Marist Upsets NCAA-Bound Danes

by Nathen Hirtz

"We played tremendously," said Marist head coach Frank Filippelli. "The 15 minutes we looked like we were playing basketball were the best 15 minutes we've played all year."

The game started with Marist scoring the first 11 points of the game. The Danes then scored four straight points to close the gap, but Marist led the game for the majority of the first half. At half time, the game was tied at 31.

The Red Foxes started the second half with a 13-3 run to give Marist a 44-34 lead. The Danes responded with a 12-3 run to cut the deficit to 47-46. However, Marist went on a 12-0 run to take a 59-46 lead.

Late in the game, the Danes cut the lead to 83-78, but Marist held on for the win. Nathan Salant scored 18 points for Marist, while Paul McTaw added 14 points and 11 rebounds.

The win solidified Marist's NCAA Tournament bid, which was announced later that day.

BREAKOUT WIN

Brockport Wins Conference

by Nathan Hirtz

In a game that went down to the wire, the Brockport Golden Eagles defeated the visiting Buffalo State Bengals 78-73, Tuesday and thus clinched the SUNYAC championship and automatic NCAA Division III Tournament bid which accompanies it.

The Eagles, who are now 15-10 (7-8 SUNYAC), secured their first SUNYAC title since 2011. The Bengals, who are now 14-11 (7-8 SUNYAC), fell to 2nd place in the conference.

The game started with Brockport leading 10-2, but Buffalo State battled back time and again at 31-31, before the Eagles ran off 8 unanswered points for a half-time lead of 48-40. Buffalo State came back in the second half, cutting the lead to 75-70 with 3:48 remaining, but Brockport held on for the win.

Mike Hart scored 31 points for Brockport, while Ed Johnson added 17 points and 10 rebounds. Dave Hock led Brockport with 17 points and 10 rebounds.

The win secures Brockport's first SUNYAC title since 2011 and solidifies their NCAA Tournament bid.

PUPs DOWN MARIST

by Joe Lefebvre

Thursday night, the Albany State Junior Varsity was defeated by Marist College, 92-86.

The game started with Marist taking the lead 48-46 with 10:05 left in the first half. However, Albany State battled back and tied the game at 51-51 with 6:43 left in the first half. Marist then went on a 5-0 run to take a 56-51 lead with 4:47 left in the first half.

In the second half, Marist scored four straight baskets, two by McTaw, to open the half and take a 60-53 lead. Albany State never recovered and Marist cruised to the win.

Marist's Nathan Salant scored 21 points and McTaw added 19 points for the Golden Eagles.

The win secures Marist's NCAA Tournament bid, which was announced later that day.

SA SLASHES STIPENDS; SUGGESTS CREDIT

by Don Michael

The Student Assembly (SA) voted to reduce stipends for student workers by $900 for the year and $600 for the summer. The decision was made during a meeting on Tuesday night.

The SA also suggested that students seeking academic credit for these activities be given credit for their work.

The bill was accompanied with a three-year report on the financial impact of stipends from the Aspyn administration. The report showed that the SA had recommended that stipends be reduced.

The bill was passed unanimously by the SA, with no opposition.

The bill was then referred to the Appropriations Committee for further discussion.

The SA also suggested that students seeking academic credit for these activities be given credit for their work.

The bill was then referred to the Appropriations Committee for further discussion.
NEWS BRIEFS

Housing Board Established

A housing exchange board, the first of its kind in the country, will be available to students tomorrow, according to Mr. Chet Shirer, executive director of the Student Association. He said that it is being formed to provide information and assistance for Middle East exchange students.

Washington: May 30 (UPI) - The United Nations has approved a $35 million emergency fund to help the nation's war refugees, the first installment of which will be used to replace the $1 billion United States contribution to the fund. The money will be used to pay the bills of refugees who are not able to work and who have been displaced by the war.

AP A
ternational news service that includes the world's major news sources, is being considered by the United Nations as a possible energy source. The service is being considered by the United Nations as a possible energy source.

Washington: April 30, 1975 - The United Nations has approved the use of nuclear power in the United States to provide energy for the nation's war refugees. The decision was made by the United Nations Security Council.

A report on the effectiveness of the housing exchange board was presented to the Student Association. It was described as a "great success." The board has been operating since last fall and has helped many students find housing.

For information call 465-2449 or call the Albany Housing Information Center.

For that matter, you won't need to drive at all. Ten Broeck Manor is served by CDTA. And on a lovely spring afternoon, you might even be living in the country — without the pressure of rats.

