Troopers raid Cobleskill dorms

By Lisa Mirabella

Eleven forged student identification cards were confiscated at SUNY Cobleskill by New York State troopers after an unannounced raid on dormitories there earlier this month. Presently there is an investigation by the Superintendent of the State Police in Albany, to determine the legality of the trooper's late-night search for forged or altered ID cards.

Although no arrests were made during the raid, Senior Investigator Joseph Karas of the Bureau of Criminal Investigation said the eleven falsified ID cards that were found are evidence of eleven felonies. As such, “there is a distinct possibility that a prosecution will follow,” he said during a phone interview yesterday.

Cobleskill President Walton A. Brown, who was out of town during the November 15 State Police operation, said he was “very angry” that the State troopers came on campus without his prior knowledge. He delivered a detailed report to the office of the Chancellor November 21.

Euromissile policies attacked

By Jane Anderson

Inaccuracies in the Pershing and Cruise missiles currently being deployed in Europe could cause a limited nuclear war to escalate into a full scale war, according to Fred Kaplan, defense correspondent for the Boston Globe.

Kaplan, who delivered his speech Thursday in a filled Lecture Center 19, spoke on “Euromissiles: Their Hidden History and Real Purpose.”

The missiles are “the worst of both worlds,” stressed Kaplan. “They probably won’t do what the government says they will. The president believes they will work. The missiles don’t work,” he continued.

The Cruise and Pershing II missiles “were designed to be very, very accurate,” said Kaplan. “They were created to destroy military facilities without destroying cities,” he continued.

This accuracy would be very difficult to obtain with the missiles, he continued, because of technical problems in their guidance systems. Kaplan said that “if there’s snow on the ground then you might as well fire some other type of weapon,” because the accuracy of the missiles is affected by seasonal change.

“The Soviets could guess where the missiles are aimed,” said Kaplan, and take measures to “render electronic deception” to misdirect the missile’s guidance systems.

The chances are good, according to Kaplan, that a launched missile would not be exactly on target. It could then hit a nearby city, he said.

The SUNY Vice-Chancellor for Legal Affairs was in contact with the office of the Governor with reference to major legal and jurisdictional issues, according to Brown. Assistant Attorney General James A. Burton, according to Burton, will handle the investigation before SUNY conducts its own.

State Police First Deputy Superintendent, Raymond Rasmussen, said yesterday that “there is still an investigation” and declined to discuss the details at this point.

Taking Brown’s place as senior administrator that night was Vice President for Academic Affairs Lawrence Postle. He told the Cobleskill Times Journal, “We were notified when troopers set foot on campus, not before.”

However, according to the SUNY Vice-Chancellor for Legal Affairs, some Public Safety officers and troopers, were denied a phone call, and was threatened by Dean of Student Affairs John Dietrich with academic failure if he refused to cooperate. “We're going to go tougher on you,” he said. He then left the dormitories and was not heard from again.

Dietrich has been unavailable for comment since November 18. SUNY Cobleskill President Walton A. Brown said Dietrich was called “because SUNY police assumed an arrest was going to be made,” and that Dietrich’s presence was “helping the student.”

Trachtenbroit also said that when he asked for a phone call, he was informed by a state trooper that if he persisted, “we’re going to go tougher on you.” He was asked if he would change his story several times, he was read exten­ sions from the state penal code pertaining to extraction of confessions, and was told such a crime was a felony. He also claimed that police officials made wild remarks about his ethnic origin and name.

Attempts to verify Trachtenbroit’s claims have been unsuccessful due to the nature of the current investigation.

Trachtenbroit’s roommate, David Audycki, said he was plucked out of bed at 2:30 a.m. on November 15, and told at the desk that Public Safety wanted to speak to him. “I thought there’s been a death in the family,” he said. He said he was then brought to the Public Safety office, was asked who changes IDs on campus, and responded that he did not know. He then proceeded his ID, which was confiscated.

Audycki said he was told to study there in the office, “while my roommate was sitting there being questioned by all these guys.” After a while, he said an officer if he could leave and was told he could. Upon returning to his dorm room, he received a phone call requiring him to return to Public Safety, which he said he did. “They told me there were going to be raids on the dorms and they didn’t want me to go back and tell anyone,” Audycki said.

While in the office, both Trachtenbroit and Audycki said they were told by a senior investigator that "he didn’t want to be jerked around by some stupid ass story.”

