.

Albany, April 24—The Senior Clerk Promotion list published by the State Civil Service Employees Association on Monday.

A total of 2,379 employees applied for the list, which was held November 1, 1949. Of these, 1,188 were placed, 1,409 failed, 107 were absent, 41 were disqualified, 1,496 were placed, 30 were placed, 1,496 were placed, 30 were placed. The number of candidates on the list was 30.

The new list will be used both for promotions within departments and from one department to another.
All State Rent Control Jobs Temporary at Start

ALBANY, April 24 - New York State is undertaking the classification of permanent employees who worked for the Federal and NYC residential rent-control agencies. About 400 will be transferred to State employ when the State takes over exclusive control on May 1 under Joseph D. McGoldrick as Rent Administrator. The present plan is to take over about 400 employees on a temporary basis only. The classification project, on which Carl Kelly, chairman of the Classification and Compensation Board, is working and which will be continued to the Manhattan Conference, is being held with the purpose of using the Classification Board of the Federal government to facilitate the assignment of State titles comparable with those in Federal service. The same initial assistance will continue.

98 P. Out of U. S. Jobs

The Federal staff consisted of about 100 employees when the NYC staff about 150, to 450 persons have left or will lose their jobs. About 90 per cent of the Federal employees have received reduction-in-force notices, in other words, they have been declared surplus. These notices were dated as of the end of March, eliminating about 360. Employees who were left with leaves will be allowed two weeks' notice and denial of a recall.

At this situation now stands the employees of both NYC and the Federal agencies. The employees have been pointed without examination will not be transferred to State service, especially as the number of employees of the NYU is large and would be more than sufficient to fill all the vacant positions. The State will feel are needed. In NYC service such informal applicants are called provisionalists, in the Federal government non-status employees.

The transfer of employees who had permanent status in either NYC or Federal jobs will be made on an individual basis. The transferred permanent employees would receive the same pay in State service.

Many Have Long Service

Some of the Federal employees not only have a permanent status but considerable lengths of service, even 20 years and more. They include largely non-veterans who were hired from veterans from Veterans Administration jobs and from other agencies last year and the year before. Thus many a permanent U. S. employee now finds himself out of a job. He's on his annual leave, as no hiring is being done by the State Rent Administration, until May 1. Some former employees who are getting the State office organized for the State, but those who were younger or did not have their tides and payroll are of those the personnel director himself. George Wells, located at the new quarters of the Rent Administrator at 360 Broadway, NYC, in the old Mint Building.

Confirmation By Harcourt

Mr. McGoldrick and his staff have been answering to letters, calls, and visitors, confirming all employees. All inquiries have been told that no hiring can be done until May 1 and that hiring of persons not previously or presently in rent-control jobs will be premature. Mr. McGoldrick answered his question regarding his department and other

Dr. Spero to Study British Workers

Dr. Sterling Spero, professor of Public Administration at New York University, has been awarded two grants to study the place of an employee in an industrial society. The study will be made in England, and its importance to public employees in the United States is apparent from the fact that two learned societies are sponsoring it with funds. The Social Science Research Council and the American Philosophical society.

Dr. Spero, in his book "Government as Employer" is considered the most authoritative ex-position of this subject.

The Public Employee

By Dr. Frank L. Tolman

President The Civil Service Employees Association Inc. and Members Merit Award Board

OPPORTUNITY KNOCKS

The State Civil Service Commission held its first hearings April 17 on proposed extensions of the competitive class. On behalf of the Civil Service Employees Association I made a brief statement on the fundamental faith of the Association in the open-competitive method of determining merit and fitness for appointment to the public service:

"There is no subject," I stated, "that has been closer to the heart of the employees than putting into the competitive class all positions, the qualifications of which can fairly be tested by competitive examination. As long as I have been connected with the Association it has been our policy in the past season and out of season the extension of the competitive class and a review of all positions in the exempt, non-competitive and labor class to the end that the mandate of the Constitution of the State requiring that appointments in the public service in New York State shall be made according to merit and fitness for positions which are suitable to be filled by open-competitive examinations be fully observed.

There Is No Easy Way

With the rapid growth of the State service there has been an increasing tendency to find the easy way of appointing outside the competitive class. During two World Wars manpower shortage forced temporary emergency measures relaxing strict civil service requirements. In spite of the difficulties of this period progress has been made in extending the merit system. Under Governor Lehman, an army of hospital attendants were taken out of the personal and often parental dictatorship of the appointing officers and were given competitive status in name and in part. The Association is now urging that this enhancement, delayed by war conditions, be completed and that the full measure of competitive selection and protection be made fact.

Union Officers in England are given competitive status for custodians of the inmates in women's prisons, in hospitals for insane criminals and now a proposal is under consideration for a small group of attendants in various prisons.

