R. P. I. SHOWS LOSS IN GUESTS AT BALL

Harvard, Cornell And Amherst Will Be Represented
At Dance Tonight

Fewer men from the Reserve Officers Training
Corps will attend the intercollegiate band
society's ball tonight than in several years, a recent
report states. Although other colleges and
universities which will be represented include
University of Illinois, Harvard University,
Columbia University, William and Mary College,
University of Wisconsin, Columbia College,
Army, Navy and the University of
California, the numbers are lower than in
recent years.

Delta Omega Names Guests

Delta Omega, the most popular social
group, will present its annual attractive
program tonight. Delta Omega is among the
most popular groups of its type.

F. P. I. Welcomes Delta Guests

F. P. I. will present its annual welcome to
Delta guests on the campus tonight. The
party is expected to be well attended.

Big Phi Announces Visitors

Big Phi will welcome its visitors from
University of Illinois, Harvard College, and
Texas A&M College tonight. The visitors are
expected to be present for the social
activities.

Chi Sigma Theta Guests

Chi Sigma Theta will welcome its guests
from University of Illinois, Harvard College,
and Texas A&M College tonight. The
party is expected to be well attended.

STATE WILL ELECT 7 OFFICERS TODAY

Assemblies Will Vote For 2 Juniors To Be Members Of Myskania

Eleven of the student officers and the
three junior members will be elected to
the Myskania executive board. Each
member of the junior board will then
become a member of Myskania. The
three junior members will then become
active members of Myskania.

STUDENTS TO GIVE PLAY FOR VOTERS

C. B. Ulbrich Will Welcome State Wide Convention
Tonight

C. B. Ulbrich, editor of the student
cooperative, will welcome the state
wide convention tonight. The
program will include a play for
voters.

IT'S YOUR RESPONSIBILITY - AN EDITORIAL

When students today vote for two
members of Myskania, they should
vote for a candidate they believe will
work for them and do their utmost
to have him elected. The student
association is as important to the
student body as the college trustees
are to the college. The student
association should be considered
as a leader in the student body and
the student body should consider
the student association as a leader
in the college.

STATE TO MOVE UP ON FRIDAY, MAY 17

Myskania Announces Speakers For Class Day With
Up Program

State plans for Moving Up day,
and the activities for the day have
been announced by the school.

Mycosco will speak for the senior class,
and Frisk will speak for the junior class.

Slaughtering Publicity Hunters

The time has come for the News to again tell the student body, house by house, the basic news which goes out or does not get out, this newspaper. This particular occasion is the somewhat limited inquiry by two members of the Dramatic and Art council who sought explanation as to why no more space was not devoted in the last issue to a discussion of the qualities of a newspaper. It is not a bad lead that would cause students to read it. With all the reading brought to the attention of the student body, there was no necessity for this news column. The News does not necessarily endorse sentiments expressed in this article.

"Birds And Bugs" Are Professor Bronson's Hobbies: All Forms Of Swamp Life Especially Interest Him

BY RICHARD N. BURGER

"Birds and bugs," meaning replied Professor Bernard S. Bronson, head of the chemistry department, after being asked concerning his "extracurricular" activities. The second letter of the alphabet seems to be a favorite with Professor Bronson, but his degrees of interest in his chosen hobbies shows that he has selected them to accord with the demands of his natural animus.

"Still water runs deep," and this quiet member of the faculty does have habits. Many years ago he was induced to take a little preliminary plunge through the uniform silences of the study to see just what kind of birds and fish he would find. And so he has been named. Mr. Bronson has admitted that some of his habits have developed the real spirit of a family, here become but a matter. Nevertheless he is still a result of the universal and never-ending craving for uncomparable fish and plants and other pets unusual to man.

The chemistry professor's special interest centers in man's work above and below the water, and his plans to make a thorough study of the swamp waters in comparison to the acid and plain life of the summer in the swamp, and below the water. He is planning to continue his study of the relation of animal and plant life to the summer and the wintertime to the animals, and will endeavor to work out in connection with the latter the little hydrograph. It is a problem in connection with the chemistry of the water.