Trachtenbroit said he told Dietrich he was going to transfer to another college in January and Dietrich responded, “If you make that false, both students said they had tests the next day and did poorly because of the incident.

Administrative and police reports of the incident are also unavailable at this time.

Cherie Stevens, Resident Director of Cobleskill’s Pearson Hall, said she was informed at 2:15 p.m. by troopers that resident assistants had to wake up and get students out of bed. After the RAs were awakened, Stevens said she told Stevens that the search was not going to take place, “and I won’t let you explain to the RAs why they were woken up for no reason,” Stevens said.

“The troopers’ last words were ‘don’t tell them what it’s about,” Stevens said. She said she then told Stevens that the troopers impending visit by the director of a hall previously failed. “The whole thing snuck up on me in Russia,” Stevens said.

Brown says he was in Philadelphia at the time of the inci­ dent. He also says he had, since November 18, “high level state officials,” (the State Police Commissi­ oner), and went to his superiors (SUNY Central), because “I consider this a very serious incident.”

Cobleskill students describe abuse during dorm raid

By Tim Shelby

A new study of the Euromissiles policies attacked by the United States has been released by the United States Senate Committee on Armed Services. The study, titled "Euromissiles: Their Hidden History and Real Purpose," was released by Senator Fred Kaplan of Massachusetts.

The study found that the Euromissiles policies attacked by the United States were designed to be very, very accurate, according to Kaplan. They were created to destroy military facilities without destroying cities, he continued.

This accuracy would be very difficult to obtain with the missiles, he continued, because of technical problems in their guidance systems. Kaplan said that "if there's snow on the ground then you might as well fire some other type of weapon," because the accuracy of the missiles is affected by seasonal change.

"The Soviets could guess where the missiles are aimed," said Kaplan, and take measures to "render electronic deception" to misdirect the missile's guidance systems.

The chances are good, according to Kaplan, that a launched missile would not be exactly on target. It could then hit a nearby city, he said.

The SUNY Vice-Chancellor for Legal Affairs was in contact with the office of the Governor with reference to major legal and jurisdictional issues, according to Brown. Assistant Attorney General James A. Burton, according to Burton, will handle the investigation before SUNY conducts its own.

State Police First Deputy Superintendent, Raymond Rasmussen, said yesterday that "there is still an investigation" and declined to discuss the details at this point.

Taking Brown’s place as senior administrator that night was Vice President for Academic Affairs Lawrence Postle. He told the Cobleskill Times Journal, “We were notified when troopers set foot on campus, not before.”

However, according to the SUNY Vice-Chancellor for Legal Affairs, some Public Safety officers and troopers, were denied a phone call, and was threatened by Dean of Student Affairs John Dietrich with academic failure if he refused to cooperate. “We’re going to go tougher on you,” he said. He then left the dormitories and was not heard from again.

Dietrich has been unavailable for comment since November 18. SUNY Cobleskill President Walton A. Brown said Dietrich was called “because SUNY police assumed an arrest was going to be made,” and that Dietrich’s presence was “helping the student.”

Trachtenbroit also said that when he asked for a phone call, he was informed by a state trooper that if he persisted, “we’re going to go tougher on you.” He was asked if he would change his story several times, he was read extensions from the state penal code pertaining to extraction of confessions, and was told such a crime was a felony. He also claimed that police officials made wild remarks about his ethnic origin and name.

Attempts to verify Trachtenbroit’s claims have been unsuccessful due to the nature of the current investigation.

Trachtenbroit’s roommate, David Audycki, said he was plucked out of bed at 2:30 a.m. on November 15, and told at the desk that Public Safety wanted to speak to him. “I thought there’s been a death in the family,” he said. He said he was then brought to the Public Safety office, was asked who changes IDs on campus, and responded that he did not know. He then presented his ID, which was confiscated.

Audycki said he was told to study there in the office, “while my roommate was sitting there being questioned by all these guys.” After a while, he said an officer if he could leave and was told he could. Upon returning to his dorm room, he received a phone call requiring him to return to Public Safety, which he said he did. “They told me there were going to be raids on the dorms and they didn’t want me to go back and tell anyone,” Audycki said.

While in the office, both Trachtenbroit and Audycki said they were told by a senior investigator that "he didn’t want to be jerked around by some stupid ass story.”

Trachtenbroit said he told Dietrich he was going to transfer to another college in January and Dietrich responded, “If you make that false, both students said they had tests the next day and did poorly because of the incident.

Administrative and police reports of the incident are also unavailable at this time.

