Psychic Tunes Flow From Juke

The spring semester's Juke Box is set to play tunes from the best of both worlds. The Juke Box will feature music from the past and present, offering a diverse selection of songs for students to enjoy.

Psycho Tunes are much milder with an expectation of different music. There is absolutely no difference in the quality.
Once More . . .

Since the special rules for Art Kapper's innominate finger are in the process of being made effective, the necessity for the NECSI has lessened, and the committee publicly wishes Kapper to take note of this, and not to off-end upon the members of our parsley. As for me, I have no desire to appeal more to Student Association. Chesterfields are premium quality cigarettes and come in the smart white pack.

Both contain only those proven ingredients that make Chesterfields the best possible smoke: the world's best tobaccos, pure, more and specially selected curing agents (to keep them tasty and fresh), the best cigarette paper that money can buy — nothing is spared.

Both are much milder with an extraordinarily good taste and, from the report of a well-known research organization — no unpleasant after-taste.

Both are exactly the same in all respects. There is absolutely no difference except that king-size Chesterfield is larger — contains considerably more of the same tobaccos — enough more to give you a 20% larger smoke, yet costs very little more.
