Tonight’s The Night: Albany vs. Potsdam

SUNYAC Title At Stake As Danes Seek Playoff Berth

The SUNY Athletic Conference (SUNYAC) basketball season is heating up as the Albany College of Nanotechnology (ACN) and the State University of New York at Potsdam (Potsdam) are set to square off in a crucial game. With both teams vying for a spot in the SUNYAC playoffs, the stakes are high for tonight’s match.

**Game Preview**

**Albany’s Approach**

Albany, ranked No. 2 in the nation, has been in excellent form, winning their last six games. The team, led by their senior guard David Oshana, has been scoring 82.9 points per game on average. Oshana, with a 22.9 scoring average, has been a key player in their victories, often stepping up in crucial moments.

**Potsdam’s Strategy**

Potsdam, on the other hand, has been a formidable force, with a 77.5 points per game average. Their senior center, Derrick Rowland, has been a significant contributor, averaging 6.7 assists each game. The Bears’ defense has been tight, holding their opponents to 63.3 points per game, but they’ll have to face the high-scoring Albany squad.

**Key Match-up**

The game will be a showdown between Albany’s guards and Potsdam’s forwards. Both teams have strong lineups, but a key to tonight’s game will be the ability of the forwards to neutralize the high-scoring guards.

**What’s at Stake**

The winner of this game will likely secure a spot in the SUNYAC playoffs. Both teams have been on a roll, but tonight’s game could be the deciding factor in their playoff seeding.

**Conclusion**

“Tonight’s game is crucial for both teams. Albany has been on an incredible run, but Potsdam is no slouch. With both teams playing at their peak, it’s anyone’s guess who will come out on top,” said a source familiar with the upcoming match.

**Follow the Game**

Stay tuned for updates on tonight’s match. Whether you’re cheering for Albany or Potsdam, this game is sure to be a thrilling one.
Supporters would be wary of any move by the White House to furnish Egypt with modern arms. The impact on Mideast peace could be the first step in a new move by the administration to meet a country's weapons needs. The Pentagon team's mission is to assess Arab defense needs in the wake of President Anwar Sadat's appeal for American weapons.

WASHINGTON (AP) Responding quickly to an appeal from President Anwar Sadat, the Carter administration will review U.S. arms sales to Egypt, sources said Friday.

The initiative by the Pentagon team, due to arrive here Monday, comes as officials of the Arab League met in Cairo to discuss the affront to Arab honor by President Sadat's action and to propose to the United States that it supply Egypt with modern arms.

The purpose of the visit is to determine Egypt's defense needs in the wake of the historic appeal for American weapons, sources said.

The appeal stems from a speech President Sadat made to the United Nations General Assembly in September, in which he asked the U.S. to provide his country with modern arms.

The source said the Pentagon team will consult with the Arab League as part of the review.

'The Pentagon team will assess Egypt's defense needs,' the source said.

The source said the Pentagon would determine the need for additional arms.

'The team will determine the need for additional arms from the United States,' the source said.

The source said the Pentagon team would also determine if Egypt was eligible for a military sales loan.

We Were Born To Run

When we first signed on the air last year at 4:00 pm, March 1st we chose a song we felt best presented the musical direction in which we intended to go. Bruce Springsteen’s classic ‘Born to Run’ set us off and running on what has been an incredibly exciting year in radio.

We’re ready to celebrate our anniversary!

That’s why this March 1st (Thursday) at 4:00 pm we’ll be playing ‘Born to Run’ in a very special way: over the bells of the Carillon! This unique event in SUNYA history will be made even more special because we’re giving away three complete collections of Bruce Springsteen’s albums plus five giant four ft. by four ft. Bruce Springsteen posters.

LISTEN TO 91.5FM for the details about how you can help us celebrate our anniversary and win some great prizes.

Class of ’82 Presents

A Weekend at Gore Mt. and Lake Placid

★ Site of the 1980 Olympics
★ World Cup Races featured on March 4

March 3-4

$30 class of ’82 dues paying member
$40 All other classes includes: round-trip transportation, lodging (4/room), breakfast at lodge on Sunday.