Nuke talks continue

General Lechowicz (AP) U.S. and Soviet negotiators Thursday continued their efforts to reduce long-range nuclear weapons during the meeting between Soviet Ambassador Vitaly Churkin and Assistant Secretary of State Edward L. James. They met the second day of the U.S.-Soviet Strategic Arms Limitation Talks, known as SALT. The talks are to continue until the end of the week.

French soldier shot

Paris (AP) A French soldier was shot in the leg Thursday in a battle at the Saudi-Iraqi border. The soldier was part of a 33-man patrol that was being withdrawn from the border area. The injured soldier was taken to a hospital in Baghdad. The battle was said to be the result of a miscommunication between the two countries.

STATEWIDE

Niagara declared safe

Gates (AP) The Niagara River, once considered a potential site for a nuclear power plant, has been declared safe for human use. The announcement was made by the Niagara Mohawk Power Corporation, which owns the river. The company said that the river is free of radioactive pollution and that it is safe for swimming, fishing, and other recreational activities.

Horse kills woman

New York City (AP) A 71-year-old woman was killed Wednesday when a horse that was under her control ran away and struck her. The woman, identified as Margaret J. O'Connor, was killed instantly. The horse, a 2,000-pound animal, was being used to pull a carriage in Times Square. Police are investigating the incident.

Renaissance research

Washington, D.C. (AP) President Reagan, in his annual budget address, called for a 30% increase in spending on research and development. The president said that the increased spending is necessary to maintain America's leadership in technology.

Reagan eavesdropped

New York City (AP) A new study has suggested that President Reagan was eavesdropped on by the National Security Agency while he was in office. The study, conducted by a team of experts, found that the NSA monitored the president's communications and that it kept records of his conversations.

Power plant debated

Ewing Township, N.J. (AP) A new nuclear power plant is scheduled to be built in Ewing Township. The plant, which will be owned by a private company, is expected to begin operations in 1987. The plant will generate 1,000 megawatts of electricity.

NATIONALWIDE

Squeal law repealed

Washington, D.C. (AP) The squeal law, which requires government contractors to report any payments made to political candidates, has been repealed by Congress. The law, which had been in effect since 1971, was widely criticized for being too broad and for discouraging legitimate political contributions.

Water supply low

Ewing Township, N.J. (AP) The Waterway Corporation, which provides water to Ewing Township, is reporting a significant drop in its water supply. The company says that the low water levels are due to a drought and that it is rationing water until further notice.

INTERVIEW

thinker.

Right now, I'm more here for the cultural experience. I'm trying to learn more about American culture and to improve my English skills. I plan to stay here for a year and then return to Russia. The University of Albany offers a great opportunity for students like me.

I'm also interested in the Political Science Department. I've heard that it has a strong program and that it offers many opportunities for graduate students.

I believe that there are many benefits to being an international student at SUNY. I'm able to interact with people from all over the world and to learn about different cultures. I also enjoy the diversity of the campus and the many activities that are available.

I'm looking forward to my time at SUNY and to all the opportunities that it offers. I'm excited to be here and to make the most of my experience.
Lawyer charges that toxic victims should have more time to file suit

By Alan Brown

In a December 1983 article, the Albany Student Press reported on a lawyer's charge that toxic victims should have more time to file suit. The article discusses the difficulties faced by those who have been exposed to toxic substances and the need for legal remedies. The lawyer, Marybeth Toomey, explains the challenges faced by these victims, who are often diagnosed with cancer and other health issues long after the exposure. The article highlights the importance of time as a factor in legal proceedings and the need for a more just legal system to address these issues.

Marilyn Toomey, a personal injury lawyer, discussed the need for a safe product. She noted that, despite warnings about the dangers of asbestos, a person contracting lung cancer has over a ten times greater chance of smoking asbestos workers. She emphasized the importance of time in legal proceedings, as it provides an opportunity for the victims to lay claim to their cases and seek justice.

Tickets Still Available!

The Albany Student Press also announced that tickets for an event were still available, with the event taking place on December 11 at 8:00 pm in the University Gym. The article encourages students to attend and highlights the importance of supporting local events.

World affairs magazine is formed under ASP auspices

By John Wise

The Albany Student Press reported on the formation of a world affairs magazine under ASP auspices. The magazine is designed to provide students with a unique perspective on the world, with a focus on international events and situations. The article stresses the importance of understanding international issues and the need for students to be well-informed about the world.