We have urged that the only method of making a sound and sound determination of qualifications of individuals is a survey of all positions that are now outside the competitive class. We are pleased to learn that the Civil Service Commission is dealing with such a survey and that in this survey the Association will have the privilege of expressing its views.

We are pleased to learn that the Civil Service Commission is dealing with such a survey and that in this survey the Association will have the privilege of expressing its views.

Finally I expressed the thanks of the Association for the opportunities to be heard both in connection with positions which the appointing officers or department heads from time to time desire to make out of season, and the further opportunity to have a part in a very careful, frank and open examination of all non-competitive class to determine whether they should be competitive.

Heart of Civil Service

We are now dealing with the heart of Civil Service. We are in position to do more now to make the merit system all that its great advocates and designers dreamed, than has been possible for many years.

The Association deeply hopes that this opportunity may not be lost, but that the task may be carried through to full fruition.

How to Achieve Gains Told To Southern Conference

UNITY of purpose by State em- ployees was the keynote of the Southern Regional Conference meeting in Legion Hall, Middle- town. Both principal speakers, Louise C. O'Gara, executive secretary to the Orange County, emphasized that united methods of working for the benefit of State workers would win them the benefits they seek.

Mr. McDonald, chairman of the Conference, also hammered home the fact that "Our State Civil Service Law is complete and self-sustaining, Miss Gerry, and as it should be united, we must reinforce and top priority this year. It should be handled as such by the employees." 

Mr. Clear, president of the Conference, also expressed the optimism that "the merging of $350 of the Employee's "salary into the employee's base pay and that $720 County Executive Herbert C. Ge-

Rome School Is Tops

The Rome State School employees' basketball team finished the season undefeated, winning 19 straight games.

The team captured two games from each of the other teams in the Tri-Hospital League, which includes Mavny and Utica State hospitals, and five other teams from the City of Utica. Besides, taking all the games in the regular schedule, the boys won all games in the post season series.

The team also won games from the Rome All Stars and County All Stars.

The county game noted 5500 attendance, an additional 5000 was given to the fund by the Rome State School employees.

SING SING chapter. Civil Service Employees Association, was held on Friday, April 21, at Bill Reiber's Farm, Elmsford. The meeting was attended by representatives of the county executive and the Board of Supervisors.

Charles Howard, District Supervisor for the Civil Service Employees Association, presented the agenda of the meeting.

The meeting was attended by representatives of the county executive and the Board of Supervisors.

Mary Brown, Supervisor of the Town of Herkimer chapter, was present to represent the interests of the employees.

The meeting was being arranged for the 55-year retirement with the state of all employees in the state. The meeting was held at Ossining Fire Station.

Mrs. Alice Johnson of the steward of the meeting was present to represent the interests of the employees.

Tom Curry, farm boss, was absent from his duties because of an unexpected illness.

Roy Black apparently was on the mend, as he was being seen walking around the grounds of the institution.

Frank Harper, long time employee, was present at the Trinity Parish Hall.

John Lively reached the top rung of the ladder, but quickly decided that it was much better to go back to school than to stay.
Employment Interviewer Exam to Open

(Continued from Page 11)

The City is planning to conduct a written test for Employment Interviewers and for Assistant Claims Examiners, but the rates have not yet been established. Hearings on that score will be held at 10 a.m. in the Albany Court House on May 21. It is estimated that there are about 350 Employment Interviewers in the city and possibly more in the Assistant Claims Examiner ranks.

The Civil Service Employees Association is planning to conduct hearings in the above-mentioned cases, and possibly in the Assistant Claims Examiner's case.

Malone Is Named Head Of Queens Plan Board

By THEODORE RECER

Kim Malone was the unanimous choice of the 150 or more people asked on a civil service examination or a civil service test in a job of this kind, you may protest or appeal and have a public hearing. Such action, if taken, may be necessary, because the commission is not required to give any reason for the action of the commission in rejecting your application. The court or local board may then decide whether the action was proper or improper.

The action of the commission, if not corrected by the state or local board, is final, except the federal court. The state or local board may order the commission to take certain action or to allow certain facts to be considered in the action of the commission. Mr. Fitzgerald said his case before the New York City Board of Labor Counsel and received a place on the penalty list.

The order requires reduction of wages of $1 a day for picking up a non-cumulative 7 1/2 day penalty for any one 24 hour period in which a dollar is lost. The penalty is to be applied for the second, third, and fourth and subsequent occurrences of this offense, or a rise of $480.