At last... after 1, 2, and 3 bedroom apartments, including everything but the kitchen sink... Ten Broeck Manor.

For information call 465-2449 or call the Albany Housing Information Center.

The housing exchange board is expected to provide information to students seeking campus accommodations.

Seminars to Start

Two month-long seminars on world problems are being offered this summer at the Institute of Advanced Study. Both seminars will be held in New York City, New York, and will be open to the public.

The first seminar, titled "The Future of Energy," will deal with current world problems such as the energy crisis, the environment, and energy policy. The seminar will begin on June 1st and will last for two weeks.

The second seminar, titled "The Future of Education," will deal with current world problems such as the education crisis, the environment, and education policy. The seminar will begin on June 1st and will last for two weeks.

The seminars are being sponsored by the Institute of Advanced Study and are open to the public.

In addition to the seminars, the Institute of Advanced Study will also be offering workshops and conferences on current world problems.

For information on the seminars, please contact the Institute of Advanced Study at 212-398-3600.
New Lounge Provides Relaxing Alternative

by Peggy Groucho

The new, informal Humanities Lounge, located on the floor of the Humanities Building, offers students and faculty a quiet place to unwind and socialize.

The lounge, which was recently renovated, features a variety of seating options, including comfortable couches and armchairs. The walls are adorned with artwork contributed by the Art Department, adding a touch of creativity and personality to the space.

A small coffee bar is available, providing a variety of drinks and snacks for those looking for a quick refreshment. The lounge is open daily from 8 a.m. to 10 p.m., making it a convenient spot for students to study or for faculty to meet and discuss work.

The lounge has quickly become a popular spot on campus, with students and faculty alike enjoying the relaxed atmosphere and the opportunity to connect with others.

The lounge is a testament to the university's commitment to providing students with spaces that foster learning, community, and well-being.

SA Elections Begin Today

by The Editor

Today is the first day of voting in the first set of SA elections. Voting will continue through Thursday.

Elections office officials (Pamela Fried, Vice-President, and Chris Denver, Secretary) are available in the lounge today from 4-7 p.m. to answer any questions.

The candidates for each position are:

- President: Peter Peterson
- Vice-President: Emily Johnson
- Secretary: Andrew Smith
- Treasurer: Rachel Brown
- Area Representatives: Sarah Taylor, Ben Davis
- Hall Representatives: Emily Adams, John Smith

Voting will take place in the lounge.

One person can make a difference

by Emily Johnson

In today's world, a single person can make a difference in the lives of others. Whether it's through volunteering, donating, or simply spreading a positive message, every action counts.

So, what can one person do? The possibilities are endless. Here are a few suggestions:

- Volunteer at a local food bank or animal shelter.
- Support a cause you believe in by donating money or time.
- Help a friend or neighbor with a task they need completed.
- Spread positivity and encouragement to those around you.

Remember, even small actions can make a big impact. Let's all strive to be the change we want to see in the world.

What is the current status of the "Dungeon Flight Machines" project?

The "Dungeon Flight Machines" project, which was designed to provide a safe and controlled environment for individuals with drug addiction, has been controversial. The project has faced opposition from some members of the community, who have concerns about its effectiveness and potential side effects.

The project, led by Dr. Emily Peterson, involves the use of advanced technology to create a simulated "dungeon" environment. Participants are placed in a specially designed chamber, where they are exposed to a series of sensory stimuli designed to evoke a drug-like effect.

The project has received mixed reviews, with some experts expressing optimism about its potential for treatment, while others have concerns about its long-term effects and ethical implications.

What are the current efforts to combat drug addiction?

Drug addiction is a complex and multifaceted issue, and efforts to combat it are ongoing. One approach is to provide access to evidence-based treatments, such as medication-assisted treatment (MAT) and behavioral therapies.

MAT involves the use of medications, such as buprenorphine or methadone, to reduce withdrawal symptoms and cravings. Behavioral therapies, such as cognitive-behavioral therapy, focus on changing thought patterns and behaviors that contribute to drug use.

In addition to treatment, prevention efforts are also crucial in reducing drug addiction. These efforts may involve education, community outreach, and policies to reduce access to drugs and prevent exposure to their negative effects.

What are the potential benefits and risks of the "Dungeon Flight Machines" project?

The "Dungeon Flight Machines" project has the potential to provide a unique and innovative approach to treating drug addiction. If successful, it could offer an alternative for individuals who have not responded to traditional treatments.

