The Legend of the 'Lost Dormitory'

If the University does not take immediate steps to assure the safety of women traveling to and from the dorms at night, the time will not be long before a tragedy occurs. Already several incidents have occurred on campus and at the dormitories. Vulgar remarks by drunks and attempted pick-ups by sorority members have become the threat of constant occurrence.

However, the trend should be clear. The sight of a few lonely girls is a familiar scene for everyone, particularly, and mas on the make in Albany.

We ventured out to the Great Albany Dunes (more colloquially at the new campus) the other day to see how construction was faring great, we were hoping to see some of the familiar faces. Basic...

Kennedy A Competent Man Says Incensed ASP Readers

To the Editor:

As a member of the ASP, I was incensed to read the incendiary editorial "Riding High on Flag Fever" by Barry Goldwater (Oct. 2). The essay was truly a condescending missive and a reprehensible attempt to demean the student body of the University of New York.

The author of the article shows a lack of knowledge concerning student government and his attempts to belittle the position of the Resident Assistants and House Mothers are equally appalling.

In this essay, the author presents the view of the student government as being unfounded and accuses it of wasted time and effort. He fails to see the reality of the situation; instead, he chooses to ignore the work that is being done by those in student government.

The author goes on to criticize the RA's and HM's for their involvement in political activities and for not fulfilling their duties. He suggests that they should be removed from their positions, which is a gross understatement of their duties.

It is evident that the author has a lack of understanding of the role of student government. He fails to recognize the importance of student government in the overall function of the university.

We, the student body, are not here to be cowed or silenced. We are here to have our voices heard. We are here to represent the students and to make a difference on campus.

It is our hope that the writer of this article will take the time to educate himself about student government and the role of the Resident Assistants and House Mothers. Only then will he be able to understand the true value of these positions.

In conclusion, we believe that Barry Goldwater's article is a poor attempt to belittle the student government. We urge all students to support the Resident Assistants and House Mothers, and to stand up for what is right. We believe that student government is essential to the functioning of the university, and we will continue to fight for it.

Sincerely,

**Student Ambassador Recounts Summer in Modern Japan**

by Elizabeth Rembert Meade

It is often difficult to describe something, especially if you have no accurate experience to base your description upon. In my case, I faced this problem when I reflected upon the summer I spent in Japan. The experience was unique and diverse, encompassing various cultural aspects and personal interactions. Today, I aim to share a glimpse of my observations, hoping to convey the essence of my journey to you.

The summer I spent in Japan was a transformative experience. I had the privilege of meeting and spending time with the Japanese people, experiencing their customs, and exploring their beautiful cities. I was particularly struck by the contrast between traditional and modern elements in Japanese society, which I found fascinating and insightful.

One of the most notable experiences for me was the integration of technology and tradition in Japanese life. From the sophisticated architecture of Tokyo to the serene beauty of Kyoto, the country proudly embraces both modern advancements and ancient customs. I observed how technology, such as smartphones and high-speed trains, coexist seamlessly with traditional practices like calligraphy and tea ceremonies.

Another aspect I found intriguing was the role of humor in Japanese culture. The Japanese people have a unique way of looking at life, which often involves a light-hearted approach. I witnessed this through their interactions, their art, and their entertainment. It was evident that humor is an integral part of their daily life, helping to ease tensions and maintain a sense of joy.

In conclusion, my summer in Japan was a journey of discovery and learning. It allowed me to experience a country rich in history and culture, where technology and tradition intertwine. I believe that my experiences in Japan will continue to influence my perspective and enrich my understanding of the world.

**Dr. Pettit Returns After Year in Cyprus, Europe, Asia**

by Bobbi Friedman

"It was the finest year of my life," said Dr. Paul Bruce Pettit, chairman of Speech and Dramatic Art, looking back on the '63-64 academic year that he spent as producer-director of the Greek-Cypriot National Theatre in Nicosia, Cyprus and related travels in eastern Europe and Western Asia.

Dr. Pettit departed for Cyprus in September, 1963 with his family to assume his position. The proposal was accepted by the University of Athens and the Cypriot government. His appointment was made possible through the efforts of the American Friends of the Greek-Cypriot National Theatre of Nicosia, under Dr. Pettit's leadership. His theatre was located in Nicosia and featured plays in the Greek-Cypriot language.

Dr. Pettit returned to the United States in June of 1964, after spending a year in Nicosia. He was scheduled to leave for Athens in September to begin his teaching duties at the University of Athens. However, due to visa problems and other difficulties, he was unable to return to Greece.

---

**Under Dr. Pettit's direction, "The Match Maker" was produced at the Greek-Cypriot National Theatre in Nicosia.**

Oratory Reflects Split In Dem-GOP Thinking

By Cynthia Goodman

The Democratic strategy hinges on having a large part of the party's image tied to the struggle for political power. The Republican strategy, on the other hand, has focused on a more moderate, centrist position. The contrast between the two parties is evident in the way they approach the issue of strategic weapons.

During the debate on the Senate floor, Portman and Shaiken both highlighted the importance of their party's approach to strategic weapons. Portman emphasized the need for a strong, independent military, while Shaiken argued for a more balanced approach that considers both defense and diplomacy.

The contrasts between the two parties' strategies are particularly evident in the context of the current political climate. The Democratic Party, with its emphasis on the need for a strong military, is seen as more aligned with the conservative wing of the party. On the other hand, the Republican Party, with its emphasis on a more balanced approach, is seen as more aligned with the progressive wing of the party.

Overall, the debate between the two parties highlights the differences in their strategies and approaches to the issue of strategic weapons. The Democratic Party's strategy emphasizes the need for a strong military, while the Republican Party's strategy emphasizes a more balanced approach that considers both defense and diplomacy.
Pods Top Siena 20-39; Robinson Sets Record

Led by Robson's record breaking performance, the cross-country team topped Siena 20-39, and has now smashed the Siena course record for the third consecutive year, was clocked at 15:06.8 for the 3.6 mile course, beating his 1962 record of 15:08.8. The victory was the second straight for the Pods this season. They defeated Brooklyn College in their first meet last Saturday. Saturday's captain Clark Connolly pointed out that the Pods are taking this meet seriously. The team ran a fast race this past weekend in each Albany-Duncan meet, respectively, but in the heat, was very little effort.
