By Dean Chang

The Danes' defense, Army had been scoring at an average rate of 0.25 goals per game for most of the year. One good shot was at the right back or left back position. The Danes had put on a good showing, but the offense was still unable to score against the Bombers. The second goal was made possible when Jerry Isaacs passed the ball to Presbie on the edge of the goal. "It's definitely a season, look a step towards that..." The defense was still able to hold until the end of the game.

By Michelle Busher

The Danes were "on fire" as they moved down the field, revelling in their dominance. "The whole team was hungry to win," said Duarte. "We will definitely try to remain consistent in the future." There's something new on State Quad besides the flowers.

The State Quad Computer User Room, which opened last week, is the beginning of a program that could evolve into a new computer service for students. According to Director of Residential Life L. V. Marthe, State University's first computer user room is in the Zonta dormitory. The computer, a DEC 20, is a joint effort of the SUNY Research Office, the University Computing Center, and the state, which contributed the computer. The program, which is also the result of a recent renovation of the Zonta dormitory, is designed to provide the opportunity for students to use computer facilities.

The computer user room is located in the Zonta dormitory, and is available to all students. The computer is a DEC 20, and is equipped with a color monitor and a keyboard. The computer is available to all students, and is available to all students. The computer is available to all students, and is available to all students.

The computer user room is open from 8 a.m. to 10 p.m., Monday through Friday. The computer is available to all students, and is available to all students. The computer is available to all students, and is available to all students.
Directories expected to arrive in November; Chesin sees no delay

By Leslie Chail

After the series of unfortunate events last year which delayed the release of the directories, students, administrators and staff were pleased to learn that this year's directories have been finalized and that they should be out in November.

Address and phone numbers of students living on the quads and not yet available at the center will be received by the Office of Residential Life. This information will be provided by the Office of Residential Life. Students who have moved or changed phone numbers should contact their Center Director. Until then, students should contact the phone numbers on the guides until the guides are out.

The directories will be available after October 1 at the Office of Residential Life.

Last year, students who were interested in obtaining the guide before the official release could turn in a $20 deposit. The deposit will be refunded when the directories are available.

Car registration rules outlined

Students have until midnight September 30 to register their vehicles. According to Traffic Division Director Lloyd Hebert, there are some rules to follow.

Car registration rules will need to be followed until the end of production time.

Students will be required to have a valid license and registration for their vehicle.

Student voting places

The Student Association is currently ap­
ing for the next meeting on the move
Colonial Quad's polling place from the
Chapel House to Colonial Quad. The move
will increase the accessibility of the polling
place to students living on campus.

SA President Rich Schaffer said that the polling
place will be moved to the Center for Campus
Life, which is located in the Center for
Community Life.

Aid to part-time study

Dr. Dolores E. Cross, President of the
SUNYA, announced last week the dedica­
tion of a new program of aid for part-time
students. The program is designed to provide
financial assistance to undergraduate students
who are registered in at least one part-time
credit hour.

The program is set to begin next semester
and will be available to all SUNYA students
who meet the eligibility requirements.

The awakening of the Graduate Student Union

The following is the first in a continuing series of columns written by and for graduate students. If you are interested in writing, contact John Crawford at the GSEU.

By John Crawford

A population is awakening at SUNYA. They are demanding the crown of sacred sovereignty, drinking a bit of coffee, leaving their apartment doors open and sending out campus claiming their turf.

Graduate assistants — 4,000 at SUNYA Albany — are organizing themselves and demanding that they have a say in decisions affecting their daily lives at SUNYA and in SUNYA.

They feel that the SUNY system is not being represented adequately on campus and that a better collegial life is needed. They are only claiming what they are due and will not be the only unorganized on campus.

The OSEU is aware of its power at SUNYA. It is the only reasonable alternative to assess the current situation.

President O'Leary should act on the report. Let graduate students decide these questions about fees and representation by their own votes. Democracy is a democracy desired. If a GSA existed at Albany, graduate students would already have a voice advocating their democratic rights. Currently, 4000 graduates are unrepresented and unheard.

Both organizations, the GSEU and a potential GSA articulate a new awakening of the SUNY graduate population.

Starting this year, graduate students want to know about, and participate in, decisions affecting their lives.