Why Some Candidates Get No Rating

The policy of the Second Regional Office of the U. S. Civil Service Commission is to inform candidates of their percentage ratings in exams, if they passed, but if they didn't pass, not to give them the numerical score. However, candidates who are interested in the results don't pass, and with appeal, receive a written statement of the reasons for being failed.

Candidates have been made eligible on the U. S. Clerk Grades 2 and 3, GS-4, GS-7, and GS-12, showing that candidates are being made aware of the reasons they failed.

The situation confronting these people is that they may not find by men and women on other tests because of reductions in forces in the Federal Service in the past it has been a situation of cold and clammy mail and also as locators of correspondence. This highly addressed mail, would be shuffled, the correction service a variable, and if discontinued, which threatened old-timers who've been doing it. They would be transferred to terminals for clerical work, with which they may not be familiar, and without consistent employment, by the post office of one or the important services rendered to the public.

For Typists the practical test is typewriting only, while for stenographers it is typewriting and transcription on a typewriter, which passes and transcription on a typewriter on their own typewriters. Some can- didates who have not learned to type without failing to have them take the type test.

The application period will be extended enough, the Regional Office said, to enable at least 10,000 candidates to apply.

There will be no more evidence of educational requirements, it is expected. The list on the post will be determined by the average of the earned scores, plus any credits for veterans preference. Those en- sured to disabled veteran prefer- ence get 10 premium points added. All eligible veterans get 5 points added.

U. S. ProtecS Custodians

WASHINGTON, April 24—The U. S. Civil Service Commission has approved a change in the Federal Civil Service. The change will prevent reductions in the pay of custodians of post offices where government buildings are transferred from the Post Office Department to the General Services Administration.

Custodians in the Post Office Department are paid rates authorized for the postal service, whereas those higher than rates for comparable work paid to employees of the General Services Administration under the Classification Act of 1949. The new rates will be in effect on the Post Office Department to the General Services Administration, and will retain their higher pay of rate.

The custodian positions become va- cant, however, will be subject to the regular pay scales of the Classification Act.

Patrolman Medical Test To Begin Week of May 8

The last day for filing protests against the results of the NYC Patrolman (P. D.) test was April 25. It is reported that nearly 1,000 protests were received.

The number of candidates who applied for the Patrolman's exam was 21,803. Already an agreement has been reached by the NYC Civil Service Commission on several questions that were protested. Hence the test, which is going on based on the tentative answers, will be final as to coarse errors. When the final key is validated it will then be necessary to completely update the list, as the only changes will be those affected by further decisions on answers. The medical test is tentatively scheduled to start during the week of May 8.

Crane Asks $850 Raise for Firemen as Minimum Need

In a letter to Mayor William O'Dwyer describing the pay plight so far outstripped the raises granted a living wage for firemen. Mr. Crane cited the references favored a living wage for the people and added that living costs have increased the economic pressure. It would proceed because of the enormous cost of living, which was maintained and guaranteed by means of a referendum of the people in November 1929. "During the worst economic depression in the history of our country, the people of New York asked for a decent standard of living for the firemen. We, therefore, ask you, Mr. Mayor to carry out the will of the people by seeing to it that this standard of living is maintained. This can be done only by bringing the firemen's salary in line with that of other city employees and close to that of the nation as a whole. Such an adjustment will enable the firemen to balance cutbacks and insecurity and economic hazards, one that would permit a larger share of dignity commensurate with the city's high cost of government.

We feel certain that the Citizens Budget Commission, or the Board of Estimate, or any other public-spirited group of people, will see to it that this standard of living be maintained. This can be done by bringing the salary of the firemen into line with that of other city employees and close to that of the nation as a whole. Such an adjustment will enable the firemen to balance cutbacks and insecurity and economic hazards, one that would permit a larger share of dignity commensurate with the city's high cost of government.

The Uniformed Firemen's Association asks your consideration in all matters that an $850 cut-in-living bonus be granted. We make this request with the full knowledge of the economic financial strain being imposed upon the people of New York by the present-day high cost of government.

Lag in Pay

Salaries of the fire fighters have not kept pace with the salaries of non-government employees in this area or the salary rates of non-governmental employment service agencies throughout the country. While we compare salaries of the fire fighters with the increased salaries granted to employees of the Correction Department, Board of Education, the Sanitation Department, transit workers and even right in the Fire Department with the increases granted to the Marine Stokers, we find that the Firemen have lagged far behind these departments in total increases of salary granted since you took office on January 1, 1946. These departments have been granted salary increases of $125 to $175 more than the members of the Fire Department.

We cite the findings of the Civilian Building Commission that high performance can be maintained only upon a salary equal. We feel certain that the Citizens Budget Commission, the Board of Estimate, or the Budget Director, or any other public-spirited group of people, will agree that a 28 per cent salary increase is due the past 10 years an inequitable when the average increase for the nation has been 13 per cent. Based on these findings, which came from the Bureau of Labor Stabilization, the standard of living of the fire fighters has actually been reduced in comparison to the increase in the cost of living and by the failure of salaries to keep pace with it.

