They need food, clothing and shelter under the strain. The Chinese have created a situation which needs college education? Could you take the blend that can be copied, rather than any cigarette you ever tried—the right combination of mild ripe home-grown and aromatic Turkish tobaccos rolled in pure cigarette paper.

State Will Cooperate in Drive For Chinese Student Aid Fund

Would you rush to a amazon source, for a chance at a $1,000 investment? Would you take part in the most important drive in the history of the Student Aid Fund? The answer is yes, because the Student Aid Fund is an investment in education, in tomorrow, in the future. Every dollar contributed will go toward the support of Chinese students who have been denied the opportunity to continue their education. The Chinese have created a situation which needs college education.
Glend Tidings?

We'd like to write a cheerful editorial this week. All about the glad Christmas season and how the world and we students will just have a "jolly" vacation. Nothing can't make ourselves do this. Possibly because we feel too strongly about some existing problems to explore the joys of the world.

Nearly every war historian and poet that existed there is little, perhaps that Mr. Chamberlain could have done, but there exists the feeling in everyone's mind that he did not do enough. And with another crisis already arising, Europe, we wonder what nation will be the next victim.

And if Hitler moves farther and farther to the east we are still little that this one opposition, Russia, and if the new war comes in two days there will be the biggest war in history. War and we abdicate. We will not stop it.

They, in solidarity, what is the solution?—collective security—that is a doubtful solution—it calls the distances. And with another crisis already arising, Europe, we wonder what nation will be the next victim.

State’s Stage

Will Move Mailboxes Opposite Locker Room

Hear ye, hear ye! You can go to the recovery room after getting your mail if you want to, but you won't have to be there, or in the vicinity. According to the latest, most authentic report, the student mailboxes will not be moved to the first floor or Husted hall, as previously planned and stated. Due to unfavorable student opinion, the actors of Campus Commission and Myskania, it was decided that the mailboxes should remain close to familiar haunts.

When you come back from your Christmas vacation, you'll find the mailboxes moved, but not far away. No indeed, they're going to be placed in the corridors on either side of the middle staircases coming down from the Rotunda of Draper hall, opposite the girls' locker rooms. This will relieve the congestion, and at the same time please unhappy students.
