JUNIORS WIN RED CROSS DRIVE

Four Hundred Members Secured

The Red Cross contest closed the last day before the Christmas holidays. The campaign was very successful, closing with almost four hundred members. The faculty gathered its full quota and many of the employees enlisted. The classes fought hard for the greatest number of members, the Juniors winning by two. The Seniors were next, and then the Sophomores and Freshmen. A few outsiders were generous enough to give us their helpings, and our Red Cross Auxiliary wishes to thank them.

Now that the campaign is ended, we hope that those who did not join during the campaign week, will not think that they cannot join. Red Cross will welcome all to its membership.

MUSIC CLUB GIVES FIRST DANCE

On Saturday evening, Jan. 5th, from seven to eleven, an informal reception and dance was given by the Music club to members and their guests. The following men: Barry, Fitzgibbon, Alfred Miller, G. A. Schiavona, .Hazel Hengge, Mr. Tillman, Nicholson, W. C. Merchant and Howard Harrison, Ex-S, for their excellent music.

At ten o'clock the following program was given:

Vocal Solo — Tresa Meade. 
Flute Solo — Myfamory Williams.
Vocal Solo — Florence Stubbins. 
Flute Solo — Dorothy Wight, Anna Fortanier, Margaret Returning. 
Vocal Solo — Veronica D. Farlow. 
Vocal Solo — Florence Stubbins. 
Vocal Solo — Myfamory Williams.

The gymnasium was decorated with decorations consisting of flags, pennants and club banners and palm branches. Cheerful people.

The dramatics class has been working very hard for the success of the play and the support of the college is expected. Music will be furnished by the high school orchestra.

Tickets can be obtained from any member of the class. Price 25 and 3 cents.

STATE COLLEGE LEAVES FOR WILLIAMSTOWN SATURDAY

Coach Maroney is Whipping the Basketball Team Into Shape for its First Trip

Superintendent Jones has asked Dr. Finley to give a class in civics in view of instructing the juniors winning by two. The Seniors were next, and then the Sophomores and Freshmen. A few outsiders were generous enough to give us their helpings, and our Red Cross Auxiliary wishes to thank them.

Now that the campaign is ended, we hope that those who did not join during the campaign week, will not think that they cannot join. Red Cross will welcome all to its membership.

STATE COLLEGE LEAVES FOR WILLIAMSTOWN SATURDAY

Coach Maroney is Whipping the Basketball Team Into Shape for Its First Trip

Manager Sutherland is making arrangements for the trip to Williamstown next Saturday. The boys are working hard as they desire to put one over on former Coach Weatler. It is expected that Coach Maroney will select eight from the following men: Barry, Fitzgerald, Karrin, Poll, Cohn, Liebstein, Nicholas, Mason and Townsend to make the trip. The first five named will probably form the nucleus of the team.

Williams will probably play Whitman Wednesday, January 21st, and Dayton at guard. The other positions have not as yet been filled.

On Friday last, State College students had the honor of being addressed by Dr. Finley, who was introduced as our "courier" to France. Owing to the time of year, Dr. Finley started to wish the college a "Happy New Year," but hesitated and wished instead that we had a "Good and Great New Year." In order that this might come to pass, he admonished us all to keep our faces happy for, quoted, "When things are not cheerful, people must be." Then in his pleasant conversational way, he related some of his experiences in France.

The primary aim of this journey was to study the schools of France and, as he said, to learn from France whereas on a former trip he had gone there to teach France something. It is interesting to note here, that the University of Cambridge was probably modeled on that of New York, for the latter was founded much earlier, and the two are much alike.

He spoke of two great armies,—the army of Present Defense, and the army of Future Defense. Although it was his duty to visit the latter, nevertheless it was unavoidable that he see more or less of the former, inasmuch as he traveled along the whole length of it from the North of Belgium to Saint Die. The traveling was done in a military car, and most of the way there was a camouflaged trees. He saw many signs of its first air battle. In speaking of "No Man's Land," he declared that it should rather be called "No Woman's Land." At Paris he witnessed the triumphant arrival of the Allied forces.