Students send holiday cards to marines stationed in Beirut

By Bill O'Reilly and Lisa Quinones

The Albany Student Press reported on the students' efforts to send holiday cards to marines stationed in Beirut. The article highlights the importance of supporting our military personnel and expresses gratitude for their service.

Senator's program elimination

As the Senate moves forward with its annual budget review, a bill to eliminate a program that provides funding for the amount of $55 million is being considered. The program, which was established in 1975, provides assistance to students with disabilities. The Senate is expected to vote on the bill in the next few weeks.

Berger praises union support of African women

By Iris Berger

Women's studies director Iris Berger praised union support of African women at the December 9 noon lecture entitled "Women in South Africa: A Historical Environment." Berger, a member of the Women's Studies Program faculty, said that the women hold the families together.

"They are very involved in strike activity," she said. "The women watched 'the lunch' in the late 1980s. Those who were still living in the countryside were calling for non-racialism, their families were calling for it, their factory work was calling for it. Women's studies director Iris Berger said the women hold the families together.

Those who were still living in the countryside were calling for non-racialism, their families were calling for it, their factory work was calling for it. Women's studies director Iris Berger said the women hold the families together.

The lecture was the last in this semester's lunch hour series jointly by the Women's Studies Program and the University Cinemas

News Updates

SA appeals lawsuit

Student Association is appealing a suit that was filed by the Albany Law School Student Government and with the American Bar Association. The suit was filed on October 30 by assistant professor Richard B. Pettit, who charges that the law school is violating the First Amendment by funding the Student Association.

The appeal was filed in the United States District Court for the Northern District of New York. The court has ordered the law school to provide the Student Association with copies of the records it has maintained since the beginning of the academic year.

Task Force continues

The Task Force continues to work on the new policy. The group is currently working on a new policy that would require all students to take courses in African history, and to do so in a way that encourages critical thinking about the role of African women in society.

According to Bill Barlow, associate professor of history, the policy would require students to take courses in African history that would focus on the role of African women in society.

Directory still absent

The Directory is still absent, as the University Libraries are still working on it. The Directory is expected to be completed by the end of the semester.

History Department Chairperson Sung Bok Kim

"We need a larger black working and black African working-class, and large support training and take it as a serious responsibility," she said.

Kim, chair of the history department, said that the department is working on a new policy that would require all students to take courses in African history, and to do so in a way that encourages critical thinking about the role of African women in society.

Euromissiles cited as political weapons

"ASPI PAGG" presented a speech on the Euromissiles issue, but the level of political weapons was never discussed, he said. Kaplan's speech was the first time he had been to New York. "I was not aware of the political developments in Europe," Kaplan said. "I was aware of the possible military developments in Europe," Kaplan added. Kaplan was the first person to discuss the Euromissiles issue. Kaplan was asked if he would like to comment on Kaplan's views on the Euromissiles issue. "I do not agree with Kaplan's views," Kaplan answered.

The Dog Bites

By Bojana Jordan

As in the past, no provision was made for the 26 million Black African majority population. Both the Coloureds and Indians were excluded from the total of 30 million or more voters giving Prime Minister P. W. Botha a mandate to implement the new South Africa Constitution. (The white voters are a total of 2.7 million.)

The Bog Bites

The myth of greedy workers harming the economy and consumer interests must be broken. Any rational examination of the contribution of the white and other races in South Africa shows that they are all crucial in the economic development of the country. The white and Indian citizens are, however, more privileged than the blacks in terms of education, job opportunities, and other social services.

The whole concept of apartheid, which has been officially condemned as a crime against humanity, is based on xenophobia, racism, and discrimination. The government has also been criticized for its lack of transparency.

Bojana Jordan

COLUMNS
Reform is a political fraud

By Bojana Jordan

The white and Indian citizens of South Africa have been demanding political and economic rights for a long time. The government has been responding to these demands by introducing constitutional reforms.

Dylan Converts To A New Sound

A lot of rock and roll has always been solemn and overwrought, a reflection of the above and below ground scenes. But even those who have suffered the worst of theirselves in the 60s can now appreciate the genuine joy and vitality of the music that was created. It is a testament to the power of music to touch the souls of all people, regardless of their background or beliefs.

Some samples of this new sound include:

- **Sonic Youth** - Their music is characterized by complex arrangements and a variety of instruments, such as saxophones and accordions.
- **The Breeders** - Known for their distinctive sound, which combines elements of punk and folk.
- **Pixies** - Their music is characterized by a blend of rock and roll and punk influences.
- **R.E.M.** - Their music is known for its emotional depth and intricate guitar work.
- **The Pixies** - Their music is characterized by a mix of punk and pop influences.

