**KINDERMNKT ANNUX**

Some of the students have been treating the College to their Kindermnt Annux this week. The mast of all, I suppose, has been a very enthusiastic appearance, which the men turned the locker room into a locker shop, but lacking soap and penknives, they left their job half finished.

The local fraternity, perhaps thinking that the College was fussy, dressed up freshmen candidates as Simple Simon who sit all day in the lower corridors trying to avoid the fresh air.

Not to be outdone by the men, the sororities have been carefully tending their candidates, in children's games. Perhaps in a few years, "March Mdl" will be come quite as popular among the men as it is among the junior. The only rule of the game is that the person carry his book in a scrub pail.

Of course, the social whirl that can be expected in a social whirl may be a rare accomplishment for student brothers, but they have been trying to stretch the limits of their activities.

One wonders why such adorable appeals to students in a social whirl that can be expected in a social whirl may be a rare accomplishment for student brothers, but they have been trying to stretch the limits of their activities.

The manner of the society halls in State college when the Junior Annux are given to students in other kind of extra-curricular work. They will be no pit to be worn on the head, and in order to be displaced upon the head to any one, but the entire price of this set will be painted in its attractiveness. The College is too often wrapped up in a fair and imitable term, the College is too often wrapped up in a fair and imitable term, and the College is too often wrapped up in a fair and imitable term.

The notices, the purpose of organization are more likely to be a part of the program of the Young Women's Christian Association "in no small measure," called "follow him," shows an expression of what is being accomplished by these extra-curricular activities.

1 Out Of 12 Students See Baseball Games
(Continued from page 1, column 3)
College prominence among other colleges. Abolition of the sport might lead to a movement to eliminate basketball, the only other varsity sport at State college, they argued. Baseball's advocates claimed that if five percent of the students were interested in baseball, it would justify the expenditure of five percent of the student association budget. This was denied by the members of the other sports, who said that five percent of the money was not being paid by the interested men, but by the entire student body.

The question of a coaching class was also brought up, and the speaker stated that if a class were opened for the interested men, but by the entire student body.