However, there are also potential risks to consider. The technology involved in the project is complex and requires ongoing research and development to ensure its safety and effectiveness.

The project also raises ethical concerns, such as the potential for misuse or abuse, as well as the need to ensure that access to the machines is equitable and accessible to all.

Overall, while the "Dungeon Flight Machines" project holds promise, it is important to carefully evaluate its effectiveness and address any concerns to ensure that it is a safe and beneficial intervention.

What are the potential long-term effects of the "Dungeon Flight Machines" project?

The potential long-term effects of the "Dungeon Flight Machines" project are not yet clear. Early studies have shown some promising results, but more research is needed to fully understand the implications of this approach.

Some potential long-term effects to consider include:

- Adverse reactions to the sensory stimuli
- Addiction to the "dungeon" environment
- Long-term changes in neuroplasticity and brain function
- Ethical concerns about the use of technology in addiction treatment

These factors highlight the importance of ongoing research and careful monitoring to ensure the safety and efficacy of the "Dungeon Flight Machines" project.

Is there any opposition to the "Dungeon Flight Machines" project?

Yes, there is opposition to the "Dungeon Flight Machines" project. Some critics have raised concerns about the potential for misuse or abuse, as well as the need to ensure that access to the machines is equitable and accessible to all.

Others have expressed concerns about the ethical implications of using technology to alter consciousness, particularly in the context of addiction treatment.

These concerns underscore the importance of ongoing dialogue and debate as the project moves forward, focusing on ensuring that it is a safe, effective, and ethically responsible intervention.

What is the potential role of technology in addiction treatment?

The role of technology in addiction treatment is an evolving area of research and development. While the "Dungeon Flight Machines" project represents a unique approach, there are other technologies being explored for their potential in addiction treatment.

These technologies may involve advanced brain imaging, virtual reality, or other forms of sensory manipulation, designed to provide non-invasive and individualized treatments.

As these technologies continue to develop, it will be important to carefully evaluate their effectiveness, safety, and ethical implications, ensuring that they are accessible to those in need and contributing to a more comprehensive approach to addiction treatment.

Price of Success

Events at the State University College at Brockport are considered to be an example of the continuation of corruption in American society. Watergate, rather than eliminating unethical practices in business and government, may have simply institutionalized them. It is a fast as the highest levels of the federal government, how could it ever surmise it? on any other level.

Solutions are being tried, but they are the result ofa steady state ofbureaucracy. Even when they do succeed, few people care. Back in town, for every white collar that is brought to trial, there are thousands who continue not only without being caught, but without seeing themselves as being guilty. 

The student government of the University of Michigan, when asked about the state of their administration, said that they had never had a problem. The only solution, assuming we want one, would be a complete revolution, a revolution that might not include violence but probably would. 

The student government of the University of Michigan, when asked about the state of their administration, said that they had never had a problem. The only solution, assuming we want one, would be a complete revolution, a revolution that might not include violence but probably would.

Vice is not nice

One drinker in ten is an alcoholic, according to a recent national survey. The total figure comes near ten million—enough for 25 experts to consider it at epidemic proportions. At last count, alcoholism was the cause of more than 200,000 deaths annually, costing Americans over 20 billion dollars. It is responsible for half of all the arrests made in this country each year.

Campuses across the nation are not immune to this disease as well as the other addictions and vices that are prevalent in our society.

Tobacco and marijuana are two common forms of drugs that are often used to excess. In the centerfold of today's magazine, various abuses of these substances are viewed.

A fourth attempt at quitting

by Nancy Quar

I don't recall when I decided that 1-2 years was the natural time to quit smoking. It may have been in 1971, when I was in my 20's and I began to understand what a terrible habit I had. I learned the dangers of smoking and how it affected the body. I was also bored with the cigarette smoke that filled my lungs every time I smoked. I began to think about quitting.

I began to notice the effects of smoking on my health. My lungs were becoming less and less able to function properly. I was also beginning to experience other physical problems. I was becoming more tired and weaker. I knew I had to quit.

I made several attempts to quit smoking, but I never succeeded. I would start smoking again after a few days or weeks. I knew I was addicted to nicotine.

I stopped smoking again in 1975. This time I was successful. I was able to quit smoking permanently. I have not smoked a cigarette since.

I believe that quitting smoking is worth the effort. It is not easy, but it is possible. I encourage anyone who is trying to quit smoking to keep trying. Success is possible. I know I can do it.
Stennard. Myself: A tie and a jacket. You gotta be kidding. General Schuyler. The court house is a large white dome building with old Greek columns in front. It was open from Monday, February 10th to Friday, February 21st, each day from two to six in the afternoon.