Seats are limited!!

Leave Albany Sat. morning and ski Gore; leave there in the afternoon for the Monmore Lodge in Lake Placid, ski Whiteface on Sun. and return that night. If you don’t want to ski on Sun., there will be other winter activities, such as snowmobiling. Price does not include lift tickets.

For reservations call Stacy at 7-5202 or Scott at 7-4307.

Reservations for non-freshman begins Sunday.

When Molly Hatchet strikes, heads are gonna roll.

Molly Hatchet. Six men, three guitars, and a whole mess of good times coming your way. They’ve earned their reputation for rock ’n’ roll rowdiness, on stage—and off.

And on their debut album, “Molly Hatchet,” they capture the essence of their sound on vinyl. A sound more sonically bludgeoning than your average rehashed boogie.

Listen to “Molly Hatchet.”

Their first album is now available at Music for You, Just A Song, and Record Giant.

Halstead announced from page three until further notice. Seed Jar (91.5FM)。“Seed Jar” is a show that’s dedicated to raising awareness of the importance of the need to support our community radio stations.

The new ceiling.

Halstead however, argues that higher ceilings are not yet proven necessary by facts that are being presented to the student body.

The ceiling is 12 ft. higher than the ceiling at “Seed Jar” of 91.5FM. The ceiling at “Seed Jar” is 8 ft. higher than the ceiling at 71 FM.

Speaking about changes on U.S. college campuses due to the influence of the anti-war movement, Halstead said that “in 1969 it was a time when you could hand out a leaflet, you could sit in the middle of a traffic circle, you could stand in the middle of a road yelling, ‘the war is immoral’ and not be arrested.” According to Halstead “the student change in campus was a direct result of the anti-war movement.”

Remember the program "This Is Your Baghdad," from the 1970's and early 80's?
Well now, according to the New York Times, the Pentagon shows the show and more programs like it to troops stationed in the Gulf.

According to the newspaper, "The 20-minute show is part of a broad effort by the Pentagon to improve morale on the Gulf front. The theater, which has been established for the troops stationed in the Gulf, is intended to provide entertainment that is both relatable and inspirational."

The show, which is titled "This Is Your Baghdad," is a comedic take on the realities of life in the Gulf. The show features performers who are also serving in the military and are able to relate to the experiences of the troops.

The show is part of a broader effort by the Pentagon to improve morale among the troops. The theater is the latest in a series of initiatives that have been launched in support of the troops, including the establishment of a satellite network and the distribution of care packages.

The Pentagon has also been working to improve the physical conditions of the troops, including the provision of better food and more facilities.

A Political Primer for Staters
Lesson 1

Cruel and Unusual?

To the Editor:

At approximately 5:45 on Sunday afternoon of Feb. 17, 1975, a large crowd gathered outside the Jennings Tower at SUNY at Buffalo. The demonstration was both spontaneous and impromptu. Because of the atmosphere of friendliness and peace, the crowd was not to be unceremoniously harassed, especially in view of the fact that it was composed of students without any previous experience in dealing with such large and unfamiliar crowds. The large number of participants and the variety of their demands made the situation somewhat difficult.

It is difficult to determine just what went on before the demonstration, but it is possible to infer that the crowd consisted of SUNY at Buffalo students who had been engaged in a sit-in at the nearby University of Buffalo.

The Human Body: A Testimony To Perfection

Your body has been called a house, a temple, a machine, a vehicle for the soul, a tool for the mind. It is the most complex integrated functioning system known to man.

The greatest computer man has ever seen lies behind his eyes...

...The head is followed by the arms, and the itty bitty fingers, and the rest of... Snip, the umbilical cord is cut. The kid is on his own.

Slap, welcome to the human race, Cry.

The Brain

The Brain controls the glands and secretions of the body, communications, coordination, and the muscles. The impulse travels along the optic nerve to the brain, and from there the sympathetic nervous system to the muscles of the body. The brain is the center of speech and thought. The brain is the central nervous system, where all the information comes together. The brain is the control center of the body. It is the brain that directs the body's activities. The brain is the seat of consciousness.