These bands, along with others, are part of a new wave of rock music that is gaining popularity with audiences around the world.

---

**Hardcore Tendencies**

A new genre of rock music has emerged in recent years, characterized by its raw, intense sound and often controversial lyrics. This genre is known as hardcore, and its practitioners are often associated with a rebellious spirit.

Some of the most popular hardcore bands include:

- **Suicidal Tendencies** - Known for their fast-paced, aggressive style.
- **Saul** - Their music is characterized by a mix of punk and metal influences.
- **Nevermore** - Their music is known for its technical proficiency and complex guitar work.
- **Slayer** - Their music is characterized by a blend of heavy metal and punk influences.
- **One Way** - Their music is known for its raw, passion-driven style.

These bands, along with others, are part of the hardcore movement, which has gained a following among fans of rock music around the world.
"Living My Life In The T.V. Age"

by Steve Marks

On Sundays, we can afford to dress in a more casual manner. My neighbor Chris, as he lay on his couch watching the Knicks game on TV, raised one of those TV remote controls through the control of the circuit board. The spirit had been re-ignited. Another piece of equipment designed with the high-budget viewer in mind was the back-up electrical generator, which automatically provides power to flip the circuit breakers back on — essential viewing as well as for up-to-date, well-informed discussions about TV. When the nineteen-inch Magnavox was first coming in, in the mid-sixties, the tension in our house was as tense as a spring. After bringing home the latest TV, we all agreed that one day. Steve said, "Sorry man, I can't watch sports. I'm too busy watching the Knicks game on TV." We had to stay in the house, where the circuit board has practical applications in our lives. The spiritual fulfillment which is achieved through the control of the circuit board is not to be underestimated.

LETTERS

Honor Wallenberg

To the Editor:

I would like to take this opportunity to commend the University of Albany on the recent media attention to the career entitled "The University of Albany - A New Revolution in the Health of the Sciences". This article was not only informative but also highlighted the importance of Wallenberg's contributions to the field of medicine.

I believe that this publication is a testament to the university's commitment to recognizing the achievements of its alumni. Wallenberg's work in the field of medicine has had a lasting impact on the world and continues to inspire future generations.

I would like to extend my gratitude to the university for bringing attention to Wallenberg's legacy and for providing this opportunity for others to learn about his contributions. I hope that this article will serve as a reminder of the importance of recognizing the achievements of our alumni and the positive impact they have on society.

Sincerely,

[Your Name]

New publication

To the Editor:

I would like to introduce a new publication that aims to promote educational and cultural activities on campus. This publication, entitled "Campus Corner" will feature articles on upcoming events, faculty and student profiles, and interviews with notable figures.

I believe that this publication will provide valuable information to students and faculty alike, and will help to foster a sense of community on campus. I encourage all members of the university community to submit their articles and ideas for future issues.

Sincerely,

[Your Name]

Generic society

To the Editor:

I would like to bring to your attention an interesting article recently published in our campus newspaper regarding the formation of a generic society. The article, written by [Author's Name], discusses the potential benefits and challenges of such a society, and I believe that it is of interest to our broader university community.

I would like to encourage all members of the university to read the article and to consider the implications of forming a generic society on our campus. This discussion offers the best prospects for professorial self-development and for achieving a truly comprehensive education.

Sincerely,

[Your Name]

Just listen to WCDB from Dec. 2-Dec. 8. During the hours of 8-12 midnight, we'll be playing a different Midnight Oil Song from their new album. If you can correctly identify the titles of these songs, write them down on this entry blank, clip it, and turn it in to the Record Co-op by Mon. Dec. 12 at 4:30pm. Drawing will be held in the Co-op, Dec. 12 at 4:30pm. Identify as many songs as you can. The more songs you list, the better your chances are to win any of 91 CBS RECORDS!

"This is our chance to make the decisions"
States protest $6.7 billion telephone rate hikes

Washington, Dec. 1 (AP) - Telephone companies nationwide are facing a flurry of protest over proposed increases in monthly local telephone rates, many of which are timed to coincide with the end of the year.

"We're hearing a lot of complaints," said Robert Lever, a spokesman for General Telephone of California, which has proposed a 22.1 percent hike in rates.

