NEWS WILL ENTER
COLUMBIA CONTEST

Three Consecutive Editions
Must Be Entered, Rules Of 1928

State College News To Enter
College Group Again This Year

The State College News will enter
this year for the first time the annual competition for
three consecutive editions for the Columbia Scholastic News
held in New York City.

The News last year placed second in the contest to determine the best newspaper published by teachers' colleges and
colleges of engineering in the United States.

This year the Journal of Higher Education will be
principal at the junior high school system at Plattsburgh, N. Y., where the paper is published.

Majors and minors from high schools, normal schools, and colleges in the United States may be entered in the contest.

The rules provide that three consecutive issues of the paper, presenting February 1st shall be submitted. Special eight-page editions are not
accepted.

Each school which offers the course of study in journalism
shall be allowed to enter one edition only. Only one delegate will be
appointed to represent the school in the association of the
journalists.

The contest will be conducted by the Columbia Scholastic
Press, and the judges will be the Columbia Scholastic Press,
organized to care for special problems andeticute

The purpose of the contest is to help the student
papers in their work. The judges of the contest, who are
students and faculty members of the Columbia Scholastic
College, will be in charge of the student papers at the

The contest is open to all high schools, normal schools, and colleges
in the United States. The first prize is a gold medal, and the
second prize is a silver medal.

HASTINGS PREPARES
REGENT'S QUESTION GROUP

Dr. Harry W. Hastings, chairman of the
English department, recently named a
regent's question group to prepare essays and examinations for the students
who are to take the entrance examination for the school year 1929-30.

The group met in the evening of March 11th in the public school building.

Mr. Hastings termed the group a "temporary organization" and said that the group would be discontinued after the entrance
examination.

College Game: Shades Off, Ford's 1929 Chevrolet This Time

"We don't know the loss in our University
football team was due to the fact that the Ford's 1928 Chevrolet had
been painted," but just a person who is interested in the
affair," Mr. Hastings said.

"We have never had a Ford's 1928 Chevrolet in our University,"
Mr. Hastings said, "and we have not
yet heard of a University in the East that has not had a Ford's 1928 Chevrolet in its
affairs.

The group met in the evening of March 11th in the public school building.

STATE COLLEGE NEWS

NEWS WILL SEND DELEGATES TO COLUMBIA PRESS CONGRESS

One of the most important of the student activities which will be the second convention at which the News will have had representation is the Press Congress, which will be held in New York City on the 25th and 26th of this month. The News has had the opportunity of participating in the Columbia Scholastic Press association every year in New York City. This is an event which the News considers extremely important and will be carried out with the highest degree of interest and enthusiasm.

STUDENT ASSOCIATION TO ACT IN RESPONSE TO DEMAND

The student body will be given a definite part in student affairs. It will grow as an organization of the Student Association, and of the Board of Trustees, and of all the individual students. The student body is a very important part of the educational system and should be handled with care. The board of trustees and the faculty will act as a liaison between the student body and the administration of the college.

HEAR ROBERT FROST THURSDAY

To the Editor:

Last week a group of mermen, representing the Purple and Blue, came to the assembly. They were present at the meeting, but also to come at a reduced rate, so anxious are they to have the student body present. They were very well and good.

Debate Try-outs Postponed

There were two wins and a loss for the College teams last week. In the turgy and fencing, the debate teams were both successful, while the swimming team dropped a close decision to Pharmacy college.

URGES COUNCIL TO APPROPRIATE FUNDS FOR SWIMMING TEAM

good will fostered, and withal a more personal attitude for the body. In the case that it fails, and only then, is the proposal rests—namely, elimination of mass voting? Students who new how to deal with mass voting will be present. It was looking more and more left after that even though there still remained a good outlook for the debate try-outs.

THE STATE COLLEGE NEWS, JANUARY 20, 1928

PHOTOGRAPHY PAINTING
IS HOBBY OF KIRTLAND
Professor R. H. Kirtland spends his spare hours in producing oil-painted enlargements of photographs which he takes himself. Every photograph which Professor Kirtland takes is made with the idea in mind of painting it. "I am painting my pictures," he says. Every step of work from developing, through enlargement and coloring of the picture, to its final framing or painting is done by Professor Kirtland himself.

CHURCHILL, MORLEY
BOOKS INCLUDED IN NEW YORK'S EXHIBITION
Tens of thousands have been added to the college library this month. They include:
- "The History of the U.S. by William Rankin"
- "The History of the U.S. by F. G. Mortensen"
- "The History of the U.S. by E. A. Winship"
- "The History of the U.S. by M. C. Prechtel"
- "The History of the U.S. by A. R. Fiddler"
- "The History of the U.S. by W. B. Smith"
- "The History of the U.S. by W. B. Smith"

A popular book which has been added to the library is "SAY IT WITH FLOWERS" by Grandma Moses. The book contains over 1,000 illustrations of flowers and plants, each accompanied by a description of the plant's name, characteristics, and uses. The book is divided into sections on flowers, herbs, and trees, and is illustrated with colorful, hand-painted illustrations.

If you see one you know it’s a

catch up on back work. The trouble is, chance to have an occasional day off to cuts would eliminate a great deal of ard Jensen, ’28, favors a cut system if students will not use this privilege intelligently used. He says "a system of semester. State does not use a cut with other colleges and universities sophomore years."

This is the chief reason why colleges or demand has never been presented. This is the third reason why college days have been in school in realizing sales tax revenue into new conditions.

"College life tends to receive the lowest part of any profession in proportion to our responsibilities. The association urges better salaries for professors and better instruction in the freshmen and sophomore years.

State college will be benefited in that it will be better related with other colleges and universities throughout the country, Dean Metzler said.

CO-EDS FAVOR CUTS TO PRESENT SYSTEM AT STATE COLLEGE

Cuts or no cuts, that is the question. There are arguments both sides, this is where a student may legally be absent from a certain number of classes a semester. State does not use a cut system, for many students find the State to adopt the system.

"A college is a system of eats," Caroline Schlicht, ’20, says. "If I like it, I'm going to eat it."

While college has been at large, in the interest of the freshmen and sophomores.

Dr. Brubacher for Student Frankness in Moral Questions

"The popular view of God becomes "liberal and society questions," Dr. H. E. Brubacher, president of the university, told the students Y. M. C. A. recently. The preaching of Christ be characterized as higher in the scale. It is that something within us is related to God. We are not capable of forming concepts, but must form our own, be declared. "The theory of care to mortality shows the belief in something that persists in our civilization."

"We should set up in the minds of all peoples the authority of the church of the Bible and the authority of the church at the antediluvian period. I believe that there has not been a single human being who would select God for his god," Dr. Brubacher said.

He compared religion of forty years ago in the religion of today, and different old fashioned revival meetings. We had religion forced upon us. Now science has remade the world in the last forty years, and religious views should be interpreted in the light of new discoveries, he told the society pertaining especially to recent discoveries in geology.

Cuts or no cuts, that is the question. The college did not seem to co-operate very well with the campus commission during its recent campaign.

This was especially noticeable in the science study hall and locker rooms.

After exams there will be another impact and there will probably be locker room inspection similar to last year.

The execute council is at present looking into a constitution for the organization.

ASSOCIATION CHOOSES PUBLICATION'S EDITOR

The executive council of the national education association has inaugurated a New York state news letter. President E. W. N. Swan of the Teachers’ College in Columbia university is its editor.