Yes, I like the idea that you've come together and you've organized, and you're trying to help yourselves, and you have a right to make your own vote, and I'd be pleased to hear more about it.
The “Party” At RPI: A Review

I attended, possibly ungraciously to the ticket seller, but I was in the mood to enjoy myself on my way to El Greco’s to pull a beer from the counter and join the company of friends in the place where I worked. As I crossed the street and entered the building, the music was loud and the atmosphere was buzzing, with people dancing and socializing. I was struck by the energy and the sense of excitement that filled the space.

As I made my way to the bar, I couldn’t help but notice the crowd, which was made up of a mix of students and faculty, all enjoying each other’s company. The atmosphere was electric, with people laughing and chatting, and the music was a perfect backdrop to the lively scene.

I ordered a beer and found a spot to sit, where I could appreciate the invigorating atmosphere. I sincerely hoped that one of the bands would be able to fill the dance floor with their music and keep the crowd entertained. I was looking forward to a night of fun and good times.

The Drongos, a talented, popular New York-based rock band, consisting of keyboards and vocals by Stan Mitchell, guitar and vocals by Richard Kennedy, and drums by Tony McMaster, were the first to take the stage. Their music was energetic and their performance was impressive. The crowd loved them and they received a warm welcome.

Honestly, though, who cares? Their clean, self-tribute, proved to be welcome respites to all the other bands that worked in their favor:

1) Honestly, though, who cares? Their clean, self-tribute, proved to be welcome respites to all the other bands that worked in their favor:

10) Honestly, though, who cares? Their clean, self-tribute, proved to be welcome respites to all the other bands that worked in their favor:

The Sharks, an enthusiastically lauded uptempo rhythm and blues band, succeeded with the glaring white auditorium lights. I stared at them, and thought about how lucky I was to be there. The Sharks were the perfect band to end the night.

I left the party with a feeling of satisfaction and contentment. I had enjoyed the music and the company of friends, and I knew that I would be thinking about this party for a long time to come.
EDITORIAL

"The ASP never sleeps"

That's our motto. And all day, every day it's true. It's something we all believe in. As a student run newspaper, our paper goes out five days a week, 12 months a year. It's a hard job, and we wouldn't do it if we didn't think it was important. We believe in what we do, and we do it because we care. We care about our school, we care about our community, and we care about our readers. And we never sleep. We never stop working. Because we believe in the power of the press, and we believe in the importance of telling the truth. So, as you read this issue, remember that we're here, working hard, to bring you the latest news from SUNY Albany. We never sleep, and we never stop. We're always here, ready to serve you. And we're proud of that.

COLUMNS

Catch the Spirit

The weather may be turning cold outside, but something very special has taken on. It's growing in popularity—The ASP's Mardi Gras. This year, we're taking it to the next level. We're planning a parade, a party, and even a float! It's going to be amazing. So, make sure you're there. We don't want you to miss out on the fun. We're looking forward to seeing you there. We're always here, ready to serve you. And we're proud of that.

LETTERS

Poor advisement

To the Editor:

In the recent student activity week, I was an intern for the SUNY ASP. I was a part of the editorial board, and I was assigned to the advising position. However, I was told that I could only make changes to the advisor's notes. This was a very frustrating experience for me. I was there to help, but I wasn't able to do anything useful. I would have liked to have made some suggestions, but I was told that I couldn't. I was very disappointed with the way things were handled. I was there to help, but I wasn't able to do anything useful. I really hope that things will improve in the future.

Poor advisement

To the Editor:

I recently attended the student activity week, and I was impressed by the amount of work that the ASP staff put in. **Audit criticizes SUNYA Infirmary**

Cohen and Singer collaborate

Cohen and Singer have been collaborating and have been work on the release of the report to the Governor. Cohen won the 1984 Excellence in Teaching Award at SUNYA for her work in establishing the sense of comedy. Singer has been awarded the SUNY Honorary Doctorate in 1981, for his contribution to the field of Yiddish studies. They have also collaborated on the development of the SUNY Honorary Doctorate, a new program that recognizes outstanding contributions to the field of Yiddish studies.

The Comptroller's Office also recommended that the "best course of action" be to establish a policy for physicians who are "on call" for the infirmary. The report also noted that the cost of campus infirmaries was $6.2 million for the fiscal year ending March 31, 1984, according to Singer's office. Of the total cost, 9% was funded by the state, the report said, with the remaining funds being drawn from student fees. The report also criticized SUNY for failing to establish a policy for physicians who are "on call.

Solomon eyes tougher amendment

WASHINGTON, D.C. — Senator Daniel K. (Dan) Solomon, author of the law that declared federal aid to students who refuse to register for the draft, says he may seek additional laws to apply even more pressure on students to sign up for Selective Service.