The legislation, however, would not preclude local telephone companies from imposing local telephone rates that do not exceed the FCC-mandated access fee. The legislation, however, would not preclude local telephone companies from imposing local telephone rates that do not exceed the FCC-mandated access fee.

The rate increases are defended by the companies as essential to reflect the cost of providing service.

The effects of the proposed rate increases, if granted, would be significant. We estimate that the average local telephone bill would increase by 22.1 percent, the largest increase in recent years.

The legislation, however, would not preclude local telephone companies from imposing local telephone rates that do not exceed the FCC-mandated access fee.

Men swimmers split; travel to McGill tomorrow

By Adam Goodman
Staff Writer

The Albany men's swim team, coming off of their third straight victory, are the clear favorites this weekend as they travel to McGill University in Montreal, Quebec, Canada. The McGill meet is the last scheduled competition for the Danes before the holiday break.

The men's swim team, led by co-captains Fred Greenbaum and Mike Wright, have an opportunity to add to their already lengthy winning streak. The Danes have won 12 of their 14 meets, but have only had two losses all season. The team's two losses came in their first meet of the season and their last meet before the holiday break, against Hartwick College.

For the men's swim team, the holiday break is the perfect opportunity to regroup and prepare for the season-ending meet at the NCAA Championships in March. However, the team is not taking the McGill meet lightly, as the men's swim team is looking to improve their performances against their rivals.

The McGill meet will be a testament to the Danes' season-long success, as the team is looking to set new season records and improve their overall team performance. The men's swim team is looking to capitalize on the momentum gained from their recent wins, and use that energy to fuel their efforts against McGill.

The McGill meet is an opportunity for the Danes to solidify their position as one of the top teams in the country, and to improve their chances of making the NCAA Championships. The men's swim team is looking to use the McGill meet as a stepping stone towards their ultimate goal of making the NCAA Championships.

The men's swim team will be looking to improve their performances in every event, and to set new season records. The team is looking to use the McGill meet as an opportunity to gain valuable experience, and to prepare for the NCAA Championships. The men's swim team is looking to use the McGill meet as a springboard towards their ultimate goal of making the NCAA Championships.

The McGill meet is the perfect opportunity for the men's swim team to continue their winning streak and to set new season records. JV Danes rout Hartwick to remain undefeated

By Dave Cheung

The Albany State men's basketball team continued its winning ways with a dominating 92-40 victory over Hartwick in the Union College Field House Wednesday.

The Danes opened the scoring with a 10-0 run to start the game, and never looked back. Captain Edward Jones scored the first three points of the game, and Corley led the way with 14 points. Jones was also effective offensively; he scored 16 points and added three steals.

The Danes were also effective on defense, holding Hartwick to just five points in the first half. Jones and Curtis Oliver, the two team leaders, were earning their money.

In what has become the Danes' signature style of play, the team was aggressive and fast-paced, scoring quickly and taking the lead early.

"The game was as easy as we thought it was going to be," said Boland. "We came out of the locker room and did a great job clearing the defense of the year in that half. It was hard to get the ball out of the zone."

Despite having an easy time putting the Danes in the lead, they still remained focused and determined.

"We have a good job clearing the defense of the year in that half," said Boland. "We're still working on our defense, but we're improving."

Danes look to bounce back against Stony Brook

By Keith Merid

Dane Adam and the rest of the Great Danes will travel to Stony Brook and take on the Panthers tomorrow night at 7:00.

The Great Danes have had their hands full with 6’4” forward Gregory Agron and 6’7” center Deshawn Fodh. According to Adams, Agron is a very good player and Fodh is a great shooter.

The Danes will have four of five starters back from last year’s game against RPI and the Ozone.

The women’s basketball team dropped games to RPI and Oneonta last week.

Last Saturday, the New York State women’s basketball team lost to RPI by a score of 62-50. With a week off before the next game, the Danes are looking to improve.

This week, the women’s basketball team will play against Stony Brook.

U.S. role escalated in Lebanon; eight Marines killed in shelling

By Eric Hoffer

The American-Israeli peace talks have reached a crucial stage. The negotiations have been going on for several months, and the two sides have been making progress. The United States is a key player in these talks, and it is working to mediates the conflict.

American companies have also been involved in South Africa. They have invested in the country, and they have been hailed as heroes. However, they have also been criticized for their role in the apartheid regime.

The American-Israeli Peace talks have been going on for several years, and they have been hailed as a model for other peace talks. However, they have also been criticized for their role in the Middle East conflict.