One little anecdote of especial interest to Alabamians. An Italian woman remarked one day at a hooch of that, according to the greatest authority in the world, the word "America" was first printed at Saint Die. The authority quoted was John Boyd Thatcher of Albany, N. Y.

No discussion of the war in France is complete unless the women are mentioned, for by their efforts, support is given to the men at the front. Much has been said of the various kinds of work they have been doing. Dr. Finley particularly noticed their extreme politeness. For instance, a woman subway guard always says "Thank You" when she punches a ticket. Here he broke off for a minute to comment on his experiences in buying a paper from a French woman and a Boston woman. The former refused the order for "Good Morning," but said, "Please the paper, the price, said the French woman. The latter did not even notice him until he spoke, then she kindly pointed to the paper and said, "two." A friend of Dr. Finley's on being told the story said that the "two," showed inefficiency in the woman's part—but the Frenchmen have raised two fingers.

Dr. Finley's trip was a great trip, and the French army is always advancing as it goes on. The French children realize the importance of the French army. They answered the call of the French children. The interest in schools, which is so marked, is great.

One small boy was piped over on knowledge of the military history that when asked who was a great general, he replied, "Wilson." "Vive l'Amerique" is the call of the French children. The interest in schools which is being kept alive, "over there" is marvelous. Dr. Finley found an exhibition of the work of the school children during the war. This exhibition was held at 7:30 in the morning—and the President of the republic was present, but these, being keep secrets, perhaps we close our schools because of a coal shortage? Better close something less important.

Last, but most important of all, Dr. Finley told of the messages he was sent, and the schools are kept open unless the military authorities say so. Dr. Finley told of the messages he was sent, and the schools are kept open unless the military authorities say so. We are also proud of the fact that the French children realize the existence of North America and the friendship of the United States, more than ever before. President Wilson's proclamation was posted on bulletin boards throughout the country, and read in the schools. One small boy was piped over on knowledge of the military history that when asked who was a great general, he replied, "Wilson." "Vive l'Amerique" is the call of the French children. A PRAYER FOR THE NEW YEAR

BY DEAN HORNER

Give us here in this College, as we give to Almighty God, as we go about our humble tasks, an awakened realizing sense of the importance of our actions. We are the New Year which lies before us. Help us to remember that our old — our heritage and our future — is wrapped up inevitably in these first few months — years it may be — that are to come.

Instil no "hymn of hate" in our hearts, no thirst for blood, no dreams of revenge, no dreams of conquest. Rather help us to think often and deeply about the rights of little children, cold, hungry, defeated little children who fell the pincushion of the world's work over. Keep us mindful — for it is already one portion of deteriorated shrines, stricken homes, and maimed soldiers. Let the spirit of the Red Cross permeate our thought and action day by day.

And while the whole world is so help us to see that we can best serve it and Thee, with such light hearts, happy faces, and cheerful voices as we can command. Teach us how to sacrifice, gladly, willingly, indifferently. Give our calling new carriage, new purpose. Help us to make our college an institution of filleul and marriage. Our all — our heritage and our future — are to come.

ShriJ bugle blasts, beating drums, the tramp, tramp, tramp of marching feet, and the new year is ushered in, to Time. But the sky cheerishes with heavy shoes over his pink toca, and a khaki uniform. Instead of a pair of wings on his back, mass of cur. Do we see an old, bent, haggard figure leaning on a cane, and passing out of the field of vision with slow pausing step? Ah no, 1917 wore khaki somewhat worn perhaps. His hair is grizzled, but his form defies age. He is erect, and soldier. Just so his spirit. Hardi set jaws and eyes of steel-like determination, tell of experience that were costly. He has a vision for he is 1918; we must serve its purpose as an inspiration to all. There's more than mere darkness in the young soldier's eyes; he sees something we do not. There's more than mere darkness for him. His eyes are trained — he has a vision for he is 1918; we are still in the darkness of 1917. We fail to see a streak of light through this darkness, but can we not remember that the darkness which just precedes dawn is more intense than any other hour of the night? We are young in the experience of what war brings and know not what we see. Our vision is not sharpened as to our own individual parts in the great tragedy. Just a few months ago we had to be told. Now as we salute the old, we must sharpen our vision and take the chance. There is light, if we but know how to see it.