The Heart

The heart is a pump that circulates blood throughout the body. The heart is the organ that pumps blood to all parts of the body. The heart is the organ that supplies oxygen to the body. The heart is the organ that keeps the body alive.

The Lung

The lung is a gas exchange organ. The lung is the organ that exchanges gases with the environment. The lung is the organ that brings oxygen into the blood. The lung is the organ that removes carbon dioxide from the blood.

The Kidney

The kidney is a filter that removes waste products from the blood. The kidney is the organ that regulates the composition of the blood. The kidney is the organ that maintains the balance of the body.

The Body is a house, a temple, a machine, a vehicle for the soul. It is the most complex integrated functioning system known to man.
For Colored Girls

Three Dane Track Marks
Set In Tri-Meet At Union

by Gregory C. McIntyre

Three and a half seconds later the first place finisher in the 3000 yard steeplechase, and the second place finisher in the 10000 yard race, both set track marks for the Danes in their 32-18 victory over Colby College.

The previous record for the 3000 yard steeplechase was an 11:47.5 set by Brian Barnes last year in an 85.4 steeplechase, and the record for the 10000 yard race was a 32:15.5 set by David Mitchell in 1978.

The Danes also won the meet with an all-time record of 19:41.4 set by the relay team of Paul Pellegrino, John Ryan, John Trainor, and John Filippone.

Middle Earth 7 9300

Three school records were set last week as the Danes competed at the Colby College Tri-Meet. Senior Bob Palance set a record in the 10000 yard race with a time of 28:30.4, and Senior John Filippone set a record in the 3000 yard steeplechase with a time of 11:47.5. Finally, Senior John Ryan set a record in the 5000 yard run with a time of 15:29.6.

**Spikers Suffer First Setbacks**

Albany volleyball coach Ted Earl, in good stead as the late season dramatics are in full swing, was pleased with the Danes' play after last week's split against Boston University. The Danes bounced back in the second meeting to win 15-7 after being down 6-1 in the first game. The week leading up to that game. I wore a sweatshirt and jeans, but I was going to a football game. I thought I was going to be able to wear scissors and a shirt, but I just couldn't do it. When Swatling retired the sweatshirt, I was embarrassed about that."

"I travel with the basketball team. People in the administration, instructors, and students have been kind to me. They have been friendly, and I enjoy working with them."}

**Sports Feature**

"My father is a truck driver, and I grew up in the circus. I have been around the world, and I have learned to appreciate the beauty of different cultures."

"I think about the Danes' play in the last game. They had a tough week, but they came through with a split. Things did not fall into place for them, but they were able to bounce back."

"I have a great deal of respect for the Danes. They are a tough, competitive team."

"I would like to be able to do more work for the Danes. I would like to be able to work with them more."
Cardinals fought back, and using a free throw at the end of regulation drivers seat. Backed by a capacity of two losses each. At that point a of post-season play, and with a win, Cardinals would virtually assure Potsdam Saturday night. Leading By Six With 73 Seconds Left, (PLATTSBURGH) The clock was presently, Plattsburgh has only one to the NCAA Div. Ill playoffs from basketball crown, the automatic bid situation.

Lack Of Lights Is Safety Hazard

But DeVoe Says It's O.K.

by Anna Smith

The UAS Executive Committee will recommend later this week the board into the increased in tuition, and the

DNA research has been going on at SUNYA for over five years...

Zahm said that the one food item

The recombinant technique has been one of the key developments in genetic engineering. It allows scientists to combine DNA from different species to create new, potentially powerful organisms. However, the process is not without risks. The UAS Executive Committee will consider proposals for the potential hazards associated with DNA research.

UAS General Manager E. Sterling Zahn says Phased Out. Phased Out.

Phased Out. Phased Out.

UAS Executive Committee To Hike Board Rates

As a result, the UAS Executive Committee will recommend a phased approach to the implementation of board rate increases. This phased approach will allow the university to gradually adjust its board rates to reflect the increased costs of operating the university. The phased approach will also provide the UAS Executive Committee with the opportunity to evaluate the impact of the increased board rates on the university's financial stability.