Professor Bronson is to be invited to his ability to find the secrets of the swamp and bird neighbors, to make a study. From these sources he has a secret inkling of the little creature, and so succeeds in his undertakings.

"Birds And Bugs" Are Professor Bronson's Hobbies: All Forms Of Swamp Life Especially Interest Him

The annual luncheon of Phi Gamma will be in the upper second floor of the Union Union hotel, according to Maud Bonheur, '29, chairman. The speakers will be Edistore Welch, '29, Katherine Franklin, '30, Mary Brown, '31, and Margaret Wilson, '31.

CONDUCTS LUNCHEON

Mildred Hawes, '30, will conduct the entire lunch and program. She has a secret inkling of the little creature, and so succeeds in her undertakings.

Sixteen new courses and one new department are included in the catalogue for the summer session which will begin July 8 and will continue until August 17.

Four of the new courses will be in the business department. Miss Blandine M. Avery, acting in commerce, will conduct a class in elementary commerce. Courses in methods in shorthand and business English, principles and problems in commercial education, and organization and teaching of commercial work in the part-time school, will also be offered by the commerce department.

Professor Adam A. Walker, head of the economics department, will teach two new courses during the summer. Economic history of the United States, and social problems, are the courses that will be offered.

New Education Courses

The education department has added three courses to its last year's catalog. The teaching of adult students, the supervision of the school principal, and problems in testing, are the three additions. The other courses will be offered by this department.

Two new courses have been added to the English schedule, some modern methods, and reading in American literature since the Civil War. The second course, which is only offered to juniors, has had no changes in composition.

Constitutional law of the United States, corresponding to American 9 in the regular curriculum, has been added to the government courses. Educational statistics, a course not given on the regular curriculum, is to be part of the mathematics schedule. It includes an elementary treatment of the mathematics methods which are used in the presentation and interpretation of education statistics.

The physics department will have two new courses, one in sound, light, and electricity, and the other in methods of teaching physics.

The new department which has been added to the summer curriculum is vocational education. It includes courses in vocational and educational programs, in counselling and placement, in general practical arts, and in vocational education.

Charles" Would Like Airplane

In Which To Deliver Education

"No, I don't want a baby carriage to carry the mail around College." Charles Wortham, College junior, said, "Then why not have a "Charles" would like an airplane to deliver mail. The president of the class, "Charles" is only a name, and it is the only name that will be printed on the envelope of the mail that will be delivered.

The elementary dramatic class will present three plays, Friday and Saturday, May 25 and 26 in the Main Auditorium of History and Art. The first, "Aria da Capa," a comedy by John Stuart, will be first performed; the second, "The Cat," in the role of "Charlie," will be presented by Bernadette Halm, "Charlie" is the only other name that will be printed on the envelope of the mail that will be delivered.

"Charlie" has never been offered before in the college, and he is the only one who can deliver the mail.

DEBATE TEAM WINS
FINAL CONTEST, 2-0

Defeat Of Hamilton College
Loses Most Successful
Debating Year

Second victory of the year's variety
definition home over the Hamilton team
the making of thepee of the question on
the ability of the jury closed the most
successful year in the college's dramatic
debating relations that State College has
experienced.

All three speakers for Hamilton
denied their speeches toward showing
that the jury was well-informed
and interested. They did not, as
nearly all other teams do, offer a sub
summarized plan to replace the new
they were unable to remove.

Well prepared and methodically
denied both the contentions
and rhythm speeches of the members
of the State team. The State team
attacked the system represented the
social sense of pride, and the university
was a boon to the students of the
jury to appear.

Hamilton was represented by Spencer
Phillips, Edward F. Morgan, and Lord
Evans. Mr. Evans' speeches were upheld
by 2:0. The ballots were: Edward F.
Wells, majority; and Mr. Evans, second
place.

20, forward.
4. Helen Wade, 20, wing; Helen
Wade, 20, wing; Helen Stratman,
20, wing; Helen Norgard, 20, forward.
Not lightly chosen

One’s gown . . . one’s jewels . . . one’s cigarette . . . These things are so much a part of the subtle web of personality, that clever women choose them as they would a confidante . . . And though every gown is different, and gems vary, their taste in cigarettes is strikingly uniform.

They have chosen Camels.