Every failure, every weak spot in the great struggle, is an example of what to avoid in the future. We must make our college more and more a part of the world of big things. The "gown" must become a part of the "town." Humanity is undergoing much — among other things, taking a "collegiate course in war."

New Year resolutions come — and go, like a blaze of magnesium. They seldom burn deeply. Instead of resolving to make the world over by letting our heads hang down in a stone wall, let us get a vision. A vision — that is keen enough to see a streak of light, even thru the smoke and mud and gas, "over there." Yes, get a vision, and then advance toward that streak of light in the east.

ATTENTION, SANDWICH EATERS!

Don't you tire of eating dry, tasteless sandwiches for lunch? Don't you give with a good conscience a place where you might obtain something hot? Did you know there was such a place here at College? The Junior Cookery Class serves lunch every day except Saturday in the basement of the Science Building. They do this primarily to gain experience in the manipulation of ingredients, but, anyone may take advantage of this courtesy offered, by signing on the list posted on the main bulletin board. Above the list is stated the dat, time for the day, time served, cost, and number of people that can be accommodated. The time is five minutes past twelve, the cost from twenty to twenty-five cents. Anyone desiring to become a regular attendant at these lunches may make arrangements and thus forego the formality of signing.

The lunches are substantial, well prepared, well served, and always contain at least one but dish. Here are some of the means that have been served already, this year — encrusted salmon, coffee, bran muffins, sweet pickles, prunes, white; vegetable chop suey, bran apple, cornmeal rolls, corn muffins; scalloped oysters, kreamed celery, prunes, apple, spice; cream of celery soup, scalloped and corned beef, corned beef and potato, sauce; tomato soup, codfish, chow-chow, cranberry bread, fruit compote.

Students who under-nourish themselves physically cannot hope to be efficient mentally. Do not let your children go one by without becoming acquainted with the advantages of a sandwich lunch. The Editor of the "State College News" wishes to have the students' Godmother League cease letterwriting girls had better heed General Pershing's request and respond with strange women. These godson seekers do not do this because of vanity, but because they have wondered about it often, and have wondered about it often, and have wondered about it often. The shipment of the Science Building is filled with the advantage of efficiency in the eyes of coming years. Hurry! The Student's Godmother League has been organized to help the girls who write, to learn to be efficient mentally and to understand that there is a “different” kind of boy. The seniors living at the Practice House for the next two weeks are: Miss Steele, Miss.george; Misses van Rensselaer, and Mrs. Knapp, all of Cornell, spent the day inspecting food conservation work in this city. Mrs. Peterson will continue her work here as in Rensselaer, and Mrs. Knapp, all of Cornell, spent the day inspecting food conservation work in this city. Mrs. Peterson will continue her work here as in Rensselaer, and Mrs. Knapp, all of Cornell, spent the day inspecting food conservation work in this city. OFFICIAL NOTICES

Physical Examination Sophomores (men) who have not met Dr. Hallaway for physical examination should consult the bulletin board for notice of appointment hours at once.

Semester Examinations Instruction for the first semester will end on Saturday, January 19. Examinations will begin on Monday, January 21. The schedule of examinations will be found on the bulletin boards. Conflicts should be reported to the Dean on forms to be secured in the Registrar’s office not later than 11 a.m., Saturday, January 12.

"Overdue"

Lists of all students, by classes, who have "overcut" during the semester, including the attendance record up to January 12, will be posted on the official bulletin board on Tuesday, January 15. Students, whose names appear in these lists, who do not present satisfactory explanation of "overcuts" in writing at the Dean’s office by Saturday, January 16, will be excluded from final examination and reported as "failing" in the subjects in which they have "overcut."

There will be no time for postponing the names of students whose absences during the last week of the semester result in "overcuts." Such students will also be excluded from final examinations and reported as "failing" in the subjects in which they have "overcut." If they do not present satisfactory explanation in writing at the Dean’s office not later than Saturday, January 19.