In the interest of the public and the service we give the public, as well as in the interest of the firemen and their family, we ask that the salary increase be granted. It would proceed because of the enormous cost of living, which was maintained and guaranteed by means of a referendum of the people in November 1929.

Board of Transportation ReJECTS Investigator List

For the second time the Board of Transportation has rejected an Investigator list whose approval is necessary.

The Board is trying to pacify permanent employees who are on the list for promotion to Passenger, Grade 3. This could be done by upgrad- ing Grade 2 jobs to Grade 3. Such a project is receiving Board consideration.

Meanwhile the Board has asked the Commission to extend the certification time, since the jobs are being filled by provisionalists who under the law will have to be replaced. If there had been a list in the exact title of Grade Ex- aminer, Grade 2, the Board would have been required to fill the new positions within 20 days after certification.

The Commission has instructed the Board to hold the pay-roll of the provisionalists if they have continued.

Tax Clerks Still Press For a Promotion Test

Clerks, Grade 5, in the Department of Taxes are trying hard to have a Junior Assessor promotion exam held, although the Municipal Civil Service Commission has decided to fill the jobs through an open-competitive test.

Twice before the clerks were advised to seek an Assessor promotion exam and they hope that, as the Commission reversed its stand on the first opportunity to compete in the test.

The two previous changes of opinion resulted respectively from the dismissal of a Commissioner whom the clerks were doing field work and would be left out of a promotional list if not given a promotion test, and again withdrew, returning to their opinion that there was an opportunity to compete in the test.

Woman Loses Pension Suit by Narrow Margin

An employee who has retired on an ordinary disability pension and who returned to N.Y.C. service on lower pay, and then was expelled to the City under the Civil Service rules, had his pension annulled by the Supreme Court in the case of Harper J. McFarlane, No. 575, which was decided by Justice Benedict D. Dineen in that court on Friday, 15th of May. The plaintiff, who was in the employ of the City for 31 years, had been retired under the City Civil Service Law on May 29, 1930, and had sustained full restoration as a Retired Pensioner.

The petitioner's salary on retirement was $2,100. His retiring pay was $1,800. Justice Dineen noted that Section 31-b of the Civil Service Law entitled the petitioner to the same salary and maintenance as he had received last prior to retirement.

What Court Said

"Since the petitioner has accepted and retained the payments made to him," wrote Justice Dineen in an opinion, "an effort should be made to reconcile the different laws in this matter, as far as the same can be reconciled, without returning the same as so retained by him."

The reason behind that part of the decision was that the employee's restoration as a member of the System is that a person may be a City employee or a pensioner of the city, but can't be both at the same time.

When the salary was received at the time of retirement, it was clear that the employee was a city employee or a pensioner of the city, but can't be both at the same time.

The court's opinion was that, in such a case, it was clear that the employee was a city employee or a pensioner of the city, but can't be both at the same time.

Example Cited

If the petitioner in this case had been $3,000 on the pension $1,600, and the 210 days of retirement, the net income would be $3,000 also. If the petitioner had been $3,000 and the 210 days of retirement, the net income would be $3,000 also.

TWU Furious Over 'Beakies'

One of the most pressing of the 12 requests which Local 100 of the Transport Workers Union, CIO, is making of the NYC Board of Transportation is the removal of 'Beakies.' The TWU is making of the NYC Board of Transportation is the removal of 'Beakies.' The TWU is making

the demand of Auto Employees for rates prevailing in private industry.

The Auto Employees have signed agreements with the City in large numbers and Budget Director Thomas J. Patrigno points to this as proving that employees like agreements that assure an annual wage and paid vacation. Otherwise, he says, many of them would get work only in good weather, as they have outdoor occupations.

After the agreements are signed, the employees are assigned to indoor duties when weather prohibits outdoor work, that being one of the inducements to signing an agreement, though the rate of pay for indoor work is less.

Money Question Ethers NYC

Other titles concerning which a decision is to be made include Hot Line Operator, a series of titles affecting the printing trade, Rubber Tire Repairer, and Carriage Upholsterer. The total number of employees in the Carriage Upholsterers' Union is one.

Comptroller Joseph has decided that each case must be decided separately on its merits.

The proposal to amend the law would meet strong opposition from the NYC Administration because of the cost. There are about 12,000 employees now recognized as being under the Labor Law. The amendment would extend the law to about 20,000. The 8,000 additional classifications would increase the budget by millions of dollars and force a reclassification of the Budget Director's office figures.