The Supreme Court recently ruled that the Solomon Amendment is constitutional. At his press conference on July 1, 1984, reflect that all draft-eligible men must indicate whether they're registered when applying for federal aid or to colleges and universities.

The amendment, which is the intent of Congress and the U.S. law, is referred to students who can't get federal aid off the table. The government could cut off funding to those schools that help non-registrants.

Reagan cuts hit colleges hard

As this 1985-86 federal model-based college budget continues to cut back, many colleges are experiencing these effects from Reagan. In 1985-86, those campuses which refuse to comply, Students, USSA's Ozer adds, have had their worries on campus.

To wrap up the Awareness Days, there will be a panel discussion on "Violence Against Women" headed by former members of SUNYA's Ostart. The Administration also proposed to cut student aid forms. There will also be a panel discussion on "Violence Against Women," headlined by Gloria DeSole.

Fraud Calls

There will also be a Fraud Calls dealing with "Fraud," or someone in your right to receive federal aid. This will be held at noon on Thursday in CC 370. SUNYA's Director of Affirmative Action Claire Deliso will lead a discussion on "Sexual Harassment in the Academic Environment" which she described as "unfair to students who don't want full compliance," he added. Student aid forms are available for more info.

Fred coast Community Colleges. Federal aid rules, the "We're really affected us because up until this year Reagan's performance."

"Sexual Harassment in the Academic Environment" which she described as "unfair to students who don't want full compliance." She added that this may also occur in the near future.

**Men's soccer team beats Manhattanville, 5-0**

By Dean Chang

soccer editor

In recent years, there were many unanswered questions about Albany's men's soccer team. What made the Sabaskets so dangerous? What was their strategy? What distinguished last year with this year?

This year's team is exactly how good we are. The team has developed a great bond and chemistry. They are very talented and confident. The team is very cohesive and works well together.

The game was won by the Sabaskets early. They scored in the first 30 minutes. After the win, the Sabaskets showed their dominance by winning the second half 4-1.

**GREAT DANE TRANSPICT**

By Keith Marcer

The Albany State Great Dane Press is the University of New York at Albany's student newspaper. The paper is published six times a week, with the exception of breaks between semesters. It is distributed in the University area.

There are always a few barriers that have made us otherwise: our schedule, budget, and time. Our staff is currently made of 28 people, and 20 of them are in high school, and we only have 20 people.

"On a team of 10 girls, if we lose anyone for 1 day, it could mean we lose 3 days. These injuries are not severe, but they do cause problems.

The second barrier is a tough schedule that includes five games in three days. The third is time. The Dane Press has to improve its timing, especially in the East. A number of programs, such as basketball, include unknown quantities like fluxibility.

**Jim Serbalk returns to head Dane netwomen**

By Perry Tuckman

soccer editor

The Sabaskets are looking for a new starting goalie this season. The Danes have no experience at the position, but they have found a solution.

Jim Serbalk, who is replacing an injured Tommy Mercieca, has been named to the Danes. His experience will be a great asset to the Danes.

"On a team of 10 girls, if we lose anyone for 1 day, it could mean we lose 3 days. These injuries are not severe, but they do cause problems.

March 1st was a big day for us. We played our first game of the season.

We lost our first game of the season against the University of New York at Albany. We hope to improve next season.

Jim Serbalk, who is replacing an injured Tommy Mercieca, has been named to the Danes. His experience will be a great asset to the Danes.
Ten turnovers hurt Dances in loss to New Haven

By Marc Barman

The Danes' case of "fumbleitis" started with two blocked extra-point kicks in the second quarter. Though Russell also failed to put points on the board, the ball had been on the line of scrimmage both times, (they had 10 men on the field both times). The Danes couldn't come up with a solution.

By Dean Chang

Dane baseball defeats a pass to Chet quaterback Paul Kelly for a touchdown in the third quarter at RPI on Wednesday afternoon. The "second time they did it we prepared for it so backed up and waited for the throw."

Noted author lashes out at tolerance of pornography

By James O'Sullivan

"In the presence of love being produced as a set in every way possible, further humiliation, physical humiliation, being imposed in RHP, anything that humiliated women has a real value in pornography."

Off-campus students face threat

City investigating 'student ghetto' housing conditions

By Jane Anastin

Off-campus students living with more than two people in one apartment or house are being ticketed. The city is looking to strengthen its housing ordinance requiring the "student ghetto" on the South End.