H. H. Hurner, Dean.

Beginning with the second term, the college schedule will be re-arranged so as to provide for a free period daily between 11:30 and 12:05, to be used as a lunch hour, periodical and to make the work of the day less strenuous. The time for this luncheon period will be preserved by discontinuing the daily physical exercises.

The new schedule is given elsewhere. Students are urged to familiarize themselves with it before the beginning of the new term.

GERMAN PINCHES

Kaiser, you have played with ambition.
And now your cards are few.
You have challenged the whole world wide,
And they have accepted you.

You led with a march on Paris.
Your men in the game you rushed,
But the Belgian forts were trump cards.
And there your first lead was crushed.

Next you led on the Zepplins, Monmouth, that came by night.
Killing women, children and aged, Who never intended to fight.

But the Allies hold the aces,
Your Zep no longer they dread,
For you are treated January 9.
And their murderous-crows are dead.

Then you played the U-boat,
And no man says you hold on all,
But the navies hold the cards
That have brought about their fall.

Now the game is nearly over.
Kaiser, your chance is slim.
For the Allies have the trump cards.
And you can never win.

M. A. S. ’18.

John McColl '16 spent a portion of his Christmas vacation visiting friends in town. He was recently accepted for the aviation school and expects to be called out very shortly.

Miss Faith Wallace, visited the Latin Department, Friday.

It is reported that Bobby Burns has been transferred from Florida to Kentucky.

Miss Faith Wallace, visited the Latin Department, Friday.

Second Lieutenant A. E. Dekleto, posted his Christmas furlough in the Capital District. He is at present stationed with his company at Washington, D. C., where they are doing guard duty. He is a member of the 8th Brigade, and as the first four brigades have already left the country, he expects the 5th to be soon sent to France. His brother is already in France serving with the Engineers.

Cecilia McGee returned to the Robertsticks for a day recently.

Second Lieutenant Jesse Jones was in Albany until January 6. He is still stationed at Camp Dix.

Fred Sisson has not received his invitation to France but is still stationed at a Northern camp.

David Arrows called on Jos. A. Walker recently.

Edith Wallace was seen about the college during the past week.

Joe Keating reports that she is enjoying her work at Mamakoson. She subscribed to the "News" while at the college in order to keep track of progress here.

Cash Logan writes that though he likes the work and climate, there's something missing about Florida.

Y. W. C. A.

The regular practice hours will be Wednesday evening at 8 p.m. The members are urged to come and particularly to be on time.

FATHER DUNNY ADDRESSES NEWMAN CLUB

The regular meeting of the Newman Club was held last Friday. Margaret Sholes presided, and announced that all pledges to the war food should be paid immediately. The council appointed the following committee to arrange for a "good time." Friday evening in the gymnasium: Catherine Bestle, Thora Dyer, Ruth Marzouk, Catherine Wansbro and Greer McConnell. Copies of the "Colombian" and the "Newman Quarterly" were given to those present.

FATHER DUNNY gave his most interesting talk about the club about notes, especially literary. He advised acquiring a fondness for good literature, and gave a short review of the best books of different countries.

The next lecture of the club will be Monday, January 14, at the Vincentian Institution. Father Wynne, of New York will be the speaker.

DANCING CLASS

The Saturday afternoon dancing class will be held from two to three o'clock. If you aren't a regular attendant it is not too late to start even now as beginners are given special attention.

Chemistry Club

A meeting of Chemistry Club was held at 3:45 Friday afternoon, January 4th. At this time Miss Daly, the president, spoke to the club on the subject of water. The three most important things of life are air, food and water. Water is of the greatest importance, both chemically and physically. Miss Daly spoke of the main sources of water for drinking purposes and explained the necessity of its being pure. Pure water is necessary because it doesn't remain in the stomach long enough to be purified. Many diseases are caused by drinking impure water. In 1889 there was an epidemic of typhoid fever in the cities along the Hudson River below the Mohawk. This led to the present system of municipal purification. Our drinking water is mostly purified by methods of filtration. The slow sand filter is of English origin, while the rapid mechanical filter is an American invention.
