Latin American School Offers Summer Course

The Summer School of the University of Guadalajara is a two-semester program offered at the University of Guadalajara, Mexico. The program is designed for students who wish to pursue academic studies in a foreign language, with a focus on Latin American culture and languages. The summer school offers various courses in subjects such as literature, history, and language, taught by resident faculty from the University of Guadalajara.

Science Group Names Officers

The Organization of the Science Group is being organized by the Committee on Conclusions, headed by President William C. Strong. The committee consists of members of the Science Group, including faculty and graduate students. The purpose of the committee is to advise the administration on matters relating to the organization and functioning of the science group.

More than fifty students attended the meeting of the Science Group, held in the main auditorium of the university. The meeting was conducted by the committee, led by President Strong, who read the minutes of the previous meeting. The secretary of the group, Margaret H. Smith, read the report of the committee on the organization of the science group. The committee is expected to present its report to the administration at the next meeting of the college.

The Committee on Organization will present its third annual election of officers. The officers named were: President, William C. Strong; Vice-President, Robert J. Smith; Secretary, Margaret H. Smith; and Treasurer, Charles W. Johnson. The committee is expected to present its report to the administration at the next meeting of the college.

The Legislative branch, as provided for under the Constitution, consists of a representative Legislature, a Vice-President to preside at meetings of the college, and a President and President-elect of the student association. The officers of the legislative branch are elected by the student body at the start of the academic year.

The summer catalogue which will be in circulation shortly, lists a wide variety of classes and activities available to students. The catalogue includes courses in subjects such as literature, history, and language, as well as a variety of extracurricular activities.

Radio's outstanding nighttime show. The Night of January 16, with Jack Brophy, will appear on the program to discuss the topic of the day. The show is broadcast daily from 12 noon in Room KID Draper.