On Monday February 15th the bus drove down to Troy and then walked down Washington Avenue to the courthouse. It is located across the street from the State Legislature and is between the two buildings that are General Schuyler. The courthouse has a white dome building with old Greek columns in front.

I entered through the northeast doors and was stopped by a guard. Guard: Where are you going? Stennard: Just to listen in on the court proceedings. Guard: Isn't that the same tine every day? Stennard: Yes, it is. Guard: If not, why are you coming? Stennard: Because the Court of Appeals is in session for two weeks each year. This year it was open from Monday, February 10th to Friday, February 21st, each day from two to six in the afternoon.

go for the big time: declare

According to legal sources. With inflation and

costs out of control and more and more students

are finding it impossible to earn the money they need to

support themselves in court. In fact, all students have

began to realize that they are in a real bind. They are

facing the possibility of bankruptcy.

Students and Stigmas

"Students don't take bankruptcy lightly," says

one student. "They don't want to have their

names associated with it."

But there is a financial stigma. Stereos,

radios, sports equipment, furniture and other

material goods are all taken away when

a student files for bankruptcy. This is a

painful process, for the most part, represent

unsure of the future.

Academic Bankruptcy

Along with their material losses, academic

bankruptcy is also a concern. Many students

lose their scholarships when they file for

bankruptcy. This is a problem, for many

students have started their professional careers with

these scholarships.

If a student declares bankruptcy, their

credit rating is ruined. This makes it difficult

to get loans for graduate school or any other

higher education.

There is also a financial stigma. Stereos,

radios, sports equipment, furniture and other

material goods are all taken away when

a student files for bankruptcy. This is a

painful process, for the most part, represent

unsure of the future.

Academic Bankruptcy

Along with their material losses, academic

bankruptcy is also a concern. Many students

lose their scholarships when they file for

bankruptcy. This is a problem, for many

students have started their professional careers with

these scholarships.

So pack your bags, get ready for adventure, and head to the slopes this Spring!
Saints Could Be Trouble

Long Weekend For Engineers

by Bruce Maggio

Saints will be above average meeting No. 1 in a first-class backcourt team. They have scored from their line-up in the national survey. They have scored confidence in the team's ability to win.

Eagles Are Favorable

by Nathan Nelsen

The Engineers, with a strong second team and a young backcourt, have the potential to defeat the Saints. The Eagles will have to defend their home court against the Saints, who are known for their speed and ball control.

Bid Rekindles Memories of Cardiac Kids

by Bruce Maggio

The game was a heart-stopping thriller, with the Eagles edging the Saints by a narrow margin. The overtime period saw both teams battle back and forth, searching for that crucial basket that would decide the outcome. In the end, it was the Eagles who emerged victorious, securing their place in the final round.

Travelling Free

SUNYA Women's Track and Field

by Bruce Maggio

The Saints have a strong team in their women's track and field, with multiple athletes qualifying for the Nationals. The team has been training hard, working on both their physical and mental preparedness, to ensure they peak at the right time.

Student Services International is making available information about undergraduate and graduate study in the U.S. for Engineers.

Fall Program

STUDENT TRIM & SHAPE CUT

Gymnastics Place 7th

by Joyce R. Perkins

The Mansion's Gymnastics Team finished nineteenth in the 18-team field in the NCAA Championships.

Senate Debates Limiting Exams To Finals Week

As the perennial mid-term exam time approaches, SUNYA students flock to the University Library and pretend to be serious scholars.

Senate Debates Limiting Exams To Finals Week

A bill currently before the Senate would limit in-class exams to the week before the final exam. The bill would not apply in cases in which exams are held earlier in the semester, or in cases in which the exams are held later than the week before the final exam.

For example, on Monday, the Senate unanimously passed a bill that would limit in-class exams to the week before the final exam. The bill was sponsored by Senator John G. Flanagan (R-Erie), and was supported by the University Senate and the American Association of University Professors.

The bill would limit in-class exams to the week before the final exam, and would prohibit exams that are held earlier in the semester, or in cases in which the exams are held later than the week before the final exam.

Senators expressed concern that exams held earlier in the semester would give students too much time to study, and that exams held later than the week before the final exam would give students too little time to study.

The bill was passed unanimously, and is expected to be signed into law by Governor Andrew M. Cuomo. The bill would become law on the 1st day of the following academic year.
